Found Their Clothes.
James Coleman, who lives just south of Salem brought to the city this morning the missing prison clothes of Tracy and Merrill, and they were turned over to the prison authorities. There was a blouse numbered 4088, Tracy's prison number, and two prison trousers, numbered 4088 and 4089, the numbers of both Tracy and Merrill. They had been left in the woods on the Coleman place, where they were tracked by Chief of Police Gibson, who was evidently very near to them, and was right in his theory that the escaped convicts never crossed the road to the west during the day. The discovery of this clothing by Mr. Coleman also proves that it was Merrill who held up James Roberts for his suit of clothes the night following their escape. From the place where these prison clothes were found it is evident that the militia worked all around them that day, and probably came very near running onto them several times.

One Officer Has Resigned

Roy Byrd, who was recently unanimously elected second lieutenant of Company F, Fourth Regiment, O. N. G., has tendered his resignation, and a second election to provide for the vacancy thereby created will soon be ordered. It is learned that Captain H. A. Kurtz and First Lieutenant L. E. Judson both very creditably passed the examination they were obliged to take subsequent to their election, and commissions will issue in due season. The election to supply a second lieutenant will be held previous to the date of the annual encampment, July 17-24.

Consumption Crop

IS NOT LARGE

Yield of Strawberries Will Not Equal That of 1901

As the season advances, a shortage of considerable extent is disclosed in the strawberry crop in the section tributary to Salem. In fact the yield is not sufficiently large to supply the home market, and keep the Allen Packing Company's cannery in continuous operation. While the crop is considerably larger than last season, still it falls short probably 33-1/3 per cent. of an average yield. This shortage is attributed to the backward season, for the acreage has not been reduced. G. W. Holcomb, manager of the Allen Packing Company, today estimated that the strawberry crop will last about two weeks longer. The cannery will this week begin canning cherries, and will alternate that fruit with strawberries. In this way the management expects to keep the plant running all the time.

DR. DARRIN'S TREATMENT

Startling Illustration of What Can Be Accomplished By Electricity.

The philosophy of his treatment may be briefly stated thus: Force is spirit in motion. Vital force is organic motion, or the proper movement of the organized particles as they pass to and fro from the human system. Disease, in a word, is obstruction—the result of an impaired vital force, and it is at least accompanied, if not caused, by deranged organic motion. These derangements can only be radically removed by inducing the recurrence of the normal or healthy action. A cure can only be effected by calling in the aid of the electro-magnetic or vital forces, which are concerned in all organic changes. So powerful is this influence that persons who have many years suffered, have been restored to health in an almost incredible space of time. Dr. Darrin's system will not restore a lost member of the body, or perform other impossibilities, but it will, in a majority of cases, give relief and cure where other remedies have failed. The practice is based upon the most strict laws of science, and is in harmony with all natural laws. Physicians of every practice not only acknowledge this power, but receive the treatment for themselves and their families, as well as recommend the treatment. Read the following:

Mrs. Karg's Grateful Tribute.
Leland, Or., Nov. 14, 1900.
Mr. Editor: Please publish this for the benefit of those who are afflicted with sciatic rheumatism. I had it and was cured by Dr. Darrin. I took sciatic rheumatism in November, 1896, and had it until November, 1898. My body was all drawn and bent to the right side; the pain was terrible in my back and hips to my knees; sometimes I had to go on crutches, then again I would get so I could walk with a cane; then all at once I would be so I could not get out of bed; my husband would have to put me in a chair; I suffered everything for two years. I took all kinds of remedies I could hear of for sciatic, but they failed to do any good. Then I heard that Dr. Darrin was in Grants Pass; I made up my mind that I would go and see him; I could only take a few steps at a time without the aid of a cane, then I would have to stop and rest. I took the first electric treatment on the 27th of September, 1898; and on the 28th I went again and took another. At the end of four hours, after I took the second treatment, I could walk all around the house without a cane, and that evening I went out in town to three different stores and bought a few articles, and then I went to the depot and took the train and came to Leland. My daughter, Mrs. Walter, met me at the Leland depot, and when I left the car steps without assistance, my daughter said to me: "Why Mother!" Then she said, "How do you feel?" I told her I was getting well. We would laugh and cry together to think what a great change I had gone through in such a few hours. In a week I was doing my own housework. My case was a severe one, so Dr. Darrin gave me three months' treatment, but at the end of six weeks I felt so well that I quit using the electricity. The treatment he gave me was electricity and medicine. I haven't had the slightest symptoms of sciatic since. I hope all those who are afflicted with sciatica will go to Dr. Darrin. He will cure them as he cured me.

Yours truly,
MRS. G. KARG.

Dr. Darrin's Place of Business.
Dr. Darrin can be consulted free at the Willamette hotel, Salem, until July 6th, from 10 to 5 o'clock daily, evenings from 7 to 8; Sunday 10 to 3. All curable chronic diseases, lost manhood, blood diseases, stricture, errors of youth, cancer and deafness, are confidentially treated. Cures of private diseases guaranteed, and never published in the papers, and no cures published only by permission. Most cases can receive home treatment after a visit to the doctor's office. Inquiries answered and circulars sent free. Batteries and belts furnished, with full directions for their use. Eyes tested and glasses fitted.
Dr. Darrin's terms for treatment are now \$5 a week, or in that proportion of time as the case may require, except in special cases. The post treatment free, except medicines.

Was Deaf But Hears

C. R. Durfee, a farmer residing near Shaw station, is one of the happiest men in this county. For over 23 years he was deaf in the left ear, his hearing being entirely destroyed, while his right ear was entirely normal. After treating with Dr. Darrin, at the Hotel Willamette, Mr. Durfee can hear perfectly in the left ear, and is loud in the praises of the physician who so successfully treated him. Mr. Durfee says the restoration of his hearing is a great relief to him, for he can now hear every sound, and locate it. Miss Nellie, the daughter of Mr. Durfee, was also cured by Dr. Darrin of deafness and granulated eyes about two months ago, and is now teaching school. Mr. Durfee called at The Journal office, and volunteered the above statement.

The Science of Osteopathy...
Many people have been led to believe through false reports and ignorance that Osteopathic treatment was painful and even injurious to children or weakened invalids. Nothing could be farther from the truth for it is adapted to the case, and in no wise is it injurious to the frail child or weakened invalid. But rather it is invigorating and strengthening, and never is the patient worn out or made nervous from treatment. However, there are many fakers and pretenders in Osteopathy who do not understand how to give treatment properly. None are genuine or competent who have not attended school at least four terms of five months each.
Drs. L. E. Wyckoff and Mrs. Grace Albright, of I. O. O. F. Temple, Salem, are graduates of the American School of Osteopathy, a twenty months' school, and thoroughly qualified to give scientific treatment and handle any case put in their care. All diseases, especially chronic diseases and deformities, yield to the treatment without knife or drugs.
