MAYER-BALL NUPTIALS

Happy Home Wedding Performed at High Noon

A quiet ceremony, marked by the greatest simplicity, attended the marriage at high noon today of Mrs. Palmer Mayer of this city, to Mr. William J. Ball, of Toronto, Canada. The service was performed at the home of Mrs. Mayer's parents, Mr. and Mrs. F. Levy, at No. 307 Front street, by City Recorder N. J. Judah, who is a warm personal friend of the bride. The marriage was a quiet and unpretentious affair, and was witnessed by only the members of the Levy family.

The bride is the eldest daughter of Mr. and Mrs. F. Levy, of this city, who have been prominently connected with Salem's social circles during their long residence in the Capital City. She is a woman of much beauty, and her pleasing personality, simple and unaffected manner and naturally sweet and winsome disposition has won for her a warm place in the affections of all who are acquainted with her. She will join in wishing for her a wedded life of happiness. Mr. Ball, though a comparative stranger here, is well known to the Pacific coast commercial fraternity. He is traveling representative of B. Hart & Co., of San Francisco, and to cultivate his acquaintance leads to the formation of an attachment for him which has been so beautifully exemplified in the event here chronicled.

Mr. and Mrs. Ball left this afternoon for a brief tour of the Sound and British Columbia. They will not establish a residence for the present, as Mrs. Ball will accompany her husband on the itinerary of the West that his territory represents.

PERSONAL AND SOCIAL.

Tilmon Ford has returned from Eugene. Mrs. Frances Cornell has returned from Portland. Mrs. J. J. Murphy is home from a visit in Portland.

Miss Winnifred Byrd has returned from Forest Grove. Miss Winnifred Byrd returned last evening from a week's visit in Forest Grove and Portland.

Mrs. J. Harding and children have returned from Gervais. Miss Myra Raymond has returned from a trip to Portland.

County Clerk W. W. Hall was in Woodburn Tuesday afternoon. President W. H. Werung and Secretary M. D. Wisdom left last night for Ashland, in the interest of the state fair.

H. C. Brown, manager of the Salem Light, Power & Traction Company, was in Portland today.

Rev. John H. Coleman, president of Willamette University, has gone to Schoghtoke, New York, and expects to return with his family in about three weeks.

Miss Mabel L. Carter left on Thursday for her summer vacation, which she will spend in Hood River and Eastern Oregon points.

Prof. G. A. Wardell, of Astoria, has been elected a member of the Willamette University faculty, to succeed Prof. W. D. Drew, of the chair of Latin and Greek.

The musical and lawn party given by the ladies of the Episcopal church, on Wednesday evening, at the home of Mr. and Mrs. B. Thielson, was a very successful affair.

The recital given by the music pupils of Miss Eva Cox, on Wednesday evening, was very well attended, and each number on the program was well rendered.

Steusloff on the property he recently acquired at the northwest corner of Court and Liberty streets. It will be a two-story brick with basement. The front of the structure will be formed of chocolate-colored pressed brick. The machinery of Mr. Steusloff's cold storage and packing plants will be installed where the work of those departments will be performed.

Now that the Hoer war is over there will probably be a falling off in the demand for American horses and mules wanted for the British army. But Belgium might be induced to buy some of our surplus trotters. Last year Belgium imported 35,562 horses and in that country horse meat goes for food if one may draw his own conclusions from the fact that 16,000 horses were slaughtered last year in the Belgium saladeros. Belgium collects an import tax on bullocks, but horses are admitted free of duty.

BUILDING CONTINUES LIVELY

Shortage of Both Men and Materials

Real Estate Locally Remains Very Active

With a shortage of men and a lack of building materials, and the inability of local dealers to keep the market supplied, the boom for improvements, both private and public, continues. Decisions in building supplies and materials not only have nothing in stock, but cannot procure from their usual source of supply, sufficient stock to fill orders. This condition has had the effect of somewhat retarding active work and contemplated improvements.

Mrs. Dayton is having her property at the corner of Cottage and Chemekeeta streets extensively repaired and changed to a modern cottage. The work will cost about \$200.

While the considerations are not quite as large in the aggregate, still the real estate transfers for this week are as numerous as for the preceding weeks, and indicate a lively condition in the realty market. The transfers for the week amounted to about \$20,000. The principal deeds were as follows:

Harriam DeB. et ux., to Ferdinand Mickerham, 237.54 acres, 1 1/2 s. r. 2 w. \$7000.

C. J. Hinkle, et ux., to Wilhelm Upendahl, about 76 acres, 1 1/4 s. r. 1 w. \$1000.

Was Deaf But Hears

C. R. Durfee, a farmer residing near Shaw station, is one of the happiest men in this county. For over 23 years he was deaf in the left ear, his hearing being entirely destroyed, while his right ear was entirely normal. After treating with Dr. Darrin, at the Hotel Willamette, Mr. Durfee can hear perfectly in the left ear, and is loud in his praises of the physician who so successfully treated him. Mr. Durfee says the restoration of his hearing is a great relief to him, for he can now hear every sound, and locate it. Miss Nellie, the daughter of Mr. Durfee, was also cured by Dr. Darrin of deafness and granulated eyes about two months ago, and is now teaching school. Mr. Durfee called at The Journal office and volunteered the above statement.

Mr. A. P. Trotter's recent paper in the London Lancet has greatly interested scientists. He declared that the dangers of electric shocks at 300 volts have been much exaggerated—this being the strength at which electrical railways are worked. Dry boots without large nails and dry wood offer so great a resistance that a trolley wire may be touched while standing on a dry car or on the rails. Wet boots make no serious difference.

Osteopathy

Many people have been led to believe through false reports and ignorance that Osteopathic treatment was painful and even injurious to children or weakened invalids.

Nothing could be farther from the truth for it is adapted to the case, and in no wise is it injurious to the frailest child or weakened invalid. But rather it is invigorating and strengthening, and never is the patient worn out or made nervous from treatment.

However, there are many fakers and pretenders in Osteopathy who do not understand how to give treatment properly. None are genuine or competent who have not attended school at least four terms of five months each.

Drs. L. E. Wyckoff and Mrs. Grace Albright, of O. O. F. Temple, Salem, are graduates of the American School of Osteopathy, a twenty months' school, and thoroughly qualified to give scientific treatment and handle any case put in their care. All diseases, especially chronic diseases and deformities, yield to the treatment without knife or drugs.
