so later.

Q.—Any others?

A.—I told William Hawkins of the Custom House and Captain Hubbard of the barkentine S. N. Castle, upon hearing they had diabetes. Both of them were cured. I also told a neighbor who had dropsy. In a mouth it was aliminated. I can't recollect all I've told.

Q.—Did it fail in any case?

A.—Not one It is a positive cure in Bright's Discase and Diabetes. Go over and see Huwkins and be will tell you the same thing.

Medical works agree that Bright's Disease and Disbates are incurable, but 87 per cent, are positively recovering under the Futton Compounds. (Common forms of kidney compisint offer but short resistance.) Price, \$1 for the Bright's Disease and \$1.50 for the Disbatic Compound. John J. THE OREGONIAN AND A SPECIAL SESSION.

Taking advantage of the fact that it s probably read by most of the mempers of the state legislature, and no other paper is, the Portland daily fair ly bolls over with misrepresentation about the proposed special session. It has a column and a half—"Will It Help Geer?" "Is the Special Session a Move in His Interest?" etc., etc.

There was a time when it would have been glad to help Geer, when he was supposedly playing in the same game with Scott-when he was needed to carry the farmer vote of Oregon. Now it happens that Geer and Ford both Marion county men, are about all there is left of Republican leaders who can go out and carry the farmers of Oregon with them in a state cam

Both favor a special session and the enactment of fixed salaries as the first step toward putting our state government in order. These gentlemen have never agreed very much heretofore. But they do agree, as Republicans that what is manifestly right should be ione because it is right, and not because it would help or hurt this man

r that man. They are Republicans enough to las down their personal differences and unite on a proposition that is contained in all political platforms, and admitted by all persons should be done.

Because The Journal advocates flat palaries is not a good reason why it should not be brought about. The Oregonian has not always advocated propositions. It has advocated good ones, like textbook reform, and its editor manfully helped to bring that reform into effect.

On this flat salary question it has never dared give its readers the facts and details of the great abuse that exists, and The Journal challenges it to give its readers a list of the fees and salaries, as drawn by the state officials, and let the people who read that paper form their own opinions

t dare not do it. The Journal prints the list of fees, erquisites and salaries each week and the exact correctness of a single item has never been called into que tion. The Journal has never been ac cused of any selfish design in connec tion with the matter-except by the Oregonian-and it will not give its readers the facts and truth about the matter, but asks them to swallow its colored and garbled statements.

The people should labor all the harder to get the special session, in spite of the Oregonian. They ought to know what its opposition means.

ORGANIZE A DECENT LEGISLA-

TURE.
The decent business element of the Republican party, and all other pares, should unite to secure a decent very thin, organization of the legislature.

A legislature like the last one, with Brownellism rampant, and appropriations running like water, would ruin be broken. Oregon and wipe the Republicans off

Official Report of Proceedings Chas Smith of County Commissioners

A.—That is right.

Q.—Are you sure it was diabetes?

A.—I was rejected for insurance, and later failing rapidly, our physician told me I had diabetes and to put my affairs in shape.

Q.—Have more than one physician?

A.—Yes I had another confirm it. He, too, said I could not live long. I had dropped from 80 to 185 pounds and was very wess. A neighbor told me of the Fulton Compound.

Q.—How long fild you have to take it?

A.—About a year before I was perfectly well.

Q.—Did your physicians then test for sugary.

A.—Both did. Both reported normal. They were very greatly surprised at my recovery, for they had told me diabetes was incurable.

Q.—Know of any other cures?

A.—Several. I told my fr md, William Martiu, an S. P. conductor of Stockton, about it. He had diabetes, and was about to give up his position when I told him. He got the same results I did, and was well when killed a year or so later. For Marien, At Its June D. W. McKay
