THESE ARE FACTS

It is freight and not steam that makes the car go. It is fulfillment and not promise that is making our repairing business grow. That we do repairing "on time" is no fable with us. It's a stern reality. If we have any idea that we can't get your work out when you want it, we'll tell you so. To disappoint a customer is the worst kind of disappointment to ourselves. We prefer not to have that customer than to have him displeased in any manner whatever. We've the best equipped repair shop in the county. We do our repair work ourselves right here. Our own experience insures expert workmanship, and we have established the fact that we are masters of the art. We are the originators of low prices. Try us and you will come again.

CITY FATHERS' WORK

Construction of Sewer in Block 88 Deferred

Additional Hose Ordered for Fire Department

At the meeting of the city council Tuesday evening, the further consideration of the proposed alley to be constructed in block 88, was deferred until the next regular meeting of the council, that the street commissioner and the committee on streets and public property may reach a conclusion as to the dimensions of the sewer. Street Commissioner Prizzell contends that a 6-inch pipe will be adequately large to serve the patrons, while members of the street and public property committee think an 8-inch sewer should be constructed.

Upon motion, the ordinance committee was granted further time in which to draft a special permit office for the regulation of improvements of a private and public character.

The following bills were ordered paid: A. S. Rightlinger, \$2.80; N. J. Judah, \$1.50.

Fred Neckermann was granted a renewal of his liquor license.

The monthly, quarter and semi-annual reports of City Recorder N. J. Judah for the periods ending June 30, were read and adopted. A summary of the three reports appeared in Tuesday's Journal. The semi-annual report of City Treasurer Moir, showing a balance on hand June 30, of \$9,401.38, was read and adopted.

Chief Johnson recommended the immediate purchase of 500 feet of fire hose, as a reserve supply for the fire department. Council ordered the hose purchased, and the matter was referred to the committee on fire and water, with power to act.

Petition of J. W. Wait for the erection of a stand-pipe on the east side of Liberty street between State and Court streets, was granted upon motion of Stolz.

Petition of Tillson Bartlett Company for the erection of a 40x60 corrugated iron building adjoining their present quarters on Liberty street was granted, Stolz alone voting in the negative. The dissenting alderman said it was time the council was drawing a line on the granting of building permits of this character. He said the Old Fellows only recently objected to the erection of a brick building in the same block, and now they countenanced the construction of a corrugated iron building, which was a greater menace in the event of fire. Mr. Stolz was unable to convey any of the other aldermen to his view of thinking, and the motion granting the permit prevailed.

The invitation of Frank Wilman, chairman of the parade committee of Salem's Fourth of July celebration, for a participation in the procession by the city's fire department, was accepted, and the fire boys will appear dressed in their Sunday best.

The council appropriated \$15 for the appropriate decoration of the city hall and fire department headquarters for the Fourth.

The attention of the council was directed by Chief Johnson to several faulty and inactive hydrants within the city. Stolz thought the difficulty existed in the attachment to the mains, several of which were only 4-inch pipes, which did not supply an adequate water supply with the necessary pressure. After some discussion, the committee on fire and water was directed to examine the hydrants and report on their condition at the next meeting of the council.

The matter of supplying the Salem fire department with a new heating apparatus was referred to the committee on fire and water.

Upon motion of Stolz, the chief of the fire department was directed to make a monthly test of the city's reserve fire engine, that, in event of an emergency, the extra engine might be available and serviceable.

MANY HOPS CONTRACTED

Two thirds of 1902 Crop is Already Controlled

Five contracts for 1902 hops were filed with County Recorder Roland Tuesday afternoon, representing in the aggregate 55,000 pounds. In conversation with a buyer, a reporter was informed that the contracting business has been more extensively engaged in by the growers this year than ever before. The result, he says, is that at least 50,000 bales of an estimated total of 85,000 bales for the season, already hypothecated in this block of contracts that have T. A. Livesley & Co. as the contracting firm, the respective amounts were: L. F. J. 20,000 pounds, at 15c; Wm. Stollard, pounds, at 12 1/2c; Woodburn

OREGON CROP SAFE

Great Loss Reported in Eastern States

Wheat Market Has Been Stimulated Somewhat

With showers the past week and a fine driving rain setting in Wednesday morning from the south, the outlook is fine for grain crops in Western Oregon.

Crops in many sections of the prairie states are reported injured by severe storms. The lowlands of the Mississippi valley and the Lake states were hit severely from floods. Western Missouri has had the coldest June in twenty years. In Eastern Kansas floods drove many people from their homes and ruined crops.

In Michigan the rainfall for June was 6.67 inches, an excess of more than three inches. Corn, late potatoes and beans in Michigan have suffered severely from the heavy rains. Wheat is said to be running more to stalk than to heads. Plenty of sunshine through July, however, will repair to a great extent the damage.

The wheat harvest for Kansas is practically over, and the grain is in shock, although retarded in the extreme western counties by cool weather. Heavy rains the past three days have injured the crop some in the central portions. The oat crop is fine. From every county, the corn crop is reported in splendid condition.

The great damage over large areas has stimulated the price of wheat in Chicago, and the outlook for the flour trade is more favorable.

Oregon Summary.

The past week was cooler than the previous one, and there has been more cloudiness, with a few small scattering showers in the northern part of the state.

Haying is now general, and the crop will be slightly below the average in quantity, but in quality it will be better than last year. No damage of consequence had occurred to cut hay by showers up to this week. In Southern Oregon and the Grand Ronde valley more rain is needed. In the Umatilla country rain is not desired, as it would lodge the fall grain, and do more harm than good, although spring-seeded fields would be benefited.

Fall grain is filling under very favorable weather conditions. Wheat is heading tall, with a large amount of straw, but oats, as a rule, are heading rather short. Barley is ripening and beginning to turn yellow, and some rye has been harvested. Hops, onions and gardens are thrifty, and making satisfactory advancement. Corn is growing nicely. Early potatoes are in the market, and they are of good quality. Sugar beets need more rain, they still continue doing fairly well. Range grass is falling on the south slope of the hillsides, but stock is laying on fat, and the creameries are receiving a good supply of milk. Cherries are ripening fast, and about half a crop will be secured. Other fruits are making fair progress.

LARGE FARM SOLD

Thos. Sims Disposes of His Butteville Ranch

One of the largest transfers of real estate of the season was the sale this week by Thos. Sims of his ranch near Butteville to Louis Bauman, who came to Oregon from Illinois about a year ago. The farm consists of 427.75 acres, and the sale included considerable farm implements and some stock, the total consideration being \$22,647.50.

PERSONALS.

J. D. Simmons, of Monitor, representative-elect from Marion county, was in the city today.

Mr. and Mrs. H. Shamiska, of Spokane, are guests at the home of Mrs. C. W. Lagrange, Lincoln Park, for a visit. Mrs. S. is a niece of Mrs. Lagrange.

Prof. and Mrs. W. P. Drew left Tuesday night for Berkeley, California, to reside. Prof. Drew having accepted an assistant professorship in the Latin and Greek departments of the University of California.

D. E. Huntsinger, funeral director, 155 Court street. Phone Main 801. Residence 21st street.

GREAT INTEREST IS SHOWN

State Fair Will This Year Be a Hummer

All Sections of the State Are Working to That End

The Oregon state fair will this year prove distinctly a state institution. An unusual interest in the coming exposition is being taken in all sections of the state, and the exhibit of the state's resources will be larger and more varied than ever before. President W. H. Wehrung and Secretary M. D. Wisdom, of the fair board, have just returned from a trip through Southern Oregon, where they received every assurance of an endorsement of the coming fair, and its liberal patronage, by the residents of that section in a competitive, as well as a social capacity. The appended article pertaining to the state fair is taken from the Oregonian:

If the coming state fair does not eclipse all previous exhibitions, it will not be the fault of President W. H. Wehrung and Secretary M. D. Wisdom, of the State Board of Agriculture. These gentlemen have just returned from a tour of the Willamette valley and Southern Oregon, where they journeyed in the interests of the 1902 fair, their special mission being to secure exhibits and arouse general interest in the worthy institution which they represent. More than half of the counties visited will be represented at Salem in September, and it is thought that all of them will get on the band wagon later on and take a chance at the handsome prize offered for the county exhibits. One thousand dollars is appropriated annually for this purpose, the county with the best all-round exhibit receiving \$300, the second \$250, the third \$200, the fourth \$150 and the fifth \$100. No end of rivalry exists among the counties, and special efforts are being put forth by the enterprising ones, in order that their favorite localities may land "first money."

Messrs. Wehrung and Wisdom are very enthusiastic over the prospects for a grand display and an entertaining program. Their recent tour took them as far south as Ashland, where the Ashland board of trade, in connection with a similar organization at Medford, is arranging for a Jackson county display. The people of this enterprising section have varied resources at their command, and their exhibits will include agricultural, horticultural, mineral and forestry displays, as well as individual displays of thoroughbred livestock. Douglas, Lane, Linn, Benton, Polk, Yamhill and Washington counties are all in the race for that \$300 prize, and some of the Eastern Oregon counties will send down excellent exhibits. The people of Josephine county have promised a first-class mineral exhibit, and the work of collecting specimens has already commenced. In Washington county, Helder & Wall, a real estate firm, of Hillsboro, is collecting materials for a display, while C. J. Cooper is doing similar work in "old Yamhill."

When seen last evening Mr. Wehrung said: "Mr. Wisdom and I visited most of the counties in Western and Southern Oregon, finding, to our great delight, that the people are deeply interested in the state fair, and are doing all possible to make the thing a success. If nothing unforeseen happens, the 1902 fair will be the largest and best on record, as the display room is being gobbled up with great rapidity. Last year the fair was the

KIDNEY TROUBLE CURED.

General Health Greatly Improved by Pe-ru-na.

MRS. FRANCES MATOON.

Mrs. Frances Matoon, Treasurer of the Minneapolis Independent Order of Good Templars writes from 12 Sixth Street, Minneapolis, Minn., as follows: "Last winter I had considerable trouble with my kidneys brought on after a hard cold which I had neglected. One of my lodge friends who called when I was ill told me of a wonderful medicine he had had good cause to be grateful for, not only did my kidney trouble disappear, but my general health improved and I have been in good health ever since. I would not be without it for ten times its cost."—FRANCES MATOON.

This experience has been repeated many times. We hear of such cases nearly every day.

Mrs. Matoon had catarrh of the kidneys. As soon as she took the right remedy she made a quick recovery.

Peruna cures catarrh wherever located. Peruna is a specific for the catarrhal derangements of women. Address The Peruna Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. B. Hartman.

best on record, but this year's display will be 50 per cent better, and, if weather conditions are favorable, the crowds will prove record-breakers. Crop prospects are excellent this year, and whenever the farmers are prosperous, then look out for a big state fair.

"The speed program will be well worth seeing, and nothing but clean sport will be tolerated. Entries have been received from horsemen all over the Pacific coast, the large purses attracting many who have heretofore paid little attention to Oregon and the Northwest. Our place on the circuit will bring us horses in good condition, not too fresh, nor yet too stale. All in all, the fair prospects are far above the average."
