**THESE ARE FACTS**

It is freight and not steam that makes the car go. It is fulfillment and not promise that is making our repairing business grow. That we do repairing "a time" is no fable with us. It's a stern reality. If we have any idea that we can't get your work out when you want it, we'll tell you so. To disappoint a customer is the worst kind of disappointment to ourselves. We prefer not to have that customer than to have him displeased in any manner whatever. We're the best equipped repair shop in the county. We do our repair work ourselves right here. Our own experience insures expert workmanship, and we have established the fact that we are masters of the art. We are the originators of low prices. Try us and you will come again.

**MILITIA OFF FOR ALBANY**

Guardsmen Leave for Brigade Encampment.

A Special Train of Twelve Coaches Takes the Boys.

Customed in khaki uniforms, and looking their best, the members of Company F, Fourth Regiment, O. N. G., of this city—45 strong—joined their fellow guardsmen at the Southern Pacific passenger depot this morning, and left for Albany, for a week's brigade encampment.

The Salem boys, under command of Captain Kurtz, made a very creditable showing. The sight of the soldiers, fully equipped, particularly at encampment season, is inspiring, and the scene this morning caused one civilian to regretfully sigh: "I wish I were a soldier."

Who with his comrades stands, Dressed in a khaki uniform And a shotgun in his hands." Sweethearts galore were at the station to tell the boys goodbye, and the casual observer was justified in the conclusion that a war was impending. The special train of a dozen coaches, one baggage coach, and two cars of horses, arrived at 10:30 o'clock, and the Salem boys were given the rear coach. In addition to the companies of the Third and Fourth regiments, the train also carried Battery A, of Portland, with 80 members, and the Third Regiment band, of Portland.

Company F has the enviable record of having never had a member in the guard-house, and it is the purpose of the members to keep this record through the encampment that was commenced today.

The Salem company included just 45 officers and men. The complete list of officers and men going to Albany today was as follows:

Captain—H. A. Kurtz.  
First Lieutenant—C. A. Judson.  
Second Lieutenant—H. H. Lucas.  
First sergeant—Roy D. Byrd.  
Quartermaster-sergeant—E. Young.  
Musicians—J. Avery, E. Kleppin.  
Sergeants—A. Nason, G. A. Shultz and F. M. Fleming.  
Corporals—Howard Sharp, Ed. Thelton, Louis Judson, Earl Sperry and Charles Williamson.  
Cooks—Wm. Gray, Wm. Banks.  
Privates—Adolph, Aufrance, Bowen, Houllard, Branning, Hurton, Harcham, Brand, Duncan, Ferguson, Godfrey, Humphreys, Hewitt, Iwan, Jones, Judson, Kross, Kantner, Keene, Kurtz, Longcor, Lloyd, Miller, Maguire, Meates, Pettigale, Patty, Rineman, Roberts, Simpson, Settlemier, Stone, Vaughn, Vlesko, Wright, Wana.

The Journal is fortunate, since it has within the company membership a representative in the person of its assessor, Fred Kross, who will keep the readers of the paper posted on encampment news.

**TOLD HIS WIFE**

Consul Gen. Bragg In Trouble With the Government

Washington, July 17.—The state department announced this afternoon that its attention had been officially called to a recent statement of Consul General Bragg, contained in a letter to his wife, to the effect that the United States could not hope for anything good from the Cubans. All the papers in the case, including Bragg's explanation, were forwarded to Roosevelt, who will decide whether or not Bragg is to remain in the consular service.

**Three Alaskan Floaters.**

Seattle, Wn., July 17.—A Dawson special states two bodies were found in the Yukon river, one containing three bullet holes, and another with the head smashed. One is thought to be George O'Brien. A third body was seen floating below Dawson, but was not secured.

**E. N. Harriman Succeeds.**

New York, July 17.—Chas. Tweed has resigned the presidency of the Pacific Mail Steamship Company. E. N. Harriman was elected to succeed him. It is understood Tweed asked to be relieved of the duties of his office because of his numerous other interests.

**MERRILL'S BODY RETURNED TO SALEM**

(Continued from first page.)

positively established. "Mr. James says he is satisfied that Tracy will be eventually captured, and he thinks the quiet search that is being prosecuted by Sheriff Cuddehe will be productive of results in the very near future."

**Effect Will Be Beneficial.**

The finding and returning of Merrill's body to the state penitentiary for burial will have a most beneficial effect on the general discipline of the other prisoners at that institution. The fact that Tracy murdered Merrill, his accomplice in crime, will have a great moral effect on the prisoners than had he been killed by a member of the searching party. It will tend to discourage the forming of combinations among the prisoners to escape, since there will be a strong disposition to distrust each other.

**NEGRO FIEND CREMATED**

Infuriated Mob Wreaks Terrible Vengeance.

Clayton, Miss., July 17.—At an early hour this morning William Odey, a negro, was tied to a tree and burned. Odey had outraged a young woman named Virginia Tucker. The negro was saturated with oil, and a match applied to the fagots around him.

Miss Tucker was out riding in the country when attacked, and was so violently pulled from the buggy by the negro that both her lower limbs were broken. She is at the point of death, as the result of her injuries. The young woman's father is reported to have applied a match to the fagots piled around the negro.

Just before midnight Odey was captured by a posse, bound and brought to Clayton. In the meantime, news of his capture spread, and in all directions mobs began to form. The negro was brought into the presence of Miss Tucker, who positively identified him, although he denied that he was guilty. Odey was taken to a convenient spot in the country, near the scene, and a bonfire built around a tree. He was told to prepare for death, and when the manner of his execution became apparent to him he begged piteously for mercy. He was bound securely and put into the flames, and in a short time only his charred body marked the place of execution.

**CONTINUES WORK OF IMPROVEMENT**

Three-Rail Street-Car Track for State Street

Repairs of Permanent Character To Begin Next Week

The present management of the Salem Light, Power & Traction Company's plant, which has been making some substantial improvements to its property in this city, will next week inaugurate even more extensive repairs and changes in its lines. Work will begin early next week on a three-rail track that will be constructed from the intersection of State and Winter streets and west to Commercial street, over which both lines of cars will be operated, branching at their terminal points to the original lines and destinations, as are now in force. The work will be in charge of Manager Brown and Superintendent Flanagan.

The combined track will follow the line of the "little car" track down the center of State street to Commercial, where connections will be made with the North and South Commercial-street lines, as they now exist. This plan will necessitate the reconstruction of one block of new track—from Liberty to Commercial street—since neither of the tracks now used on that section of the street occupies the center of the street. For the remainder of the distance, the new track will be constructed on the present roadbed of the "little car" track.

This important change in the company's system, in addition to simplifying the operation of its cars, will result in a pronounced improvement in the general appearance of State street, one of the city's principal thoroughfares, which at the present time is largely occupied by street cars. A compound switch for the transfer of cars will be established at the Winter-street terminal of the triple-rail track, and the "Y" at the intersection of State and Liberty streets, will not be removed. A new trolley wire will be stretched from the state penitentiary to Winter street, making connection at the latter point with the wire that was recently stretched for the "little car" line.

The company has been making some extensive repairs to its roadbed throughout the city. Cars are being overhauled, and preparations being made for the heavy traffic during the fair season, and other special occasions. It had been planned this summer to extend the triple-rail track to the fair grounds over the line of the "little car" track, and abandon the Garden Road branch of the "big line," but Manager Brown says the company has all the work of even greater importance than it possibly can do before fair time. This, and other changes, will receive consideration later. The Garden road branch will be repaired and placed in serviceable condition for the fall's business.

**WHEAT MARKET.**

Chicago, July 17.—Wheat 73 1/2 @ 74 1/2.

**PULLING OF FLAX HAS BEGUN**

Eugene Bosse Says Crop is of Average Quality

Unseasonable Weather De-feated Better Results

The harvesting of the 1902 crop of flax, grown about Salem under the personal direction of Eugene Bosse, began this morning. The work of pulling the straw was begun in three small fields representing an acreage of 18 acres. The harvesting of the flax crop will be carried forward until the 22d acres have been pulled, and the straw is ready for the more advanced process of manufacture.

Mr. Bosse, who represents Eastern capitalists in the cultivation of the flax crop here, has suspended work in the flax field until the maturing crop can be harvested. The thrashing of the flax straw will begin in about ten days, when the different steps in the harvesting and curing process—pulling, retting and thrashing the straw—will be in operation at the same time, affording employment to many people.

"The crop this year is not a complete success, nor is it up to expectations," said Mr. Bosse this morning, "but the disappointment in this respect is not without explanation. The weather has been most unseasonable for the condition of the crop. For this reason, the crop this year cannot be accepted as a satisfactory test. The result would no doubt have been up to all expectations had the weather been at all favorable."

"Of the 100 acres that were sown in April, about 50 acres are of first grade flax, the remainder being only fair. Of the remaining 123 acres I had sown, the quality ranges from poor to good, according to the soil and the manner of cultivation. Poor soil was productive of a poor quality of flax. The quality, however, of the flax will be improved as the farmers acquaint themselves with its proper cultivation. Taking into consideration the unfavorable weather, and the further fact that I am unacquainted with the soil and climate of the Willamette valley, the result is all that could be expected from the first year."
