Strawberry Industry.

The last number of the Independent Enterprise is given up to promotion of the strawberry industry at that place. Under the leadership of Mr. Calbreath, manager of the water and light plant of that city, an effort is being made to get out 100 acres of strawberries this fall. This industry is only in its infancy. This year all the surplus berries came to the Salem cannery, and found a ready market. The cannery could not get one-fourth of what was wanted. Independence has made a great success in many lines, and will make the berry industry go, and gain all that follows, more population and canneries and shipping business.

Local Social Realm

An Automobile Party.

The young people of the Leslie M. E. church, of South Salem, attended an "automobile party" Wednesday evening, the party being chaperoned by Mrs. R. C. Blackwell. The young folks were met at the church by Mr. L. E. Judson with his new automobile, and given a ride to the home of his father, two miles south of the city. The fore part of the evening was spent in playing games on the lawn, after which a delicious lunch of strawberries and cream was served. The remainder of the evening was spent in playing games, telling fortunes and music, ending with a moonlight ride home in the automobile. As the automobile was a big hay wagon, the young people had to enlarge upon their imagination a little, but that didn't lessen the pleasure of the ride any. It was unanimously agreed that a most delightful evening had been spent.

Baptist Lawn Social.

There was a fine attendance of about 200 at the Baptist moonlight lawn social Friday evening. The Salem band was present and played all kinds of music, including even the religious two-step in their efforts. Refreshments were served, and a good social time was had, all speech-making being barred. Rev. Frederick Wm. Cliffe, the new pastor, from Aberdeen, South Dakota, and his lady met all the guests socially, and enjoyed the greetings of their new flock.

The members of the Cecilian Ladies Quartet, of this city, went to Oregon City this morning. Insanity Due to Nervous and Mental Troubles

PAINE'S CELERY COMPOUND

The Great Tower of Safety and Rock of Health in the Hot Weather

Nervous diseases, when aggravated by mental disturbances, produce more causes of insanity in the hot weather than at any other season of the year. Nervous headache, nervous dyspepsia, sleeplessness and chronic constipation induces depression of spirits, extreme weakness, morbid fears, despondency and languor; from these dread insanity comes slowly but surely.

Nervous sufferers have a dread of hot weather. Finding themselves deeper in the pit of misery than they were in the spring and early summer, they are in utter despair.

There is hope for you, dear reader, if you are one of the sufferers. If you stand in need of Paine's Celery Compound, that great builder of the nervous system, its vitalizing action commences with the first bottle you use. The volume of blood immediately increases in the arteries, and the body is fully fed and nourished. Your appetite becomes regular and natural, the nerves and brain are strengthened, and you have impulses of health that cheer the soul.

This remarkable remedy will truly meet your case, and give you a new life; it will lay the foundation for happiness and long years. We counsel you to try this marvelous summer health-restorer at once and enjoy the blessings of health.

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, and does not attempt to walk until the mother's arms with no desire to walk or play.

Mother should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advise me to do, and can cheerfully recommend it to all my friends. I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen in a week only about three hours, and also that my Favorite Prescription was the one great medicine which he had seen him use."

"We now have a darling baby boy, strong and healthy who weighed nine pounds when born (July 20). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women. The People's Common Sense Medical Adviser, a book containing 1000 pages, is given away. Send 21 one-cent stamps for paper covers, or 31 stamps for the volume bound in cloth. Address Dr. K. V. Pierce, Buffalo, N. Y.

WHAT BEECHER SAID

This Eminent Divine Upholds the Advertising Doctor Whose Work Becomes Known.

The most eminent divine, the late Rev. Henry Ward Beecher, publicly advocated the advertising doctor, as he said once in the following words: "I am glad that the doctor cured him. And if any doctor is certain he can cure such diseases, and don't put it into the paper, I am sorry. What a pity it would have been if the doctor had come to town with his wealth of science and experience, and gone away leaving him uncured! What a pity it would have been if he had been so prejudiced against advertising as to read the responsible certificates of the doctor and gave him the go-by as a quack! What are newspapers for, if not to circulate information? What more valuable information can a newspaper give than to tell a sick man where he can be cured? If a man has devoted his life and labor to the study of a special class of diseases, the necessity of his saying so becomes all the more pressing. His duty to advertise becomes imperative. A really able man, whatever his gifts, makes a great mistake if he fails to use those gifts through want of advertising."

The above extract from an able article of the Rev. Mr. Beecher embodies a sound view of the subject of advertising. Suppose Dr. Darrin had come to this city and not advertised, who would know of his presence? Since Dr. Darrin has been in Salem he has relieved more agony and suffering than tongue can tell. His testimonials have substantiated his cures. The fact that his offices, at the Willamette Hotel, are crowded the greater part of the time and that few go away dissatisfied, is pretty good evidence of his success.

The editor of this paper is personally acquainted with many of the people named as cured by Dr. Darrin.
