### WHAT IS A BAD CITIZEN?

The Journal is an advocate of better public schools. It believes the progress of the city, the prosperity of its community, and the welfare of our children requires advancement in public education.

The ideal of the past when the common branches alone were taught in the public schools, and only a few of the most favorably situated could give their children any higher education, no longer should prevail.

This condition is slowly changing, and nearly every city and town of any size is teaching from two to four years work above the eight grades (of the district schools) in their public schools, called high school work.

Salem has one grade of this work in the East Salem school. In the other three large Salem schools seven and eight grades have been taught. The Journal has pleaded for additional grades in our public schools.

Because it has, and has scrapped and fought for them at every turn, some antiquated gingersnap politician writes us down for a bad citizen. Well, the form suits us very well, considering the source.

If it will make the gingersnap politician get a progressive idea into his head, let him call us all bad citizens. He has awakened us far as to say Salem should have excellent public schools.

We will go the gingersnap one better, and say they are excellent schools as far as they go. But we will not knuckle down to the crackers-and-cheese diet for our children in the public schools. Give them the full course meal that American youth are getting all over our country. If that is bad citizenship make the most of it. Oregon is suffering from too much not-home higher education on state appropriations, and not enough good public school work.

### THE REMAKING OF OREGON.

The striking feature of the great migratory movement into Oregon and Washington this year is described by the Springfield (Mass.) Republican to be the unanimity with which they seek the country and avoid the cities. Considered as a class, these homeseekers in a new country have money. They travel in first-class style to their destination and generally pay cash for their land. Although the government land offices are by no means idle, these settlers are buyers rather than stakers of claims. Quite in contrast are those conditions with those existing during the early emigrant movements into the west, when families crossed the plains with ox teams, and sometimes felt aggrieved when the government would do no more than furnish them lands of the hundreds of acres each. The topography of the country is changed by this influx. Farms are being rapidly subdivided in the old-settled districts, and farm homes of 5, 10 or 20 acres are becoming common where formerly were extensive tracts of land under single owners, and in one section 4,800 acres of sagebrush land, described a little more than a year ago as a forbidding desert, is now cut into farms with a home on every 20 acres. Schools are springing up at a similar rate, and the whole Pacific Northwest is feeling the impulse of the new life thus instilled.

### PAY OF SECTION HANDS.

Section hands on the line of the Southern Pacific Company's lines in Oregon have asked the company for an advance in wages from the present \$1.40 a day to \$1.75. They reason that they should be paid as much as the men engaged on construction work as they are often obliged to be out Sundays and to work considerable overtime in case of accidents or washouts, they say they have to be on hand, and so they do not consider the present pay enough, with the advanced cost of living. The company is considering the applications. Section hands work 10 hours a day and board themselves out of the pay received. The bridge carpenters, too, are asking concessions from the company. At present they work nine hours for a day and are paid \$2.75. The rules require them to be at work when the whistle blows, and they are also to quit promptly on the whistle. The men say they are often obliged to ride 1/2 hour or more in going to and from work, and they want the time credited to the regular day. They are not asking for an advance in wages. At the Southern Pacific shops beyond Holmdel, about 180 men are now employed. The usual time is nine hours per day, and wages range from 20 to 22 1/2 cents an hour.

### Housekeepers

Should know where to buy the best and most wholesome bread and pastry. The Pioneer Bakery is the favorite place.

## DOWN BY THE SEA

The Journal's Regular Newport Letter

The Season At Its Height and Gayeties Galore

Business Men's Excursion and the Band a Success

Newport, Ore., Aug. 12.—The fog weather has cleared and the people designated as kickers on the beach and elsewhere will have to find some other cause for complaint. Great interest continues to be manifested in who will win the Journal's free seaside outing for the most popular Salem girl who works for a living. She will have the honors of the beach up on her arrival. The balloting at Loomis Bros' store here will close Thursday noon, and the result will be telegraphed over to Salem. If the winner is a girl who goes to dances a ball is being talked of in her honor. So she better bring along one pretty gown as we do nothing by halves over here except housework. The Bay View hotel is filled with a gay crowd of Salem and Albany and Portland people and sets a fine table. They have a piano and Mr. Lee Williams, the manager, is an ideal landlord.

### Private Theatricals.

This form of amusement has created quite a diversion for the colony on the Bay, and for a good part of the town. The Malban dramatic company, composed of Mrs. Alice Crossman Harder, Lillian Crossman, Mable Ward, and Beale Hoxsie of Portland, and Miss Amy Bressette and Nettie Gilmore of Youngstown, Ohio, put on a pretty little comedy called "Tis Love that Makes the World go 'Round," written by Edna McCully, formerly of Salem. The performance was given several times by request and a Saturday matinee. The proceeds are to be used for construction of a railing for the sidewalk that connects Olson's Bay with Newport. Several of the performances were greeted with crowded houses, and one occasion the McReynolds orchestra occupied the chairs in front of the footlights. A card-board going up, announcing the proper time for the ladies to remove their hats, caused a great deal of merriment. The young ladies took two young men parts with great eclat, and without bursting a suspender. The old beach grocery store was remodeled into an opera house by the skill and kindness of Mr. G. W. Ford, and in his honor, was named Ford's theatre. The young ladies have received some tempting offers to go "on the road," and have been invited to present the play at Irvin's opera house, down town, and at the Auditorium, on Nye Creek. They realized a sum sufficient to build the railing, and a committee has been appointed to construct the same. It will be a lovers' walk indeed when a substantial railing a quarter of a mile long is built, and all young people will have something to lean over. They will look out on the waters of Yaquina bay and over the bar, study the stars and drink in the moonlight. They will think of the ships that pass by night, and dream of the bliss that is coming in for each, and bless the Malbans for their enterprise in securing the railing.

### Business Men's Excursion.

About 1500 people came over on the Sunday excursion, and it was a very successful affair. It was the first time the railroad has tried to handle so large a crowd, and it really was a great undertaking to bring them over and back the same day, considering that many came from Silverton, and as far south as Eugene. The steamer had to make two trips with all the barges it could get in tow, and it was 1 o'clock before the second section came into Newport, and must have been after midnight before all were at home. The day at the Bay was cool and foggy, at times almost a drizzle.

### Sample Timber Claim.

Sunday we took a tramp nine miles up the beach to see our friend John Collins' timber claim homestead. It is on what was formerly the Siletz reservation, about three miles from the beach—counting up and down. After going three miles through scrub timber we begin to reach a high ridge of fir trees, then we went down almost straight about 500 feet, across a creek and up to the cabin—neatly made of shakes with a matched floor and glass windows and framed doors. The bed is lying from the ceiling by cords, to circumvent the long-tailed wood rat, the terror of the cabin-dweller, at least in point of destructiveness. A patch of spuds, a sowing spring, a wall of everlasting forest on all four sides of the clearing make up the surroundings of what will one day be a busy home, gladdened by some woman's hospitable smile of welcome and the prattle of children. But we had no time for settlement. An early start without breakfast, and our tramp up the beach, made dinner a necessity. And what a dinner we did devour! A Hotel Williams bill of fare would not have applied one-half of it, or it would have kept a dining room girl busy juggling in arsenal of grub. We had another royal meal, cooked on the sand by a pile of driftwood, going home. Table set on pieces of wreckage with breakers roaring and gulls shrieking for music.

## Eczema, Psoriasis, Salt Rheum, Tetter and Acne

Belong to that class of inflammatory and disfiguring skin eruptions that cause more genuine bodily discomfort and worry than all other known diseases. The impurities or sediments which collect in the system because of poor digestion, inactive kidneys and other organs of elimination are taken up by the blood, saturating the system with acid poisons and fluids that ooze out through the glands and pores of the skin, producing an indescribable itching and burning, and the yellow, watery discharge forms as a cure for Eczema. I was troubled with it for 25 years and tried many remedies with no good effects, but after using a few bottles of S. S. S. was entirely relieved. Wm. Campbell, 318 W. Central St., Wichita, Kan.

S. S. S. eradicates all poisonous accumulations, antitoxins the Uric and other acids, and restores the blood to its wonted purity, and stimulates and revitalizes the sluggish organs, and the impurities pass off through the natural channels and relieve the skin. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no Arsenic, Potash or other harmful mineral.

Write us about your case and our physicians will advise without charge. We have a handsomely illustrated book on skin diseases, which will be sent free to all who wish it. THE SWIFT SPECIFIC CO., Atlanta, Ga.

### YOUR APPETITE

unvariably tells the condition of your stomach. If you do not eat heartily and enjoy it, your stomach is out of order. Try a few doses of Hostetter's Stomach Bitters and notice the improvement. Your appetite will return, your food will be properly digested, and your health in general will be better. It cures Belching, Indigestion, Headache, Indigestion Dyspepsia and Constipation.

## HOSTETTER'S STOMACH BITTERS.

So thick that some of the men in from the foothills said you could almost walk across the valleys on it, and one man from Lebanon said his neighbor, who was shingling a barn, worked several rows of shingles right off on the fog before he noticed what he was doing. But in spite of the fog and mist all had the appetites, and the hungry and thirsty are never without some consolation at Newport.

### Military Band.

There being some disagreement among the rival elements at the beach here, an outsider, by persistent rustling, got up a fund to bring in the Salem Military Band for a few weeks, giving the people here some music every evening, and giving the band boys an outing. By the courtesy of General Passenger Agents Coman, of the S. P. Co., and Stone, of the C. & E., and Captain Davis, of the steamer Richardson, transportation was secured, and the people of Newport generously furnished the entertainment for two weeks, in exchange for the music. A box of Hockett's "Champion" cigars and a keg of Albany Brewing Co. beer found their way on board for the band and they played all the way over and added greatly to the pleasure of the trip. The band boys are very popular over here and already have been requested to give some parties at the opera house, which they will do as they carry a fine orchestra among their numbers. They give a concert every evening, and will prolong the season at Newport by their stay.

### Mountain Scenery.

Far finer than the scenery in the Alleghanies is the trip over the Coast range of the Cascades on the Corvallis & Eastern. The tunnels and trestles that had to be constructed through the tops of the mountains and canyons prove that great grades and sharp curves had to be overcome regardless of cost. It is not an easy matter to handle trains over such a line, and do it with perfect safety, but that is accomplished under the direction of Supt. Stone and his staff, who are born railroad men. There is not a better railroad man in Oregon than Edwin Stone, who gives his personal attention to every detail of the work. He is present at the arrival and departure of trains at Albany, and has a pleasant word, and is ready to assist any and all travelers on their way rejoicing. He has a fine set of engineers, one of them, Arthur Castock, of Yaquina, having been on the road 25 years, and known as one of the most careful men that ever pulled a throttle. Capt. Davis and his father, the engineer on the boat, are also unsurpassed men in their places for handling the traffic.
