Deafness Cannot Be Cured, by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; hence cases of deafness are caused by catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, Ohio. Hall's Family Pills are the best.

## ASHLAND'S FRUIT MARKET

BLACKBERRIES, PEACHES AND TOMATOES BEING SHIPPED IN LARGE QUANTITIES.

The shipment of Hale's peaches is now at its height, and the present week will, in all probability, witness the final of this year's crop, says the Ashland Tidings. They have been going at the rate of 500 and 700 boxes per day, and while the quality has been all that could be desired, the market has been rather poor, ranging at 40 cents. The Portland market has been glutted with California Early Crawfords, which fact depressed the price for Ashland Hales.

G. W. Crowson, manager of the Ashland Fruit Association, says Early Crawfords will come into the market about the end of the present week. There is quite a full crop of them, and the rains of the past week will aid them most materially, both in quantity and flavor. The Ashland Early Crawford is a prime favorite, and in great demand wherever known, and growers are in hopes that the over supply of inferior peaches will not affect the price. The berry season has been a long one. The rains of the last week also added the luscious blackberry, and there will be shipments for a number of days yet. The fruit association has still urgent calls for blackberries, and between 150 and 200 crates will be shipped south by today's express. Tomatoes are beginning to come in briskly. The quality is fine, and the quantity gives every promise of being a record breaking one. Prices are good, 20-pound boxes bringing 50 cents. The shipment of Ashland tomatoes will be quite heavy from now on until the close of the season.

Moki Tea positively Cures Sick Headache, Indigestion and Constipation. Delicious herb drink. Removes all eruptions of the skin, producing a perfect complexion or money refunded. 25c. and 50c. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. D. J. Fry, Druggist.

## BIG YIELD OF VETCH

AFTER FATTENING TWO BANDS OF SHEEP A BENTON COUNTY FARMER THRESHES 50 BUSHELS AN ACRE.

A field of vetch, threshed by John Whitaker the latter part of last week is attracting some attention among farmers, says the Corvallis Times. The field comprised 15 acres, and the yield was 15000 bushels, or over 30 bushels per acre. From 22 acres the yield was 11115 bushels, or nearly 35 bushels per acre.

To make the crop more interesting, it is to be understood that the vetch was cut with a mower, raked up like hay, and threshed from the cock. It was quite ripe when cut, and it is estimated the amount of grain lost, if saved, would have swelled the total yield to at least 50 bushels per acre. Much of the grain had fallen down, and was flat on the ground when mowed.

The field was sown last fall. It was pastured until May 1st, and during the time two bands of mutton sheep were turned off of it. The seed is said to be worth \$1.50 a bushel, which, together with the fattened sheep, makes the crop very profitable. Eight dollars per bushel was paid the machine for threshing, and the average cost per bushel was 25 cents.

Mr. Whitaker estimates that for hay the field would have turned off eight tons per acre. He expects to sow a much larger acreage next year. Hereafter Mr. Whitaker will pasture his vetch fields until May 15th.

## STAR ROUTE MAIL TROUBLE

A SOUTHERN OREGON CONTRACTOR FINDS HIMSELF IN A PECK OF TROUBLE.

The Ashland Tidings chronicles the troubles of a Southern Oregon star route contractor in the following story: Ever since the first of the present month trouble has been brewing among the contractors and superintendents of the Ashland-Klamath Falls stage line, and not the least interesting development which has come to the surface in the recent violation of a regulation made by the last session of congress. In compliance with a popular demand of some years standing, a law was passed making it obligatory for a star route contractor to live upon the line which has been awarded him. Col. C. E. Dutro, of Missouri, turned in the bid to the department which secured him the contract for carrying the mail between this city and Klamath Falls, and when the mails were handed over to him on the 1st of July, he had already come out from his Missouri home and settled at Klamath Falls. Posters were struck with the names of W. A. Cockrill and J. A. McIntire as superintendents of the line. Mr. Cockrill came from Eastern Oregon and entered into a contract for one month with the Eastern contractors (Col. Dutro not figuring in the transaction) to carry the mail at \$4000 per annum and the passengers and express for the receipts of the line, he to furnish the stock and wagons, and, if at the end of that time he did not care to go on with the contract, the star route man agreed to take the stock off of his hands. McIntire was here as the representative of the Eastern contractors. The government pays them \$4300 for the service and they, by sub-letting the contract, make a profit of \$300. At the end of the month, however, Mr. Cockrill declined to go on with the contract, and the contractors not coming to lime with the coin for his stock, matters came to a deadlock. Col. Dutro was summoned from Klamath Falls, and the services of an attorney were called in this sort of bickering until the 14th inst, without any settlement, at which time Cockrill withdrew his stock, and refused to go on with the service. At this juncture Postmaster Eagle, who, as the official at the starting point of the line, represented the government, and is obliged to see that the mails are carried according to contract, hired Mr. Cockrill to continue his services temporarily, giving him at the rate of \$8000 per annum, or about \$25 per day. The contractors gave a bond for \$9000, so it will seem the government is amply protected. At this interesting stage of the proceedings, E. C. Hughes, an agent of the mysterious contractors, has appeared on the scene from Idaho, but as he is not in position to buy Mr. Cockrill's stock, the troubles are still in statu quo. Meanwhile the service on the line has not been impaired by the differences between the contractors.

A Ministers Mistake. A city minister was recently handed a notice to be read from his pulpit. Accompanying it was a clipping from a newspaper bearing upon the matter. The clergyman started to read the extract and found that it began: "Take Kemp's Balsam, the best Cough Cure." This was hardly what he had expected, and, after a moment's hesitation, he turned it over and found on the other side the matter intended for reading.

## ANOTHER PIONEER.

Bright's Disease and Diabetes Are Positively Curable.

When San Francisco business men were investigating the Fulton Compound they heard that Dr. C. D. Zeile had both Bright's Disease and Diabetes, and was given up as incurable, and they waited on him and got him to take it. Now for the sequel. This letter was written 9 months later.

"922 Pacific St., San Francisco, Sept. 7, 1919.  
Dear Sir: I have concluded my own that many on my own property on Pacific St. for 19 1/2 years, hence my association number some of the best medical physicians, had chronic Bright's Disease and Diabetes of long standing, which I had given up as incurable, but the judgment of my medical friends that these men would see the end. We all looked up to you, and you gave me a course of empirical and visionary. But I yielded to the suggestion, and the result was the recovery of one of my family, and went on the Fulton Compound for Bright's Disease as a last resort. I had been told that it was a waste of time and money, but I was still growing stronger. This continued all July, when the last letter I had from you, and I was told that I was a cured man. I have given the Compound to a dozen, and they all are cured. I am now in the best of health, and I will be glad to tell all I know concerning this important matter. The discovery is now being made by the discoverer of a cure for consumption."—"CARL D. ZEILE."
