WHAT IS SIN?

Probably the greatest sin of the age is to ruin the precious gifts given us by the Creator. Foremost among these is the eyesight. Yet more people commit this sin than almost any other. Through carelessness or advancing years their eyes lose their original strength; then they commit the unpardonable offense of neglecting them or being duped by persons incompetent to fit glasses. We have the finest scientific instruments that are known, and can give our patrons the benefit of all the advantages known to modern science. See all our wonderful appliances, and our magnificent stock of goods to select from.

RAILROAD MAN TALKS

General Traffic Agent Coman, of the Southern Pacific Co., Says Valley Property is New a Valuable Investment.

W. E. Coman, general traffic agent for the Southern Pacific Company, was in the city Friday afternoon, returning to Portland on the evening train. While in the city Mr. Coman gave out an interview on the question of real estate values in this community. Mr. Coman said he considered that one of the safest investments that could be made was to purchase any amount of city and suburban or farm property in the vicinity of Salem, for the reason that within the next three years, should the investor decide to hold the property for that length of time, he would lose nothing in the investment. Mr. Coman has great hopes of the future of Western Oregon.

"I believe the development of this section of the state would make the investment profitable," he continued, "even though neither the Southern Pacific nor the commercial bodies made any effort to turn immigration this way. But in view of the work that is being done by both the commercial bodies and the Harriman lines, it is certain that the population of the valley will greatly increase in the next three years, and that the property values will materially advance."

Henry Files His Reply

H. W. Meyers, plaintiff in the suit for an accounting of the affairs of the firm of Joseph Meyers & Sons, this afternoon filed a reply to the answer made by the defendants Thursday. In his reply he denies that he was employed as a clerk and bookkeeper, and reiterates his allegation that he was a partner in the firm. He denies that he was employed on a salary, or that he ever received a salary, and denies that he ever made any erroneous or

A JOY FOREVER

And life is crowned with a hundred pleasures to the possessors of one of those famous "Swan Fountain Pens." There is one particularly noticeable thing about them—they are "self-feeders," and besides they stand wear. We have sold over a dozen this week. If they don't suit you'll get your money back. Over 3000 sold to fountain pen-users in Salem, and none have ever been returned—they seem to please.

wrongful entries on the firm books, or took any money by improper means.

Charles Claggett Sick. The many friends of Uncle Charles Claggett will regret to learn that he is quite sick, and there are fears that he may not recover. He will be 88 years old on the 13th of this month, if he lives, and it is hoped that he may celebrate that event, and many more of them.

Dallas and Falls City Railroad. George T. Gerlinger is manager and J. W. Covert, chief engineer of the twelve miles of railroad now being built between here and Falls City. They have two camps, one on the W. D. Gilliam farm, and the other on that of A. W. Teas. Over 50 men and 35 teams and wheel and slip scrapers are at work near the camps. The company run their own boarding houses, and charge the men 50 cents a day for board. Another camp, consisting of a

6 Great Lines FOR Fall-Winter 6

That was to have been the heading of a scolding, 5-inch ad. that I intended running in the current weekly and in this daily, but it proved utterly impossible for me to find time to write the matter in time. We will try to tell you more in detail next week, meanwhile will merely mention the lines to which we refer. Here they are: BENECIA HANCOCK DISC PLOWS. SYRACUSE CHILLED GANG PLOWS. MONITOR DOUBLE DISC DRILLS. FAIRBANKS-MORSE GASOLINE ENGINES. HERO FANNING MILLS. EMPIRE CREAM SEPARATORS.

It used to be said that an implement dealer in the Willamette valley hadn't much to do in the winter months but sit about the fire and wait for spring. That isn't the case with us. Last winter—my first winter in the business, we had a splendid trade the season through, simply by virtue of pushing reasonable goods. This year we propose to send out more goods than any two implement houses have ever sent out in the same length of time. We do this by keeping everlastingly at it. These fall days we are as busy as during the heaviest spring trade. Wagons, hacks, disc plows, gasoline engines, and all the other good things we carry, are bringing the best trade to our doors. Come and see us when you want anything in the line of implements. It does not good to make comparisons. If we can't sell the goods, we will treat you courteously, for maybe we can sell you next time. Write us for catalogue of anything in our line.

Wheat Shipments from Portland.

Portland, Oct. 4.—Portland's wheat exports for the first three days of October were nearly 450,000 bushels, and there is an additional tonnage in the river under charter for October loading with a capacity of over 1,000,000 bushels. The early movement of wheat is much greater than ever before, although the crop is smaller than that of last year. Free selling has been induced by prices more than 10 cents per bushel higher than those of last year. Millers have also been buying heavily, to meet the enormous demands from South Africa, and an improvement in the Oriental demand. Owing to the crop being later than usual, grades for the year have not been established.

Price of Heating Goes Up. New York, Oct. 4.—The New York Steam Company, which supplies heat to over 500 residences and buildings, and power and heat besides to over 600 offices and other buildings with elevators, has advanced its price for heating and power 15 per cent on account of the high price of coal.

Minor Mention Local Import. Jos. Dingman paid a fine of \$5 to the city police court this morning. County Clerk Roland today issued a marriage license to Charles Reed and Maud Buella. The prospective bride

Striking a Light With a Popgun.

The inhabitants of the countries bordering on India have their own methods of making fire. A Burmese messenger recently brought a note to an English official, and the latter observed something resembling a boy's popgun hanging by the messenger's side. Curiously prompted him to ask the native what it was, and he was surprised to find that it was a machine for making fire. The native exhibited the apparatus and explained the working, concluding with a practical demonstration. It was a tube, closed at one end and fitted with a piston. At the end of the piston was a groove or cavity, smeared with wax, which was used for making thread or inflammable material adhere to it. The tinder, to keep the old name, is pressed on the wax when a light is required and is not kept there always. Placing the wisp of cotton on the wax, the native inserted the tightly fitting piston in the tube, then forced it along the latter by giving it a sharp blow. On withdrawing the piston the cotton was found to be slight, having been ignited by the concussion with the compressed air.—Pearson's Weekly.

NEW TODAY.

DRESSY GOWNS.

Veiling Still Worn—Princess Robes, Evening Sleeves. Veiling gowns will continue to be worn this winter. They are beginning to be combined with contrasting shades in linings—blue over bright green, fawn over pale blue and black over dull red. The shades must be correctly chosen, however, in order to preserve the smart appearance so necessary. Princess gowns are not worn so much as formerly, but they are still

and will always be accounted fashionable. There is no style more becoming to a woman with a good figure or more trying to one who has a bad one. Very smart are those made of all over lace, rather heavy in texture and mounted over white silk or chiffon. The sleeves of evening gowns are quite short, in some cases not reaching more than half way between the shoulder and the elbow. They are often made of a more transparency of tulle caught here and there with jeweled ornaments. A smart rose colored veiling dress is here shown. It is trimmed with appliques of ecru lace. The waist has a wide bertha tucked at the neck and allowed to fall into points. The sleeves consist of a full puff set into a light undersleeve of lace. The skirt is composed of three founces edged with the applique. The smart hat worn with this is of pale yellow satin straw trimmed with rose foulard.

JUDIC CHOLLET.

I have the sole agency for the celebrated "Radcliff" Shoe for ladies at \$2.50 per pair, sold the world over, and are conceded to be the best value in America. They have the style of a \$4.00 Shoe and wear like iron. My stock of Rubber Boots and Shoes is complete and at prices second to none. In Men's Fine Shoes I can show you some of the most popular goods made. Come and see for yourself.

Jacob Vogt 265 Com'l St.

Dalrymple's

Visit the Cloak Room

- It's chock full of good things in suits, jackets, capes, furs, waists, skirts, etc. The dress making department is on this floor, too. We make dresses, capes, skirts, waists—in fact anything in that line, and charges are not exorbitant, either. Look at the new arrivals. It will give you an idea of what is to be worn this season. The styles are prettier and prices lower than ever.
- Dress Goods Read's Fabrics. Are recognized by the trade as the best that can be obtained. We show the following weaves: Vicuna Cloth. Redona Crepe. Prunella. Silk Warp Crepe. Pan Mohair. Cream Alpaca. Arizales. Royal Cheviot. Zibeline. Broadcloth. Clay Serge. Granite Cloth.

Novelty Waistings

Velvet tordroys are to be worn very extensively, hence a full line of shades is shown here. Striped Granites and Albatros, in rich shadings, with bright contrasting stripes are good. Some pretty patterns here at 75c, 85c and \$1.00 per yard. Silk Lansdownes are an ideal fabric for waists. We carry a full line of shades, \$1.25 the yard.

A STRONG, VIGOROUS MAN

Is Liable to Break Down—Pe-ru-na is Sure to Restore.

ALDERMAN FRANK DUNN

Non. Frank Dunn, Alderman Twenty-Fourth District, writes from 232 East Fifty-Eighth Street, New York City: The Peruna Medicine Co., Columbus, O.: Gentlemen: "There is no remedy for a broken-down system that I know of which will so effectually restore health as Peruna. Whenever I am overworked or suffer from the consequences of a cold a few doses of Peruna builds me up again more quickly than anything I ever tried. I find it especially valuable for catarrh. Three bottles cured me three years ago of catarrh of the stomach and I have never had the least symptoms of it since."

Very truly, FRANK DUNN, Alderman 24th Dist., N. Y. City.

A TONIC is a medicine that gives tone to some part of the system. There are different kinds of tonics, but the tonic most needed in this country, where catarrh is so prevalent, is a tonic that operates on the mucous membranes. Peruna is a tonic to the mucous membranes of the whole body. It gives tone to the capillary circulation which constitutes these delicate membranes. Peruna is a specific in its operation upon the mucous membrane. It is a tonic that strikes at the root of all catarrhal affections. It gives tone to the minute blood vessels and the terminal nerve fibres. Catarrh cannot exist long where Peruna is used intelligently. Peruna seeks out catarrh in all the hidden parts of the body. Paul Landrum writing from Atlanta, Ga., says: "In January last I began the use of your Peruna and Manalin for what was termed organic heart trouble. At that time I could scarcely walk to my place of business without stopping to rest and on arrival felt completely exhausted. Had severe pains in my heart and general disquiet. After using the first bottle of Peruna I began to improve and today I feel that I am a sound man and I work fourteen hours a day without any bad feeling."—Paul Landrum. A. M. Ikerd, an employee of the C. B. & Q. R. R., West Burlington, Ia., writes: "I had catarrh of the stomach and small intestines for a number of years. I went to a number of doctors and got no relief. Finally one of my doctors sent me to Chicago and I met the same fate. They said they could do nothing for me, that I had cancer of the stomach and there was no cure. I almost thought the same, for my breath was something awful. I could hardly stand it, it was so offensive. I could not eat anything without great misery, and I gradually grew worse. "Finally I got one of your books, and concluded I would try Peruna, and thank God, I found a relief and a cure for that dreadful disease. I took five bottles of Peruna and two of Manalin, and I now feel like a new man. There is nothing better than Peruna, and I keep a bottle in my house all the time."—A. M. Ikerd. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

A. M. Clough, Undertaker, 107 State street. Phone Main 1351, Salem, Oregon, successor to D. E. Huntsinger. Residence Broadway and Mill, North Salem. Phone Main 221.
