## COAL STRIKE DISCUSSED

Newspapers and Politicians Are Criticized

### A Salem Minister Describes His Eastern Trip

"It is the general belief that if the politicians and the newspapers had kept their hands off the strike, that the strikers and the operators would have reached terms of settlement long ago," stated Rev. W. C. Kantner, pastor of the First Congregational church, of this city, on Sunday evening, when discussing the coal situation in the East.

Rev. Kantner has just returned from a six weeks' visit to his old home in Pennsylvania, which is located in the midst of the pending conflict between labor and capital. His sermon of Sunday evening was based along the line of observations that he made on the trip. The theme of the sermon was taken from Proverbs 25:25: "As cold water is to a thirsty soul, so is good news from a far country." The speaker introduced his remarks with a reference to the magnitude and magnificence of this country, which is controlled entirely by a single form of government. He was impressed with the fact that Americans do not understand the wonderfulness of their own country, which equals, or at least, well nigh approaches, the grandeur of the celebrated European countries. After a description of the wonderful scenery of Colorado, Rev. Kantner told of the great material prosperity that he observed throughout the East. There are prosperous conditions all over the country. There is an unprecedented activity in the building of factories, and the extending of railroads, while there is a larger employment of people, and a scarcity of help exists in all sections. With all the material prosperity, the growth and development of the country and its resources, comes the pending coal strike of the East, which is blighting the entire country. In discussing this subject, Rev. Kantner said in part:

"A great part of the anthracite coal in the Schuylkill district is produced in the region of my old home. I made three trips through the region of the strike, and became informed as to the real conditions, but I do not think there is much prospect for a general settlement of the strike soon. It appears to be the general belief that if the politicians and the newspapers had kept their hands off the strike, that the strikers and the operators would have reached terms of settlement long ago. There is an election on hand in Pennsylvania, in which state and county tickets are to be elected. Both political parties are endeavoring to appear friendly to the strikers, and the effect is that they are prolonging the strike, rather than bringing it to a termination. If there is not a speedy end of the strike, I cannot see how the poor people of New York City and the New England states are going to get through the winter. I saw women beside the railroad embankment trying to scratch enough coal from the embankment with which to fill a scuttle that they might have enough to cook some victuals. I also saw scores of men, women and children screening the refuse piles of coal. These refuse piles were, in many cases, thrown away by the collieries years ago. There are houses everywhere in that district where there is not an ounce of coal. The call for relief funds does not supply the strikers with a sufficiency to meet their wants. I learned of one man who received from the relief fund but \$3.75 in three weeks with which to support himself and family. The blight of the strike is not only on the miner, but on the manufacturer, the merchant, and the homes of the people, affecting the entire country. But for the strike, this year would have proved the most prosperous in years. Merchants are going down under the burdens they are obliged to carry. We can have no conception of the awfulness of the great sufferings that are resulting directly from the strike. I trust that some way may be reached soon by which the strike may be ended, and bring the benefits to the people for which they have been striving."

In conclusion Rev. Kantner spoke of the religious life of the East, which he said was never more active or gave promise of greater results. The services were made the more interesting by the splendid staging of a large choir. The musical program of the evening included a solo by Mrs. Seloy.

## 24 CENTS REFUSED

One Grower Says He Will Not Entertain an Offer of Less Than 25 Cents—Hops Shipped from Silvertown.

George Rouf, of Parker, who has over 100 bales of this year's crop, was in the city Saturday, and reports that he was offered nearly 25 cents for the lot, but the offer was rejected. Mr. Rouf is holding for 25 cents, and will not consider any offer less than that figure.

Harvey Coyle, of this county, has

**HOSTETTER'S BITTERS**

To restore vigor to the system and build up strength, solid food is not enough. You cannot take a better medicine than Hostetter's Bitters. By curing indigestion, Dyspepsia, Constipation, Biliousness, Insomnia and Malaria, Fever and Ague, good health is assured. Try it.

refused an offer of 24 cents a pound for his crop of hops. Mr. Coyle has a strictly choice, and what might be called fancy quality of hops, and will hold for a better figure. There is little doing in the local market. Only prime hops are changing hands, while the choice quality goods are being held for an advance in the market.

Hops have been on the move the past few days, says the Silvertownian. Thirteen carloads were shipped from this place during the week, and many more are in the warehouses ready for shipment, as soon as the cars can be procured. The price paid for them runs from 19 to 22 cents. The quotation of coast hops in New York of 24 to 29 cents has led many growers to believe that hops are advancing. The difference between New York and Oregon is four cents so that with the difference allowed growers think that 20 to 25 cents will soon be offered here, the above prices being for strictly choice lots, and many are holding for the advance.

## CURED BY ELECTRICITY

Dr. Darrin, at Willamette Hotel, Secures Another Victory.

To whom it may concern: For years my daughter has been deaf, with almost constant discharge of the ears, causing a disagreeable odor. Her skin had become a brown color from head to feet from constipation and liver trouble. Under Dr. Darrin's electrical and medical treatment all her above troubles have disappeared, and I am so pleased I wish all to know where to be cured. Will answer all questions by letter or in person at Jefferson, Oregon.

MRS. C. A. ESTEB.

## Will Meet At Salem

The state association of Congregational churches will be convened in annual session in this city on Tuesday evening, October 21st. The sessions of the meeting will continue for several days. There will be in attendance about 80 delegates, for the entertainment of whom the local Congregationalists are making all preparations.

A granite quarry is being opened 10 miles from Baker City, and several carloads of granite have already been shipped out to market. It is of the finest grey granite, and the operating company thinks it has something which will prove a great boon to the country, as well as to themselves.

The Jewish Day of Atonement commenced Friday evening and finishes Saturday evening, rounding out 24 hours, during which all Jews, who are physically able, fast. The services in the Jewish synagogues during the holidays are of an extraordinary nature, being mostly supplicatory. The whole day is devoted to prayers. On the night previous it is the custom to give either food or money to the poor. The food that is given to the poor is the best that the market affords.

The enrollment at the college Thursday night was 420, against 416 a week later last year. The increase was four, with a week of arrivals to hear from.—Corvallis Times.

## Gymnastics

Will do much to develop a muscular body. But the strength of the body is not to be measured by its muscle, but by its blood. If the blood is impure, the body, in spite of its bulk and brawn, falls an easy prey to disease.

There is no medicine equal to Doctor Pierce's Golden Medical Discovery for the purifying of the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak, nervous people vitality and vigor.

There is no alcohol contained in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

"I feel it my duty to write to you of the wonderful curative powers of your 'Golden Medical Discovery,'" writes George S. Henderson, Esq. of Duquoin, Ill. "I had a bad bruise on my right ear and my blood was badly out of order. I tried local doctors, but with no good result. Finally I wrote you the particulars in my case and you advised your 'Golden Medical Discovery,' which I began to take. From the first bottle I began to feel better, and when I had taken eight bottles the sore was healed up. I wish you success."

"Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Opening up Beautifully That large shipment of Gems in cut glass, Gems in solid silver, Gems of fancy clocks, Gems of purses.

And its beauty and variety is ever surprising our highest expectations. The clocks are works of art. The cut glass veritable gems of crystal, and the solid silverware the best that's made, while the purses in fancy leathers are the real thing.
