

Woman in an Unconscious Condition Found on Sidewalk.

Upon Examination at the Hospital, Her Body was Discovered to be Covered with Scars, Caused by the Hypodermic Injection of Morphine -Facts Published as Warning to Other Women.

The above headlines recite the irregular menstruation, also intense actual experience of a poor wreck of a woman who had once held an honorable and lucrative position in a large mercantile house in New York. Her health began to fail, and instead of taking rest and proper medical treatment she resorted to stimulants

and morphine. The hospital physician discovered that her primary trouble was an affection of the womb, which could readily have been cured in the first stages. If when she had first felt those severe pains in the back, the terrible headaches, the constant sense of fullness, soreness and pain in the pelvic region, she had heedel the warning that serious troublegwas in store, and commenced a regular treatment with the Pinkham Remedies, as did Mrs. Rober of Chicago, whose letter follows, the polypus in the womb would have been dissolved and passed away, and to-day she would have been a well woman.

The attorney-general, after a long review of the amendment, comes to this final conclusion:

"THERE IS NO POSITIVE DIREC-TION TO THE SECRETARY OF STATE TO SUBMIT ANY OF THESE MATTERS TO A VOTE OF THE PEOPLE. It is said that in submitting them he shall be governed by the peneral laws, and the act submitting he amendment, UNTIL ADDITIONAL LEGISLATION IS ENACTED. DISGRUNTLED.

Men Who Manufacture Misery.

The disgruntled man, the man who is alky and dissatisfied under all conditions and circumstances, is to be found everywhere. Even at the sea side where he has gone for rest and recreation you'll find him surly and sulky, grum-bling at the weather, the people, the hotel accommodations, the board, and everything else. His scowling, sullen visage checks the flow of talk at the table, and hushes the prattle of playing Now and again one gossip says to another "The old chap's must be out of order." Somebody says, "Perhaps he's suffering from kid-ney trouble." And a majority incline to the opinion that it's "just dyspepsia," And as it happens they are all of them

"out of order." This is another case in which in the logical sequence of state-

The liver is sluggish because the stom-ach is diseased. The kidneys are dis-ordered because the stomach and its allied organs of digestion and nutrition are "weak" and cannot supply adequate nutrition for the needs of the body. How do we know this? Because in so many cases, persons who had suffered with disease of heart, liver, lungs, kidneys, etc., have found these diseases entirely cured, when Dr. Pierce's Golden Medical Discovery has cured diseases of the stomach and the other organs of digestion and nutrition.

"I was afflicted with what the doctors called nervous indigestion. Took medavail. In looking over one of Doctor Pierce's Memorandum Books," writes exactly. For the most part the choice of food is made to please the palate. The palate is a creature of education. t may be taught to crave things bitter or things sweet; to desire spicy or fiery condiments which irritate the stomach or dainties which distress it, and in which the food value is reduced to the minimum. As a rule the palate is taught to desire the most undesirable things from the viewpoint of nutrition. The result is hat the stomach has to thresh a great quantity of straw to obtain one grain of nutrition.

The body is sustained by food properly digested and assimilated and converted into nutrition. But when the food lacks nutritive value the body and its organs must be starved. Exactly same thing happens when the food eaten is nutritious, but the stomach and other organs of digestion and nutrition being weakned by disease, fail to extract the nutrition from the food pro Then the body is starved also

is weakness. A starved man can't work, A starved organ can't work; or at the best it works partially and ineffectively. Dr. Pierce's Golden Medical Discovery, by curing diseases of the stomach and other organs of digestion and nutrition, enables the perfect digestion and assimilation of the food eaten, and this food converted into nutrition, builds up the body and all its parts and organs into sound health and strength.

"After I had received the advice which you gave me in regard to my treatment, writes Geo.
