With Your Thanksgiving Turkey

The beverage that goes best and "that cheers instead of inebriates" is pure and appetizing beer, like the Salem beer. Its healthful properties makes it the standard of perfection, and its delicious flavor makes it a favorite beverage with epicures and those who love good cheer and sociability. Order a trial case for Thanksgiving, and you will give us thanks for the tip.

ODD COATS.

Sack Shapes of Zibeline and Fancy Goods.

The sack paletot abounds in many charming shapes. It is made in delicate green shibboleth cloth trimmed with laughing green and white tassels. This is lined with delicate brocade and closes right up to the throat.

Equally alluring is a long evening coat of pastel pink zibeline. It is very full-sack in form and is stitched with

DINNER DRESS OF PINK CRAPE.

bands of pink satin and finished about the shoulders by a width imparting double cape.

A half sack coat of heavy fawn corduroy is strapped with shaped upright lines of face cloth finished by braid, the whole lined through with scarlet satin.

Gowns are becoming more and more elaborate, especially those for evening wear. They are fairly incrustated with fine lace and embroideries. The dinner dress here shown is of pink crape trimmed with a raised embroidery of hydrangeas worked in chenille over black and white lace. The gown is in two pieces, but simulates a princess dress with its long lines of trimming opening over a full shirred underskirt of chiffon. JUDIC CHOLLET.

FOR STREET WEAR.

Rough Cloths—Cord and Tassel Trimmings.

Although rough cloths are deservedly popular, yet fine cloths are also being used. Corduroy velvets and vicunas lend themselves admirably to richings

of lace and velvet, and these play a very important part in the season's trappings.

Cords and tassels are seen on many tailor made gowns, while Indian and Russian embroideries are extensively popular.

Never was there a wider choice in furs. Full length coats, three-quarter coats, coats ending at the waist line—all these are the style. The furriers' ingenuity is shown in the fact that they are making waterproofs of all the furs or will to those who do not like them. This is a beautiful thing which goes away with the fur of themselves that additional thickness at the waist nearly always gives.

For togans will be a great deal worn, though in most cases the crown only is of fur and the rest of velvet or felt, which is much more becoming than the old time fur models in millinery.

The smart bathrobe in the cut is of red wool trimmed with bands of black velvet. JUDIC CHOLLET.

Why Not?

During the wet weather, why not try a meal at the White House Restaurant? Everything first-class and up-to-date. Give us a call. Open day and night.

THE "WHY" OF IT.

Why does the body fail at times to get necessary nourishment from ordinary food?

Because the digestive organs are not strong enough to perform their proper functions.

Why should these organs be aided in their work?

Because the digestion of ordinary food is more than they can accomplish when they are in a weakened condition. It is necessary that some aid in the form of an easily assimilated nourishment be provided.

Why does the nourishment supplied in Scott's Emulsion feed the body when ordinary food does not?

Because being scientifically emulsified it is rendered much more easily digested and the whole system gathers nourishment with much less effort. There is less tax upon the whole digestive tract.

Why is the nourishment contained in Scott's Emulsion assured proper distribution?

Because the emulsion is easily and naturally taken up and utilized by the system.

Why is the good effect of Scott's Emulsion soon noticeable?

Because the ingredients represent the very form of nourishment needed. The stomach requires a change and rest from ordinary food and hence the good effects of the emulsion are quickly seen.

Why is Scott's Emulsion a food for the whole system?

Because every part of the emulsion—oil, hypophosphites and glycerine, is adapted to some special need of the body when a wasting condition exists.

Why is it necessary to nourish the whole body when only one part is affected?

Because the blood, nerves, bones and muscles must all be considered and provided for in restoring waste and establishing uniform health. Scott's Emulsion gives nourishment to all, collectively and individually.

We'll send you a sample free upon request.
