PORTLAND FUNDING BONDS.

Multnomah county has a floating debt of \$500,000 in warrants, which bear 6 per cent. interest, which adds \$30,000 annually to the already mammoth interest charge against that county. It is now proposed to issue bonds at lower interest, and pay off this floating debt. The tenor of the bonds proposed by the county court are defined, as to rate of interest, terms of issue, etc., and to the casual reader it is not clear whether there is a genuine plan to reduce indebtedness or just a scheme to enable someone to secure control of the whole loan at possibly a little reduction of interest. One feature of the bonds would appeal to the good sense of an ordinary financial mind, and that is to make them payable on or before five years. This is the only condition revealed by the published report concerning the proposed issue, and unless it is a subterfuge to corral the whole business for some preferred interest, it is all right.

The question naturally arises why this is not made a genuine popular home loan, similar to the ones made at Salem and other towns of late years. That is the rational, honest way to transact this kind of business. It permits every person in the county or state with an idle dollar to find a safe investment, and gives the greatest amount of public interest in the conditions of local government. The popular loan prevents a class name, and is, in short, an American method of doing things. Make all bond issues open and above board through the people and in the interest of the people, and everybody, especially the corporate borrower, will be best served.

The old plan of making loans, in the interest of the mounted class, is only one of the oldest phases of class legislation, and of placing the public in bondage to the trusts. The financial trust is no better than any other form of trust or combination to oppress the borrower or consumer, yet it has passed without observation or being thus classified for a longer period than any other form of organized power. At the same time it can be more easily thwarted than any other form of trust. If the people will simply assert their rights, and the popular home loan is one of the best methods of going about it.

It is to be hoped that the new Portland bond issue will be made upon the true basis of serving the true interests of the people. Fully ten thousand a year can be saved by making this a popular loan, and the interest that is paid out saved for the community in the bargain.

IS PARTISANSHIP WINNING? It is a pleasure to note at this season of heated political contest that the thrill of partisanship is melting with frequent rebuke. A senator is to be elected, and, of course, will be

Good Boys

Are the bad boys very often. The boy that's good for anything is generally pugnacious. He's a healthy animal, and the healthy animal will always fight for his rights.

When a boy shames the rough sports of his companions he is apt to be a weakling, and to be conscious of the fact.

A great many mothers have testified to the wonderful curing and strengthening power of Dr. Pierce's Golden Medical Discovery. All strength comes from food after it has been perfectly digested and assimilated. By curing diseases of the stomach and other organs of digestion and nutrition, "Golden Medical Discovery" enables the perfect nourishment of the body, which is thus built up in the only way a body can be built up—by food.

There is no alcohol in "Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

"Dr. Pierce's medicine has done wonders for my two sons," writes Mrs. M. H. Haddock, of Brewster, Oregon, Co., N. Y. "Both had chronic Myeloid and were taking two or three years ago with hemorrhage from the lungs. I treated him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had one more attack. My younger son had scrofulous skin on his neck. He had two attacks but has not had any since he commenced to take your medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper cover, sent free on receipt of 21 one-cent stamps to pay expense of mailing only. For cloth binding send 10 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

ected upon a partisan basis, and possibly by a very narrow faction of partisanship, and the process seems to receive the sanction of a large majority. Of course our people believe in the will of the majority, and so long as that majority does not stamp this process with disapproval it is accepted by the masses. At the same time thinking men and women know that many of the public acts so sanctioned have no other virtue to commend them.

Only the other day this writer heard an old rock-ribbed, thick-and-thin Democrat, who drinks his whiskey straight, remark that even though his party nominated so good a Democrat as Grover Cleveland or David B. Hill, he proposed to vote for Teddy Roosevelt. If that man of action and of the people was in the field. This was no more surprising than to hear a few days later from the lips of a stalwart Abraham Lincoln Republican, a veteran of the Union army, and a man who has never voted anything but the Republican ticket, that the best message that had ever been put out by an Oregon governor was that of the present Democratic executive of our state. Such statements as these show that the better class of men in all parties

Can One Desire Too Much of a Good Thing?

give open to conviction, and anxious to get the best men to the front. Such men are honest, and where there is one with enough courage to express his convictions, there are probably a dozen who think the same, but fear to express their beliefs. Some are swayed by self-interest, others by the party-lash, and the greater majority by ignorance and prejudice. While these are conditions of mind that only time can efface, it is gratifying and a hopeful sign to hear candid expressions of approval from the political enemy, as it were. The hope of the state and nation rests in these independent, thinking men, who are not afraid to express their honest convictions.

ALMANACH DE GOTHA.

Gotha is a joint capital of the German duchy of Saxe-Coburg-Gotha. It is famous for its dukes and its sausages, but more than all else for its Almanach. Of all the historic almanachs, none is more world-famed than the Almanach de Gotha. Its first issue appeared in 1763. With its 1903 issue now published, it celebrates its one hundred and fortieth anniversary.

Although "made in Germany" and originally published in German only, since the accession of Napoleon I, the Almanach de Gotha, has been published in French and German, French being the cosmopolitan language of European society. The change in language was effected only after much strategy on Napoleon's part. He apparently found the mastery of all Europe easier than control of the Almanach de Gotha. For years after the French revolution, this arrogant publication continued to print "Louis XVII, reigning monarch of France." After Napoleon had been duly crowned, however, his family found a place among the Almanach's limited list of royal families, but Auhalt still took precedence of Napoleon.—The Gotha printed itself on being strictly alphabetical. At this, however, Napoleon seized the entire issue, moved the outfit to Paris, printed a new edition, in which N appears as the first letter of the alphabet.

Although the Almanach de Gotha contains all the information to be found in any well-regulated almanach, it is of course most famed for its genealogical annual, or court guide. In fashion and precedence, Gotha has always been the ultimate appeal. To be mentioned in Gotha is the blue badge of distinction. Its exclusiveness and severe selectiveness may be known when such families as that of the English Goels is excluded. But Salisbury is only a marquis, and nothing under a duke gets into Gotha. In this connection, however, it is interesting to note that President Roosevelt is favored, being admitted under the head of "rulers." His name

however, looks insignificant enough beside that of Kaiser Wilhelm, whose titles fill twelve agree lines. But Theodore Roosevelt is written there—in Gotha—and this in itself is great glory.

SPEAKER HARRIS.

Editor Kincaid, of the Eugene State Journal, has the following compliment for Speaker Harris, and must be duly appreciated coming from an opposition paper:

Hon. Lawrence T. Harris is a very bright young man, and has many friends and admirers in Lane county, as was shown by the large vote he received in 1900 and again in 1902. His election to the responsible and honorable position of speaker of the house of representatives shows that he is esteemed and trusted by the representatives from other counties, as well as by the people of the county where he has been raised and educated. His rapid advancement in public station is an honor to Lane county. The fact that he succeeded over the opposition of two other older and more experienced politicians, Eddy and Davey, makes the triumph all the more conspicuous. Frank Davey is a bright man, active, experienced and long and favorably known throughout the state. He made a vigorous fight, as did Mr. Eddy also, for the position. A victory gained in the face of such opposition, over two able and worthy candidates, is a brilliant one. Elevation is exposure, and all that glitters is not gold, but with care and patience and

close attention to business the newly-elected speaker will be able to hold the animals in check.

BEWARE OF WORRY MICROBES.

Worry is the father of insomnia. Worry is forethought gone to seed. Worry is discounting possible future sorrows so that the individual may have a present misery.

Worry is not one large individual sorrow; it is a colony of petty, vague, insignificant, restless imps of fear, that become important only from their combination. Their constancy, their iteration.

Worry is the traitor in our camp that dampens our powder, weakens aim; under the guise of helping us to bear the present and to be ready for the future, worry multiplies enemies within our mind to sap our strength.

Worry must not be confused with anxiety, though both words agree in meaning originally, a "choking" or a "strangling," referring, of course, to the throttling effect upon individual activity. Anxiety faces large issues of life calmly, with dignity. Anxiety always suggests hopeful possibility; it is active in being ready and devising methods to meet the outcome.

Worry is the dominance of the mind by a single, vague, restless, unsatisfied, fearing and fearful idea. The mental energy and force that should be concentrated on the successive duties of the day is constantly and surreptitiously abstracted and absorbed by this one fixed idea.—Pittsburg Dispatch.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she was 3 years old, she ate for Castoria. When she had Children, she gave them Castoria.

New Arithmetic. Teacher—How many make a million? Johnny Smart—About one in a million, I guess, ma'am.—Judge.

Fashion Item. Though knowledge of feminine fashions and fads is new, I confess, than I've got. A friend, I believe, is in permanent style. If that is a capital hint.—New York Times.

A Frequent Fault. "There's only one criticism I would make of your novel." "What is that?" "It isn't novel."—Chicago Post.

And Some Are Just Wind. Some men are like the storms that break. And some are like the gusts. Some sweep us from the paths they take; Some fill our eyes with dust.—Chicago Record-Herald.

Popular Fiction. A job of two of history. A trouble thread of poet. Great gods of talk and love and gore; The rest, it matters not.—Life.

NO APPETITE!

And what little you force yourself to eat does not have the right taste. What's the trouble? The stomach is out of order, the liver is inactive and the bowels are constipated. You need Hostetter's Stomach Bitters at once. It will tone up the stomach, restore the appetite, perfect the digestion, and open up the clogged bowels. Then you'll feel better. Try a bottle today. It will do you good.

HOSTETTER'S STOMACH BITTERS

Russians Take Very Little Exercise

What exercise Russians take is usually more of a gentle promenade than anything else. They will stroll up and down the principal street in the town or in some small public square or garden for hours quite contentedly. Thus, in spite of the unique opportunity for skating which their long winter gives them, it is rare to find any Russian who can skate well. If you do find two or three good skaters, you will probably learn on inquiry that they are Englishmen or Germans. I was, however, surprised to find most of the Englishmen who are in the country on duty (as I was, for the purpose of learning the language) anything but pleased or contented with the life they are obliged to lead.—Cornhill Magazine.

The Worm in the Chestnut.

A physician explains how the worm gets into the chestnut. When the nut is still green, an insect comes along and, hunting a warm place in which to lay its eggs hatched, lights upon the green chestnut and stings it. At the same time it deposits some of its eggs in the opening thus made. The chestnut begins to ripen, and at the same time the eggs are hatching. The insect selects chestnuts as a place for depositing its eggs as being the best adapted place by instinct. The floury matter in the nut turns to sugar, and sugar contains carbon, which produces heat.

Our Mental Traits.

To our parents, says an expert, we are indebted for half our mental traits; to our grandparents, one-fourth; to our great-grandparents, one-eighth, and so forth.

Baptism in Hungary.

In Hungary the legal age of an individual dates only from baptism.

Coffee Stains.

If coffee stains do not yield to the treatment of having boiling water poured on them, try using the yolk of an egg in the same way as soap when washing them.

Marvelous Growth.

It has been found by experiment that a turnip seed will under favorable conditions increase its own weight fifteen times in a minute. Turnips growing in peat ground have been found to increase more than 15,000 times the weight of their seeds in a day.

Making Pastry.

Make pastry with clean, cold hands. Wash the hands in hot water in which there is a little liquid ammonia, carefully removing every stain, then plunge the hands into cold water.

Corn Rows.

The reason why corn (maize) never rows unevenly is supposed to be because of its having opposite radicals of growth from the cob center.

The Successful Tree.

In India and South America there is said to be a small tree known as the "successful tree" which bears sweet scented flowers that "bloom only in the night-time and fall off at the break of day."

Friday Happenings.

On Friday Shakespeare, Washington and Napoleon were born. Queen Victoria was married, the battles of Bunker Hill and New Orleans were fought, America was discovered, Moscow was burned, Richmond was evacuated, the Bastille was destroyed, the Mayflower arrived and the Declaration of Independence was signed.

Early Guns.

In early firearms guns were made by hand and with great care from one strip bent round a mandril and edges welded.

Book Sizes.

A royal folio has a page 19 by 12 inches; a royal quarto, 12 1/2 by 10; a royal octavo, 10 1/2 by 7 1/2; a 7 by 4 1/2; a 24 mo. 8 1/2 by 5 1/2; a 32 mo. 7 by 4 1/2; a 48 mo. 5 1/2 by 2 1/2.

Dextrin Comes From Starch.

Dextrin is nothing but roasted starch, and any one who has a stove that has an oven attachment can make his own dextrin, whenever he needs it by roasting starch to a light brown. Its best known use is to make the famous postage stamp used on the back of the postage stamp.

Assorted Dozens.

In the china trade there are twelve quart pitchers in the dozen, but twenty-four pint pitchers. There are sometimes as many as seven dozens to the dozen.
