#### How Many Rings Make a Stock?

を見らうなうななななななななななななななななななな。

HERE'S a little problem in jewelry arithmetic : How many Finger Rings would be necessary for a first class jewelry store to carry in stock? Some jewelers would say 300, some would say 500, a few might say 800, but the BARR STORE has actually in stock at the present moment over 1200 RINGS for Ladles and Gentlemen Think what an immense number this is to choose from! Why, it's as many as you'd find in big stores in cities of two or three hundred thousand population- And yet there are people who judge the BARR STORE by the amount of goods in the show windows rather than by the bigness of the stock that is within. If they would come in, we'll warrant they would find food for astonishment. In our judgment size of stock counts more than elegance of fittings.

After you have used it a short time you will wonder why you sweltered over a hot wood range during the heated term, or was worried over starting a fire on a Winter's morning, when a touch of a match makes a bright blaze, sonfined to your cooking utensils, and not heating your house for the whole day. Try cooking by gas.
