

What would you do the next time you have a hard cold if you couldn't get Ayer's Cherry Pectoral? Think it over.

THE DAILY JOURNAL

Members Northwest Afternoon Newspaper League. BY HOFFER BROTHERS.

THE NEXT OREGON SENATOR.

Whoever is chosen at the final ballot this evening will have to be acceptable to the people of Oregon. The Journal believes that a young and vigorous man will be selected.

We believe that is the sentiment of the people of Oregon at this time, regardless of faction and party. In the race for development Oregon has need of the best brains, intelligence and vigor that can be chosen.

The man elected should be able to perform the duties for the next twenty years, and as Mr. Scott and Mr. Corbett have not been openly declared candidates, there ought to be no trouble to select a young man at this time.

The Journal takes a broader view than any party or faction in this matter. The present has urgent demands upon the representatives of the people in their choice for a senator.

In the closing hours of a prolonged, but not embittered struggle, we cannot hope to get attention to any reasoning on the subject of candidates or their merits. But it is not good business policy to say for once, let us turn our face to the future of our wonderful and undeveloped state and let the dead past bury its dead.

Let Oregon politics deal with live issues, instead of stirring the dying embers of factional strife.

THE TRACY CLAIMS.

The governor should not veto the Tracy claims contained in the last appropriation bill passed by this legislature. The bills are very small, and the state has got off very cheap.

The state of Oregon never had the service of a better set of men than those composing the ways and means committee of this session. President Brownell and Speaker Harris gave Oregon solid committees, and they framed appropriation bills with great economy and care for the taxpayer.

Chairman Howe and Chairman Kay of the house have been the means, with their colleagues, of keeping from three to five hundred thousand dollars of expense out of these bills, and it can be said that there is not a two-bit item of graft in them.

For the first time in the history of the state three appropriation bills have gone through both houses without an item being struck out, or an item being put in.

The only fight made has been on the expenses connected with the man-hunt for Tracy and Merrill. Those items are made the basis of a demand for a veto by a few persons who have not had the information on the subject that the committee did.

"FRUIT OF THE LOOM."

Men and women of taste and judgment go into retailers over the wonderful patterns, textures and colors which are the fruit of the loom. But there is one fruit of the loom they rarely consider, and that is the frail and faded woman, old before her time, because necessity compels her to work under conditions, which send her more favored sister to bed and the doctor's care.

The disease which weakens and tarnishes women, may in almost all cases be cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

The state has got off very cheap for that prison break. It might have cost the state \$100,000. It is not believed that there are any more claims to come before the state on that account.

THE EDUCATIONAL APPROPRIATIONS.

At this session there has been a marked reduction in the amount appropriated for higher education. The reduction from two years ago will reach as much as \$100,000, in the opinions of many.

The normal schools especially have been cut down to a marked degree, and it is probable that the amount now spent is not excessive. Still it should be reduced to an actual necessity.

Oregon maintains but few high schools, and the normal schools bridge the chasm of four or five years between the common grade schools and the universities, and gives hundreds of young people an uplift in life they would never get without them.

The repeal of the scalp bounty law, the enactment of an inheritance tax and a corporation license law, the passage of the flat salary bill, and the reduction for higher education are plank in the program that The Journal has contended for the past year, and with marked success.

The Journal will make a fight next year for the adoption of a tuition system for all state schools of higher education that will make them more nearly self-sustaining, and they should in future have only enough appropriations to meet any running expenses that cannot be met out of a reasonable tuition schedule. But no state school should be closed up.

APPROPRIATION WILL DO IT.

Although the board has not yet met it is quite probable that the work of building the portage railroad at Celilo will be let by contract. There is an idea expressed that the amount appropriated is not sufficient to complete the work, but this is ill-founded.

Nottingham's Cruel Speech.

There was a slight break in the monotony of voting for senator Thursday that caused a ripple of laughter, and also some pretty thorough surprise. When Nottingham's name was called he took the floor to explain his vote, which he did in a brief but neat speech. Among other things he said: "I have been voting steadily for one man, because I believed it for the best interests of the state. Now Mr. President, I believe the time has arrived when I should change my vote. I desire to vote for a stalwart of stalwarts, for one who will look after the fishing interests the timber interests, who has a mind broad enough to do justice to all the varied interests of our great state, and who lives down by the sounding sea."

Bourne Not Incorporated.

Charter bills are usually considered unimportant. But the committee considering them found one at this session which they considered significant enough to recommend adversely.

And although it passed the senate it was turned down in the house.

It was all over the matter of licensing saloons.

The town concerned was Bourne, in Baker county.

The complication arose because the constitution of the state provides that at least a certain sum shall be paid on the issuance of a liquor license.

This charter provided that liquor licenses be issued according to the decision of the common council of Bourne, so on account of possible complications, the bill did not pass, and Bourne has no change in its management.

Fresh eggs and butter from our stores at Aumsville and Mahama, at Spear Bros. Phone 2491. 11-11-12

PRINTER BUT NO PLANT

State Has No Printing Outfit

Presses and Material Belong to Frank Baker

The state printer has been placed on a flat salary of \$3,500 per year and no more.

This is in effect after the second Monday in January, 1907.

All bills and accounts for labor and material are to be paid in the same manner as other claims against the state.

But after all the provisions of the bill, the state has a state printer, but no printing office.

This statement was made by Mr. Orton of Multnomah.

The use of the printing plant at the capital is secured by the present state printer who rents it from ex-state printer Baker.

Mr. Orton said that the purchase of a plant capable of doing the work required of a state printer would take an additional appropriation of \$30,000 or \$40,000.

He suggested this matter, or that the present state of affairs in the printing office be unchanged, but the members decided that provisions for a printing press, etc., could be made at the next session.

Orton said the state printer could also be placed on a flat salary at the next session, but this was disregarded.

SUPREME COURT SALARIES

Are Higher Now Than Will Be in 1905

The Supreme Court has two places for holding sessions.

In March and October of each year at Salem.

In May and November at Pendleton or whenever else they may decide.

For these extra two terms each of the justices shall receive \$2,500 annually, in addition to his present salary.

This is really, however, only an increase of \$1,000 each over their present salaries.

The flat salary law goes into effect in 1905, and takes the place of the amounts fixed by this law.

After that the chief justice will receive \$4,500 annually and the associate justices \$4,000 annually.

Collecting Taxes for 1902. Sheriff B. B. Colbath will on Monday begin the collection of taxes on the 1902 roll which represents in the aggregate about \$220,000.

The tax rolls are being compared by the county clerk and will be surrendered to the sheriff on Saturday evening. Sheriff Colbath has ample clerical help and has arranged his office so as to facilitate the collection of the amounts on the roll. An iron railing has been placed in the office and taxpayers will be obliged to wait their turn in paying their taxes.

We sell the greatest of blood purifiers, Acker's Blood Elixir, under a positive guarantee. It will cure all chronic and other blood poisons. If you have eruptions or sores on your body, or are pale, weak, run down, it is just what you need. We refund money if you are not satisfied. 50 cents and \$1.00. D. J. Fry, druggist.

Scalps Plenty on Border. Malheur county would be glad to see the scalp bounty graft knocked out. In running over the amount paid to individuals under this law we find warrants drawn for bums all the way from \$2 to \$50.

The larger warrants are for \$330, \$354, \$362, \$164, \$236, etc., come from the southern portion of Malheur, especially that section bordering on Nevada. The law has worked a great hardship on this county and we would be devoutly thankful for its repeal.—Malheur Gazette.

Two Years for Larceny.

Sheriff Thomas Linnville and guard today brought W. R. Beckwith to the state prison from Clatsop county. Beckwith will serve two years, having been convicted of larceny by embezzlement.

HOSTETTER'S STOMACH BITTERS

Has become famous during the past fifty years because it is a family medicine that can always be relied on for any derangement of the stomach, Liver, Kidney and Bowels.

JOURNAL X-RAYS.

Senator Morgan accuses the senate of leaking. Wonder if he means to insinuate that it is getting quite rotten.

The omnibus statehood bill is hung up, but Senator Quay is seeing to it that there is not much other business being transacted.

Senatorial lightning rods are numerous and are sticking up high. The senatorial sky, however, seems perfectly clear with no sign of electrical disturbances.

Adjutant General Gantenbein in writing the history of the Second Oregon, was probably led into error by assuming that the affairs of private life should not enter into it.

Bishop Spaulding says a man may have the wealth of a Carnegie, and yet be a thief, an idiot and a brute. Very true Bishop, and he may be all of these and more, just as easily, and still be dead broke.

It may be all right, but it strikes us the government should have held out enough of that \$20,000,000 paid Spain for the Philippines, to take care of those widowed and orphaned by the blowing up of the Maine.

At Kokomo, Indiana, owing to one boy shooting another, an examination was made of the school boys and nearly 500 .22-calibre pistols were found in their possession.

Carrie Nation says Los Angeles is the worst city she ever saw. One should bear in mind before forming an unfavorable opinion of the city of the citrus belt, that Carrie has never seen Seattle nor has she visited the north end of Oregon's metropolis, known as White chapel.

Congress is establishing a system of money for the Philippines with the peso as the unit. It contains 12.9 grains of gold and goes two for a dollar. It also provides silver pesos but whether "16 to 1" or as many as one can get the dispatches do not say.

Two high-school boys at Pasadena, California, have been suspended because they kissed two high-school girls. Just whom the faculty expected the boys should kiss is a mystery.

Senator Chauncey Depew in a speech in the senate a few days ago, spoke sarcastically of small states like Colorado, having as much to say in the senate as a great state like New York. Chauncey is mistaken, none of them has as much to say nor white Chauncey is senator, but all of them have more brains and abler representation. Chauncey might improve the situation some by resigning.

Another District Created

Another judicial district has been formed, consisting of Baker county. Mr. Kay objected to the bill passing on account of the additional expense of \$6,000 or \$7,000 per year to the state. There are three counties in this district at present, Union, Wallowa and Baker.

Mr. Phelps made the statement that Baker county has more litigation than any county in the state, excepting Multnomah. That the present judge is greatly overtaxed, and that another judge is necessary.

Mr. Davey presented figures regarding the work accomplished by other judges in the state, and said that the matter of expense to the state should be considered.

WHAT IS THE USE

Of suffering from indigestion if you eat what you want, or of starving yourself to avoid such distress? Acker's Dyspepsia Tablets taken after eating will digest your food perfectly, and free you from all the disagreeable symptoms of indigestion and dyspepsia. Eat what you like at any time, and take an Acker's tablet afterward. Positively guaranteed. Your money will always be refunded if you are not satisfied. Write to us for a free sample. W. H. Hooker & Co., Buffalo, N. Y.

CLASSIFIED ADS

Advertisements, five lines or less, in this column inserted three times for 25c, 50c a week, \$1.00 a month. All over five lines at the same rate.

WANTED.

Wanted Men.—We teach the barber trade in the shortest possible time at small expense, and guarantee positions. Write Moler's Barber College, Salt Lake City, Utah. 2-16-2m*
