Phone, Main 1401.

Sewing Machine Time

This is the season of the year when the spring sewing is well under way. If you have about worn out your patience trying to run the old machine, drop in and let us show you our latest ball bearing White Rotary Sewing machine and the Wheeler & Wilson. There's only one sort of a machine to which you should give a moment's consideration, and that's the rotary, for the regular shuttle machine will gradually become a relic of the past. So when you think of rotary shuttle machines, just bear in mind that the White represents the highest development of that construction, and the Wheeler & Wilson that of the rotary hook, which is very similar, and both are the lightest running, the quietest and most satisfactory machines that are shown today.

We are always glad to show the machines, and we have a separate salesroom for this purpose, where ladies may look at the machines at their leisure, undisturbed. Mr. N. H. Burley, a thoroughly experienced sewing machine man, is in charge, and will show you every courtesy.

Old machines taken in trade. New machines for rent. Sewing machine repairing. Best needles for all machines, 25 cents dozen. Best sperm oil warranted not to gum. Parts for all machines. If your machine needs repairing ring up phone, 2161, and Mr. Burley will call for it.

F. A. WIGGINS Implement House, 255-267 Liberty St., Salem.

Farm Machinery, Bicycle, Sewing Machines and Supplies.

MINING BUREAU PASSED

In Spite of Hard Fight By Kay

Whealdon and Hale Made Some Effective Talks

After a sharp fight in the house this morning, the bill creating a state mining bureau and carrying an appropriation of \$20,000, was passed. There was a fierce fight made against the bill by Kay, of Marion, who opposed the measure, for economic reasons. Of all the questions that had been presented for the consideration of the state legislature, Mr. Whealdon claimed that the matter of establishing a mining bureau is of supreme importance to the development of the mineral resources of the state. He insisted that the present time is opportune for making the most of the mineral resources of the state, in view of the approaching 1905 fair. He maintained that the mining industry of the state is of greater value than all of the commercial interests of the state, and this fact alone entitled the bill to the consideration of the house. Robbins made an able address in support of the bill, after Hawkins had moved its indefinite postponement. The Eastern Oregon representative called attention to the fact that the fish, game, horticultural and agricultural interests of the state had been cared for with abundant appropriations, while now it was proposed to kill a bill that was calculated to promote one of the main industries of the state. He gave statistics showing districts are large consumers of the agricultural products of the other sections of the state.

Phelps wanted the bill considered, because it was of real interest to all sections of the state. By this time Hale, of Southern Oregon became warmed up. "We have given Multnomah county everything she has asked for," said Mr. Hale, "and have even purchased your old junk here in Salem, besides granting to Lane county all that has been requested, and it is neither fair nor just that this mining bill should be thus disposed of without proper consideration." Mr. Hale urged the passage of the bill, which carries an annual appropriation of \$10,000. "If you must, let's kill this bill like men, and not drown it like rats." Shelley and Kay spoke against the bill, because of the fact that it was in the nature of a special appropriation. Reed and Malarkey, of Multnomah, favored the bill, because they considered that it is of interest and importance to the entire state. Judd voiced the same sentiments. Davey also opposed indefinite postponement, and declared for the bill. Eddy moved previous question, and motion to indefinitely postpone was defeated. The bill passed by a vote of 40 to 17; 8 absent.
