Salem, Oregon.

GEORGE'S DAY WAS KEPT

British Vessels Were Decorated

First At the National Naval Parade

Six Hundred Americans Celebrated at Rome

Norfolk, Va., Feb. 23.—The principal feature of today's celebration was the decoration of foreign steamers. British vessels were profusely decorated with bunting and American flags, the nited States warships were arrayed.

Rome, Feb. 23.—Beautiful spring-like weather prevailed here, and all the homes of the Americans were bedecked with the Stars and Stripes. Because of Washington's birthday falling on Sunday some objections were made to holding receptions. These objections, however, were smoothed away by making the reception at the nited States embassy a purely informal affair, at which tea was served. It was a most enjoyable affair to the 600 Americans present.

The Chinese minister with the staff of the legation, also attended as a compliment to the nited States.

SALEM INDIAN SCHOOL

Will Observe Washington's Birthday Tonight

There will be a formal observance of Washington's birthday at the Salem Indian Training school, at Chemawa, this evening.

Hon. P. H. D'Arcy will deliver the address, and there will be a musical program by the pupils.

The public is invited to attend. Superintendent Potter has arranged so that all who attend may return by the overland train.

THE GREAT HIGHWAY.

Automobiles and the New York-Chicago Road.

The owners of racing automobiles have brought that machine, which might be useful, into such disrepute that it is pleasant to find one of them engaged in useful public service. Colonel Dickinson of Springfield, Mass., left recently on an automobile trip to Chicago which promises to strengthen the movement for good roads, says the Brooklyn Eagle. He is treasurer of the New York and Chicago Road association, which hopes to have a line of smooth, hard highways connecting the two cities. The distance is some 800 miles, of which only 220 miles are of good macadam. The association, which numbers some 2,000 members, will ask the next legislature to bond the state of New York to build a good state highway, and Mr. Dickinson seems confident of state help in Ohio, Indiana and Michigan as the enemy's country.

There is no question that smooth, hard highways would be of immense benefit to farmers and not merely a convenience for the owners of automobiles and bicycles. It has been shown over and over again that the farmer could draw four times as heavy loads to market with the same span of horses over a properly made road as over the average roads through even level country. The roads ought to be made and kept in repair from local taxation by the towns and counties through which they run. But co-operation between such neighboring divisions in the matter is more difficult to secure than uniform trust legislation. One long, fine road as an object lesson might be worth even state co-operation for its effect upon other communities.

If the automobile can be used to promote interest in that movement, it is a good thing, but farmers are not going to vote taxes for roads which would be practically speed courses for these machine wagons and on which it would be dangerous to drive their family caryalls. Colonel Dickinson and his association should take the hearts of their favorite machine in hand. If they could suppress those public nuisances, their good road movement would thrive better.

Thick Handed Whales.

The head of the whale has been known to attain a thickness of over two feet.

SHIP SUBSIDY SCHEME

Laid on the Shelf for This Session

Congress Opened With Good Prayers

Washington's Farewell Address Was Read

Washington, Feb. 23.—The house committee on merchant marine and fisheries, by a vote of 10 to 7, refused to report the ship subsidy bill, thus disposing of the matter, so far as this session is concerned.

The Rev. Sutter offered a prayer when the house met today, praying that this generation might be guided by the precepts and examples of Washington.

The senate was also opened with a similar prayer, and the time-honored custom of reading Washington's farewell address was gone through with. Dubois, of Idaho, being called to the presiding officer's chair for that purpose.

Admiral Higginson, commanding the North Atlantic squadron, today wired the navy department from San Juan that he had sent the collier Prairie to search for the disabled collier Alexander.

WOMAN BEATER WANTED

Portland Police After a Baseball Player

Portland, Feb. 23.—Pierce Childs, first baseman of the Pacific-Portland baseball team is wanted by the police for a brutal assault on Esther Roe last night. He gave her a fearful beating and she was insensible. He is said to have a bad record in Texas.

THE ROYAL BOX.

The sultan of Turkey is an excellent pianist and spends five hours every day practicing. He devotes a couple of hours daily to teaching his daughter how to play.

Victor Emmanuel, king of Italy, has but one extravagant taste. He is an ardent collector of ancient coins, of which he has one of the largest and most valuable aggregations in Europe.

All the English princesses resemble Victoria's side of the house and show uniform lack of good looks, though Queen Alexandra was a remarkably attractive woman in her youth and is even now quite good looking.

The shah of Persia is probably the best chess player of royal blood in the world. Even when in Paris he found time to indulge in the game now and then, but he says that Europeans cannot play it. "It is a royal game, a divine game," he is reported to have said the other day, "but it is a game that was not made for Christians."

RAILWAY TIES.

Ohio has a trolley line which has introduced sleeping cars on its long runs. The railroad companies in the north west which handle ore are increasing their stock facilities.

The New York Central Twentieth Century express recently made the 147 mile run from Syracuse to Albany in 129 minutes.

No great is the need of locomotives on the Virginia roads that the Norfolk and Western has arranged to erect a two hundred and fifty thousand dollar locomotive shop to build its own engines.

Chicago is watching with interest the building of the new union station for the Lake Shore and Michigan Southern and Rock Island railroads. The train shed is to be 380 feet long and 220 feet wide.

How to Clean Zinc.

Zinc may be quickly cleaned by first washing it with warm soapuds, wiping dry and then rubbing thoroughly with a cloth dipped in paraffin and polishing till the whole surface shines.

Springfield, Ill., Feb. 23.—Wilson was given an ovation when he entered the hall this morning when the Federation of Labor for Illinois is in session. In a speech Mitchell opposed

strikes, except as extreme measures. He said they should then be fought to the last ditch. The reason why there are more strikes in America than anywhere in the world is because the strike is the result of the highest civilization. A peacefully conducted strike was only possible in a free country like ours.

MINER BADLY MUTILATED

While Thawing Out Giant Powder

Salt Lake, Feb. 23.—Archie Brown, a miner of Diamondville, Wyoming, was killed by an explosion of giant powder, which he was thawing at a fire near a lime quarry today. His left arm and leg were blown off.

Connellsville, Pa., Feb. 23.—Two Italian workmen were killed and two fatally injured Saturday by a premature explosion of 16 sticks of dynamite in a quarry. One man was blown over a bluff into the river.

Nona Chappel, the 12-year-old daughter of Mrs. A. L. Sutter, at Oregon City, was held up Sunday night and robbed of \$35.

DIED.

COOK.—At his home on the Silverton road, near this city, at 10 o'clock Sunday morning, February 22, 1903, Mr. Cook, aged about 55 years, of cancer.

The deceased came to this city last June from the East, and purchased the Blankenship farm, east of this city.

Funeral services were conducted at 2 o'clock this afternoon, and burial took place in Lee Mission cemetery. Rev. Adolph Eberle conducted the service.

Morgan F. Hooker Dead.
Morgan F. Hooker was born on May 28, 1844, at Hamilton, N. Y. He was a direct descendant of Rev. Thomas Hooker, one of the founders of the city of Hartford, Conn. When a young man, at the breaking out of the Civil War, he entered the volunteer service, and served through the entire war, being with Sherman's army in its march to the sea in 1864-5. After the war he came West, and was in the employ of the Union Pacific railroad, running a passenger engine until about the year 1900, when, on account of injuries received in a collision, while running his train near La Grande, Oregon, he was forced to leave the service of the company. Since that time he has been an invalid and a continued sufferer. He was married to Jennie Jones, at Aurora, Illinois, in June, 1876, who, with an

CHICAGO STORE
PEOPLE'S BARGAIN HOUSE.

15,000 yards of

Embroideries and Laces

The greatest shipment of embroideries and laces that ever arrived in Salem. We have secured these goods through our brother in Chicago for spot cash and will place them on sale at prices that will startle the community. We extend an invitation to the ladies of Salem and surrounding country to come and inspect these goods and see for yourselves. To describe them in detail would take two sheets of the Journal and then would not tell you half enough about them. Prices from 2c yard up.

Sale for Monday, Tuesday and Wednesday.

only son, Louis, survive him. He, with his family had resided in Salem since 1895. He was a member of the G. A. R. and of the Brotherhood of Locomotive Engineers. He was a man of a kindly and generous nature, and a sincere Christian gentleman, beloved by all who were so fortunate as to know him. His family has the sincere sympathy of the community in their great bereavement. Since his residence in Salem he has, with his wife, engaged in the millinery trade.

Sewing Machine Time

This is the season of the year when the spring sewing is well under way. If you have about worn out your patience trying to run the old machine, drop in and let us show you our latest ball bearing White Rotary Sewing machine and the Wheeler & Wilson. There's only one sort of a machine to which you should give a moment's consideration, and that's the rotary, for the regular shuttle machine will gradually become a relic of the past. So when you think of rotary shuttle machines, just bear in mind that the White represents the highest development of that construction, and the Wheeler & Wilson that of the rotary hook, which is very similar, and both are the lightest running, the quietest and most satisfactory machines that are shown today.

We are always glad to show the machines, and we have a separate salesroom for this purpose, where ladies may look at the machines at their leisure, undisturbed. Mr. N. H. Burley, a thoroughly experienced sewing machine man, is in charge, and will show you every courtesy.
