# FRUIT GROWERS

Held Annual Meeting on Saturday

#### Offices Elected and Fine Prospect for Organization

The Salem Fruit Growers' Union enters upon its record year with increased membership and a good financial showing. A ten per cent assessment on the capital stock last year met nearly all expenses, and the fruit growers derived substantial benefits from co-operation.

The retail market was kept from being glutted, and the price at the cannery was increased above any previous year, and the only complaint made by the shippers and the cannery was that there was not strawberries and other small fruits enough to meet the demand. Strawberries neted the growers \$100 to \$300 per acre. The use of artificial fertilizers has been begun, and larger profits will be made this year than ever before. Nearly every member of the union has been able to sell all the plants that he could be raised, some deriving larger profits from plants than from fruit. The retiring board of officers, who handled the union the first year, made splendid showing, and if their successors do as well, with the splendid start they have, there will be no cause for complaint.

The attendance at the annual meetng Saturday was larg) and inspiring to all present. The members expressed a determination to stand solidly by the organization, and an effort will be made by the next meeting to add to the membership all growers of small fruits who are not already in the union. An effort will be made to organize the growers of larger fruits, such as peaches apples and pears and get for them the benefit of co-operation, and an improved product that will double the price of the product.

The Proceedings. J. R. Shepard was called to the chair, in the absence of President Reynolds, Secretary Thielsen read secretary's report. Showed membership assessment of \$27 received. Total of \$204.41 for cra'es and boxes was received. Expense, total \$253,36. A balance of about \$10 was due secretary. An item of \$6 was due for express on nine boxes of peaches shipped to Minneapolis by Bent Jones for the union. The report was received and approved and a vote of thanks was tendered the secretary. Mr. Thielsen stated, in returning thanks, that he had given the union all the time at his disposal. A ten per cent assessment' was lev-

ied by vote of the union. J. R. Shepard, A. Vercler, A. Au-

france, S. H. Hatch, E. Hofer, D. W. Matthews, H. B. Thielsen and L. D. Reynolds were nominated for directors-five to be elected. Ballot showed the following elected: Thielsen, Aufrance, Reynolds, Matthews, Hofer. E. Hofer suggested that all members

of the union prepare to contribute a small number of crates of gilt-edge product, to be used to extend the market for the Salem Fruit Union. D. W. Matthews said he favored that plan, and believed that co-operation on that line was feasible. Mr. Thielsen said by means of the union they had socured a cent a pound more than would have been possible without. W. C. Price heartily endorsed the union. It was increasing in membership right along. He favored contributing ten The Journal office, or pay them to Seccrates of extra choice berries to extend this market.

A. Vercler favored using one or two cars of berries to advertise the Salem Union.

S. H. Hatch favored that plan of sending choice fruit out in small ship from Salem. ments to test new market.

J. R. Shepard was impressed with the respect which this organization union, brought up the matter of idenhad inspired among shippers and can tifying the Fruit Growers' Union with nery. He urged that all members the Federated Trades, of this city, and stand by the officers.

decided to contribute at least ten 14th. a liquor as ever passed your lips, crates each for the purpose of extend-

apple and pear products.

On motion of Grover Hensley, the manager of the cannery was invited to meet with the union, and conference to be arranged with the board of di-

On motion the union adjourned to the second Saturday in March, at 2 p-

The board of directors met, qualified and elected E. Hofer president, D. W. Matthews vice-president and L. T. Reynolds secretary. The Capital Na-

## TO 63

That's the proper proportion of animal and mineral matter in the bones of a healthy child - thirty-seven per cent, animal and sixtythree per cent. mineral. The bones of the average rickety child show about seventy-nine per cent. animal and twenty-

It's this lack of sufficient mineral matter in the bones that makes a child have rickets. Deformities of the chest and head, bent legs and curved spine are some of the results of rickets.

The disease is one of early life, and the first symptoms are shown in the digestiveorgans. Usually the appetite is poor and the child grows dull and fretful. There are pains in the limbs and joints. The pulse beats quicker and the veins become slightly swollen; gradually the whole body becomes tender and the face shows signs of waste, depression and weariness. Then the action of the disease begins in the bones. The legs are first to show the effects when they fail to support the child properly. As a matter of fact, the bones cease to grow at this stage. Proper nourishment for the whole body, and particularly for the bones, is the best possible treatment; in fact, it is the only treatment.

Scott's Emulsion is therefore the natural remedy for rickets, as pure cod liver oil is the most effective of all remedies for this disease. The hypophosphites of lime and soda contained in Scott's Emulsion feed the bones and furnish them with the means to grow properly. It also helps the digestion and provides nourishment that cannot be secured so well in any other way. It quickly enables the rickety child to make up lost ground, and insures a healthy, natural growth. Being as palatable as cream and more nutritious, Scott's Emulsion is easily accepted by the

most delicate stomach. These claims are not made off-hand. We know from nearly thirty years contact with such cases that Scott's Emulsion will do just what we say it will do. We will be glad to send you a sample free so that you can judge for yourself.
