GRABBING TIMBER LANDS.

The Northern Pacific Railroad Company, through their attorney, John M. Hughes, of St. Paul, last Saturday filed at the local land office on \$640 acres of timber land on the headwaters of the North Fork of the Clearwater, in the Pot Mountain country. The entries are in townships 38 and 39 east, and extend to the crest of the Bitter Root range. Mt. Rainier script was used in filing aggregating 3880 and 4700 was filed on under the lien land act of July 1, 1898. The N. P. had previously acquired over 100,000 acres of timber in the North Fork country, and the recent filing shows that the extensive holdings are being steadily increased.—Panhandle, Idaho, News.

All the while the Republican newspapers of the state have been abusing a democratic state administration for selecting timber and selling it off to the highest bidders for the benefit of the various public funds, a law passed by a Republican congress has enabled the railroad corporations to gobble up timber virtually without any compensation. Still there is no protest from these papers, so quick to criticize the Democratic method of filling up the public treasury for the benefit of all the people. The Rainier reserve, lobbied through congress, with the endorsement of Land Commissioner Binger Hermann, set aside a lot of worthless land of the Northern Pacific grant that was rocky and barren and could never be disposed of, and in lieu thereof the government issued to the company the script representing a number of acres equal to that included in the reserve, with which they are now filling up the valuable timber lands of Northern Idaho. This act of congress, in brief, allowed the Northern Pacific to exchange its valueless lands for vast tracts of timber that is worth millions of dollars.

It will be remembered, too, that Commissioner Hermann attempted during the last state administration to hold up its selection of timber lands in order to allow the Northern Pacific

WORN TO A SHADOW.

When there is a falling off in flesh in woman or man there is "something wrong." And that something wrong is generally a loss of nutrition due to disease of the stomach and the other organs of digestion and nutrition. Sometimes this loss of flesh is accompanied by variable appetite, but in many cases the appetite does not fail and there may be a constant desire to eat. Languor, nervousness, irritability, sleeplessness, are symptoms often associated with this loss of nutrition and falling off in flesh.

Doctor Pierce's Golden Medical Discovery cures disease of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food so that lost flesh is regained and the physical health re-established.

"I had suffered from indigestion and only those who have suffered from it know what it really is," writes Mrs. M. J. Fagan, of 1015 East Avenue St. Bryan, N. Y. "I had had severe attacks of headache and dizziness, with cold hands and feet; everything I ate distressed me, bowels were constipated and I was growing very thin and nervous. I cannot half express the bad feelings I had when I commenced taking Dr. Pierce's Golden Medical Discovery. I took nine bottles of the 'Discovery' and have taken several bottles of Dr. Pierce's Pleasant Pellets. I commenced feeling better with the first bottle and kept on improving. Now I am so greatly improved in health my friends often speak of it. I most heartily recommend these medicines to all suffering as I was."

The People's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps for expense of mailing only. Address Dr. E. V. Pierce, Buffalo, N. Y.

an opportunity to "script" it all ahead of the state selectors. Only the prompt action and firm position taken by the Democratic state officials prevented this rape of Idaho's resources by a grasping corporation. Yet during all the controversy not a Republican paper in the state had the courage to set aside its partisan prejudice, and stand by the interests of the people.—Boise Capital News.

The Journal does not imagine Binger Hermann will pay much attention to the above from a Democratic paper. Fisher and Sheridan and D'Arcy, the editors and publishers of the Boise Capital News, are Oregon men, and lived at Salem and Roseburg.

They know something about the land business, but probably not enough to bother Mr. Hermann in his race for congress.

Not many men would have the determination after being at outs with the department of the interior over such matters to run for congress.

Either Mr. Hermann has been very much maligned for political effect, or he should answer such statements as the above.

He will probably, if nominated, make a campaign that will answer all his critics, and all such attacks will be swept away.

Mr. Hermann is a man of remarkable industry and energy in political affairs, and there is no likelihood that he can be put on the defensive.

If he should be, and all the above be true, he would not make a strong run for congress, but he can probably defend himself fully.

JACKSON COUNTY FOR VAWTER.

The Jackson county Republican convention was harmonious and was enthusiastically for Wm. I. Vawter for congress.

Mr. Vawter made a speech which was well received. He spoke feelingly of the gratification he experienced at the warmth and unanimity the convention had displayed in supporting his candidacy for congress.

The speech was earnest, uplifting and made a good impression with the convention.

The following are the names of the delegates chosen to the congressional convention: Jeff Howard W. R. Coleman, D. T. Lawton, W. H. Gore, E. V. Carter, H. E. Ankeny, F. D. Wagner, Gus Newbury, Charles Young, J. M. Keene, Wm. G. Kenney, J. D. Hoard.

TAKE DOWN THE FENCE.

Have you a fence around your lawn? Have you a high paling around your house, shutting out the street? What purpose does it serve, and of whom or what are you afraid? If the fence were removed would the public trespass upon your rights? Would they invade your lawn, or the privacy of your dwelling? Do you suspect your neighbor, or do you wish to guard against burglars? Do cows, horses, or hogs run loose in the streets, so that you need to guard against them?

In an old city like this, what purpose does a fence serve? Why incur the expense of putting it there, and why continue the expense of maintaining it? Do you think it an ornament? If you do, your ideas of ornamentation and decoration are sadly at variance with the views of many. The general opinion is that unsightly fences should be removed.

Think of how infinitely more beautiful it is to see lawns run one into the other without a break, than to see each little two by four lot separated by a fence. When one sees such a lit spot with its fence, one is tempted to the belief that the artist did not finish his work; there should be a sign nailed to it, "KEEP OUT," so that all the world might be notified of the exclusive tastes of the inhabitants.

Take down the fence at your earliest convenience. The chances are that the wood will do well for kindling fires, and if it is used for this purpose, its very highest purpose will be accomplished.

There should be no fences in the incorporated parts of Salem; they are the prerogative of villages; little out of the way hamlets, where cows stray at their sweet will, and hogs go about the streets seeking what they may devour. In these little villages—more stepping stones from country to urban life, it is almost necessary to mark off and preserve one's own little plot, but Salem lays claim to be a city, and, as such, should get rid of her country ways. A small cottage and lot may seem beautiful, viewed in the large area of a neighbor's more extensive grounds, without a fence separating them, but a large and beautiful place may be effectively cheapened by the addition of an unsightly and obstructive fence.

CASITORIA.
The Kind You Have Always Bought
Is the favorite eating house of the city. The best meal service that can be had.

GOT A SPRING BATH

It Was a Trifle Early and a Bit Cold

All on Account of an Indian Cutting Scrape

Tuesday evening as Dr. Wetmore and George Hall were crossing the Siletz river, they came within an ace of losing their lives. They left Toledo early in the evening, and about 11 o'clock they reached the river at the ford near Fuller's place. Not being certain of the ford they shouted to the Indian living on the opposite of the ford, and were heard by an Indian woman who came to their assistance, and attempted to direct them across the river. It was intensely dark at the time, and they were unable to see anything, but Mr. Hall drove in the water, proceeding but a short distance when they struck deep water, floating the buggy around down stream and washing the doctor overboard in nine feet of water. The doctor floated down stream, but Hall held to the team, and after about 30 minutes' struggle he and the team and buggy landed on the opposite side from where they started. Dr. Wetmore was unable to swim much, owing to the heavy overcoat he had on, but, fortunately, he drifted into an eddy, which carried him near shore, and, striking against a limb, he managed to pull himself out, after being in the water about 25 minutes. Everything loose in the buggy was lost, including the doctor's medicine case and surgical instruments, valued at \$85. All this on account of a fight between two Indian women, in which one of the combatants was slashed with a knife. The doctor was on his way to patch up the wounds.

If you desire a good complexion use Meik Tea, a pure herb drink. It acts on the liver and makes the skin smooth and clear. Cures sick headache, 25 cents and 50 cents. Money refunded if it does not satisfy you. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample. D. J. Fry, druggist.

THE STOMACH IS THE MAN.
A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol (Benger's) Cures indigestion, nervousness, and strengthens the glands and membrane of the stomach and cures indigestion, dyspepsia and all stomach troubles. F. C. Linde, drug store.

Polk County Pioneer.

Dr. Nathaniel Hudson who died at Baker City last week was a pioneer resident of Polk county, settling on a donation land claim near Bethel in 1851. In 1852 he opened a private school there, and among his pupils were Geo. L. Woods, afterwards governor of Oregon. In 1860 he joined with Prof. L. L. Rowland and Profs. George and John Hall in opening Christian College at Bethel, moving in 1866 to Monmouth where the college was re-opened, that afterward became the State Normal School. In 1861 he joined Bethel lodge A. F. & A. M. and after it dissolved affiliated with Amity lodge of this place. In 1862 he married Miss Lydia Ann Jones of Bethel now deceased. Two children were born to them, Mrs. Arthur Philbrick of Baker City and George Hudson who was killed at Cavite while a member of the Utah Light Artillery. In 1854 in company with his brother Phineas, he built the first saw-mill in Polk county, on La Creole river, about three miles from Dallas, which was marked on the maps of those days as Hudson's mill. He was a native of New York and was nearly 73 years old.

Coal in Crook County.

Coal has been discovered in the eastern part of the county in considerable quantities, and reports keep reaching us of the fine prospects had by several parties. The coal indications seem to be general from the Heppner country south, and extends for a distance of perhaps 200 miles, varying in width. A partial analysis by Dr. W. W. Taggart, of this city, shows the coal to be very rich in volatile carbon, showing quantities from 40 per cent to 75 per cent, and is about 40 per cent coke. The prospects show the vein to be superceded by a layer of shale, and indications would suggest a thickness of fine steaming coal of at least six feet. It is only a matter of time until development work will commence on these properties.

When they do we predict that Crook county will take her place among the coal producing sections of the West.—Crook County Journal.

Mohair Takes Another Jump.

Mohair is king of farm produce at present. Wm. Brown & Co. are offering 33 cents, and the market seems strong. 3-25-tf

JOURNAL X-RAYS.

The price of success in any line these days is hard work.

Binger Hermann does not believe in quitting politics under fire.

The latest fad among Portland politicians is civil service reform.

The biggest thing of the kind on earth—an elephant's toothache.

To congressional candidates—frosts in April are not so dangerous as in June.

Well, why shouldn't Binger Hermann be nominated? All the old free silver leaders have been recognized in Oregon but Binger.

It is about time for some one to begin another libel suit against The Journal. It has printed some more extracts from the public records.

President Smith, of the State Board of Horticulture was wise in saying the time for speech-making was over with the Salem Fruit Growers' Union. The time has come to work.

The grip of the coal trust has hardly been broken in the East when the ice trust begins to squeeze the people. They should come to Oregon where they can get along without either.

Here is the way Tillamook editors go for each other: Gee, whiz! A man who would desert his wife and family would resurrect his grandmother and sell her body for a stiff.

The prevalence of strikes does not argue a high state of prosperity so much as it proves that wages and the cost of living are not in proper relation. Men do not ordinarily go on strike as a matter of choice, but more under pressure of circumstances.

The theory that each citizen is a part of this government, and in duty bound to attend to his civic functions, but a glance at the Ashland Republican primaries last week would indicate that the average citizen has none of the old-time interest in the affairs of the government, while he has a business to occupy him or can get a fair living.—Ashland Tribune.

When the people get Direct Nomination they will go to the primaries, as they will have something to go for.

WHO KNOWS

When His Kidney Trouble Has Fastened and Reached the Chronic Stage? If It Has It Is Incurable by Anything Known Except the Fulton Compounds. We Are The Sole Agents.

As an evidence of the unusual character of the Fulton Compounds that company does not publish or invite testimonials except those reporting recoveries in kidney diseases that have reached the chronic stage, alleged to be incurable. Here is another recovery in a case incurable till the advent of the Fulton Compounds, reported by John A. Johnson, the agent of the Fulton Compounds in Los Gatos: W. H. Fridley, a resident of Los Gatos, having chronic kidney disease (Bright's Disease) had, like everybody else, found all treatment futile. He commenced on Fulton's Renal Compound in February, 1902, and on December 30 of the same year reported the total disappearance of the disease. He writes that he has gained fifteen pounds in weight and is again able to do a good hard day's work. John A. Johnson, the Los Gatos druggist, confirms this recovery and knows of several other recoveries in similar cases of chronic kidney disease in Los Gatos, all of which were incurable by anything else known to druggists. S. A. Palmer, the leading druggist of Santa Cruz, H. H. Maynard, the Palmdale druggist, the Ferry Drug Company of No. 9 Market street, San Francisco, W. K. Pond, the Berkeley druggist, Dr. Markley, the Cleveland druggist, Willis & Martin, the Sacramento druggist, and scores of other California druggists all report specific recoveries in chronic kidney diseases that were positively incurable by anything known except the Fulton Compounds.

Droopy, steamed-up from uric acid, gout and bladder troubles are proofs that the kidneys are not performing their functions. The chronic stage of kidney trouble is a tricky disease. If you feel languid or miserable, if your kidney trouble hangs on and for Pamphlet, "Personalities of Recoveries," send 50 per cent among purely chronic cases. Fulton's Renal Compound for Bright's and Kidney Diseases, 315 1/2 Washington street, San Francisco, sole compounders. Free analyses for patients. We are the sole agents for the Fulton Compounds in this city.

KICKED BY A HORSE

AND SUFFERED NEARLY FORTY YEARS BEFORE THE BONE HEALED

"AM I ALL RIGHT? OF COURSE 'M ALL RIGHT," SAID MR. A. COOPER, OF POLK COUNTY, WHEN ASKED ABOUT HIS LEG WHICH WAS HURT WHEN HE WAS A BOY. 'I WAS KICKED BELOW THE KNEE BY A HORSE IN 1860 WHEN I WAS A MERE BOY, AND SUFFERED FOR YEARS. IT ACHED TERRIBLY AND SOON BROKE. THEN PIECES OF BONE COMMENCED COMING OUT AND CONTINUED FOR ABOUT A YEAR. THIS WAS FOLLOWED

BY AN ATTACK OF TYPHOID WHICH LEFT ME IN BAD SHAPE. I WAS OBLIGED TO USE CRUTCHES FOR OVER TWO YEARS FROM THAT TIME UNTIL I WAS CURED ABOUT SIX YEARS AGO I ALWAYS USED TWO CANES. THE DOCTORS TOLD ME THERE WAS NO HOPE FOR A CURE UNLESS I HAD MY LEG SPLIT AND SCRAPED AND THE CORDS CUT. SOME ALSO ADVISED AMPUTATION, BUT I REFUSED, AND FINALLY DR. COOK, THE BOTANICAL SPECIALIST OF SALEM, TOOK MY CASE. I BEGAN TO IMPROVE AT ONCE, AND IN SIX MONTHS MY LEG WAS WELL. IN FACT I FEEL THAT DR. COOK SAVED MY LIMB, AND I WANT EVERYBODY TO KNOW IT, FOR IT WAS A WONDERFUL CURE. SOON AFTER TREATMENT THE BLACK FLESH BEGAN TO GROW OUT OVER THE BONE WITH A HEALTHY COLOR."

September 1st, 1902.

PERSONS WISHING TO KNOW MORE OF MR. COOPER'S CASE CAN LEARN ALL THE PARTICULARS BY CALLING ON HIM AT INDEPENDENCE, OREGON, OR AT DR. COOK'S OFFICE, 103 LIBERTY STREET, SALEM, OREGON.

CHRYSLOLITE

It's the inside that counts, both in people and in cooking utensils:

The "Inner man" should be pure and spotless. The inside of Chrysolite Enamelware is pure white.

R. M. WADE & CO.

A DINNER PARTY

To be thoroughly enjoyed seems to require a "before" cocktail, sherry, claret, Burgundy during and a cooling good punch afterwards. We are prepared to supply the requisite liquors and wines for all stages of the and all social functions—dinners, weddings, receptions. 'Phone if you're in a hurry.
