### The Jeweler's

If you propose presenting some Easter token of affection or friendship to some one who is near or dear to you, remember that no gift has quite as much pleasure and fascination in it as "something from the jewelers." A high class jewelry shop such as Barr's, is the chosen abode of pretty things, and if you have any thoughts of making an Easter gift, we urge that you should come here and select it. We have hosts of enchanting little bits of jewelry, in one form or another, that are not costly and are just the thing for Easter giving. Please come and see. It costs nothing to look, you know.

### Will Not Be Produced.

The Salem Elks have decided not to undertake the production of the opera "The Wizard of the Nile." For several days the local Elks have had the subject under consideration, but the plan has been abandoned, because of the lateness of the season. Annually, since its organization, the Salem lodge of Elks has given a public entertainment of some form. Some other plan of entertaining their friends this spring will likely be adopted by these popular lodge people.

## PENNELL INQUEST BEGINS

### Scenes Similar to the Burdick Case

### Crowds of Fashionably Dressed Women Present

### Fearful but Some Salacious Detail Should Escape

Buffalo, April 10.—The inquest on Arthur Pennell and his wife began at 3 o'clock this afternoon. The scenes are similar to those in the Burdick case. The court room is crowded to its fullest capacity by fashionably clad women. The Pennell estate, also Mrs. Burdick are represented by attorneys. Fred Pennell, brother of the dead man, who is expected to testify, is not present. The insurance companies are represented by an imposing array of legal talent. Wallace Thayer, who holds the sealed packages of papers from Pennell, was one of the first to enter the court room. Coatsworth and assistants present are hoping to learn who killed Burdick, although the inquest is ostensibly to solve the question whether Pennell's death was accident or suicide.

Murphy said he expected Fred Pennell tomorrow. He had notified the subpoena-servers to telegraph him, Dr. Danzer, who viewed the bodies was the first witness. He found Pennell underneath his automobile, his head crushed and brains scattered for a distance of five feet, showing the force of the impact. There were many
