## FIFTEEN SHELL HOLES

### In the Hull of the Reina Christiana

#### Spanish Warship Sunk by Dewey Is Raised

#### Evidence Goes to Show that She was Scuttled

Manila, April 12.—The Reina Christiana, Admiral Montojo's flagship, which was sunk by Dewey in the battle of Manila, was raised yesterday from its bed of mud by the crew of a wrecking company, and beached. About 80 skeletons were found in the vessel. The valve of the main injector is missing which intimates she was scuttled, when her commander abandoned her. Fifteen shell holes were found in her hull. Otherwise she was in fair condition.

## New Styles in Spring and Summer Millinery.

Here are the very latest creations in spring and summer millinery. Smart, dressy effects, calculated to please close followers of fashion. But we do not want to appeal to you on any style alone, because we make our prices one of the strongest buying incentives.

#### Caught With Their Booty.

Longmont, Colo., April 12.—Two men dynamited the safe of the post-office here early this morning, but were surprised by citizens before they could gather much booty. Only two registered letters were secured, and these were later recovered from the men, who were captured in a lumber yard nearby. They gave their names as George Bradley and William Morrison, and claim they are from Pueblo. Officers here believe they have had something to do with the recent holding up of a restaurant there, when two men, patrons of the place, were shot and killed.

Postoffice Inspector Sullivan thinks they are responsible for the numerous cases of safe-blowing that have occurred in California and adjoining states during the past several months.

## Putting on Her Clothes

Bristol, April 12.—The work of stepping the Reliance mast commenced early this morning, and took 35 minutes. It is about 111 feet high. The rigging is now going up.

## Mainsail Don't Suit

Weymouth, April 12.—Shamrock III, under mainsail, made a short run in the open sea this morning in a squally northern breeze. The test showed the set of the mainsail was not satisfactory. She returned to her anchorage after an hour's run.

#### Farmers United.

Rome, April 12.—The International Agricultural Congress opened here today, with 2000 delegates.

#### Collar Makers Strike.

Glens Falls, N. Y., April 12.—Six hundred operators in the Well shirt-collar factory struck this morning. Two hundred others, who do piece work at their homes, are also out. They want a reduced rate on the thread, which they are compelled to buy from the company.

Six weeks of politics, and then we can all go fishing—or to work.

## MERGER DECISION HURTING

### Northern Securities Slump

#### Wall Street Thinks Court Decision Will Stand

#### All Stocks Fall off, Southern Pacific Included

New York, April 12.—Signs are not wanting in Wall street today that the adverse decision to the Northern Securities is considered a mortal blow, at least so far as railway combinations are concerned. Almost from the opening stocks staggered from the blow up to 2 o'clock this afternoon, and dropped constantly. The hope that the three days' holiday would give the big interests vitally interested a chance to get their breath was rudely shattered. Attempts were made to support them at the beginning, but heavy selling orders crowded in from many parts of the country, and the receding tide of values could not be checked. The heaviest losses in those corporations whose status might be attacked on the same grounds as the merger. Large blocks of Union Pacific and Rock Island were thrown on the market. Trading on the curb was violently excited, and brokers threw over large securities in large amounts. It opened at 103 and beat down to 97c by 2 o'clock this afternoon. The Southern Pacific slumped off with the rest.

Just before the close the Northern Securities again broke and went down to 94c, it being freely offered at this figure. At 3 o'clock the stock showed a loss of nine points today.

#### Elevator Burned.

Chicago, April 12.—The Churchhill elevator, with 150,000 bushels of wheat, was destroyed by fire this morning. Loss, \$100,000.

## BUFFALO BILL IS HURT

### Thrown From His Horse this Afternoon

#### The Horse Fell With Him, Hurting Him Severely

#### Taken to a Hotel, but Extent of Injuries yet Unknown

Manchester, Eng., April 12.—Buffalo Bill was injured in an exhibition of the Wild West show here today. His horse fell heavily, throwing him. He was removed to the hotel, but the extent of his injuries are not yet known.

#### Improvement of Stock.

Eugene, Or., April 12.—With the opening of spring weather in Lane county there is evidence among the farmers and stockraisers of the county that more enterprise is displayed in the matter of improvement of the stock industry than ever before.

The stock business in the county is greater than many people suppose, and the exports for the past year have amounted to approximately \$250,000, which is a greater figure than would be estimated by most people without careful study.

The great improvement noticeable at the present time is the introduction of improved blood, and an effort at scientific improvement in breed.

The cattle on all the ranges show evidence of this, and their value in the market is correspondingly increased. Likewise the sheep that graze upon the hills bear evidence of breeding and the wool, as it comes into the markets is of a superior quality, and brings a correspondingly good price.

There was that almost anything with wool was called a sheep, and a clip of four to six pounds was sufficient to satisfy the desires of the owner. But now the most improved breeds are in demand, and careful attention is given

to them, so that a clip of six to eight pounds to the fleece is very common. The heavy fleeces and improved quality are produced with no greater expense than was the inferior clip a few years ago, and the farmer reaps the additional profit.

So it is throughout all branches of the stock industry, and the bank accounts of the stockmen and the evidence of their prosperity in their dealings with merchants are unmistakable evidence of the great change that has taken place for the good of the country.

## Actor Gets Good Money

Eureka, Ill., April 12.—Clay Clement, the actor, by settlement of the suit over his father's estate, from which he was disinherited because he went on the stage, comes into possession of \$12,500.

## The Burial of Belknap

Washington, April 12.—The remains of the late Rear Admiral Belknap arrived this morning from Pensacola, and will be interred in Arlington cemetery, with militia and marine honors.

## More About the Bribers

St. Louis, April 12.—The local grand jury, which, under the guidance of Prosecuting Attorney Falk, is co-operating with the Jefferson City inquirers in the alleged corruption of the state legislators, resumed its work this morning.

Six state senators were summoned as witnesses today. Officers are scouring the city for Colonel Phelps, a well-known railway lobbyist, whose name is mentioned in connection with the thousand-dollar bill transaction while the alum bill was under consideration. He was expected to be a witness today, but failed to appear, although he was seen on the streets yesterday.

## SULTAN GETTING BRAVE

### Orders a Private Yacht to Cost

#### Sixty Thousand Dollars, and then a \$400,000 Cruiser

#### Purchased Electric Lights from a German Firm

Constantinople, April 12.—The Sultan's fright over the uprising of the Albanians seems to have quieted. Today he issued an order for the summary punishment of the Macedonian train-wreckers, and almost immediately after issued another order to the Genoa shipyards for a private yacht, to cost \$60,000, and a new cruiser, to cost \$400,000. He also ordered a large supply of electric lights of peculiar construction from a German firm. They are to be used by the Turkish hospital corps in searching for dead on battlefields.

## Missouri Bribers

Jefferson City, Mo., April 12.—The County special grand jury resumed its investigation of the baking powder scandals in the state legislature this morning.
