Manager Electric Lines Installed

President and Owner J. J. Henry Pushing Renovation of Plant

MAKES CITY OFFER TO CONTINUE CHEAP RATES

Eliminates Danger of the City Being at the Mercy of His Monopoly

Jos. J. Henry, the new owner of the Salem electric plant, is taking hold of the situation with great energy, and work is being pushed in all directions to restore the lost business of the corporation, and make improvements in the street railway.

J. W. Springer, of Denver, arrived last night from Baker City, where he has been putting a plant in first-class order, and will become the manager of the Salem system. He succeeded C. H. Brown, who has been manager for some time, under the direction of the Portland owners. Mr. Springer is considered a man of the highest character for the place, and has had 25 years' experience with such work.

There will be no other changes at present in the force at Salem. Chief Counsel Macbeth, for Mr. Henry, has left for Portland, and McNary Bros. have been engaged as local counsel. Mr. Henry met the baseball league directors yesterday, and met all their demands for improved service and assistance in putting the state fair grounds in first-class condition for the league games to be played here this summer. Both car lines will be operated for all such events.

Four thousand ties were bought for the car line this morning, and 1000 are already delivered along the lines, and a force of men is being gathered up to put the tracks in a less "rocky" condition. There will be no let-up in the work of restoration until the lighting plant and the street car lines and service of the Capital City are as good as money can make them, and Mr. Henry assured the reporters this morning that his only ambition would be to keep them in that condition. He is the first proprietor of the Salem plant who has no hard-luck stories to give out, and the first who says the Salem plant has not been losing any money. It has not been making any, but the books show that it has been on a paying basis.

Guarantees Cheap Light. Mr. Henry says he will not only reduce the cost of private lighting, but bearing that the city feared an advance of rates next year, when its contract expires, he this morning ad-

dressed a letter to the mayor and council, guaranteeing them present rates for city lights for five years to come, and these rates are today the lowest paid by any city in the West. The letter is as follows: To the Honorable Mayor and Common Council of the City of Salem, Or.: Gentlemen: Referring to the contract entered into by your honorable body with this company August 22, 1899, for arc lighting of the city, I hereby agree to an extension of this contract for a period of five years, after the expiration of the same, to-wit, September, 1904, or five years from date, at the same rate as contained in said contract, to-wit: \$5.95 for each arc light per month. I further agree to furnish any number of additional arc lights that you may require for like period at the same rate. Respectfully yours, JOSEPH J. HENRY.
