

Not a Rival in Sight Anywhere
When the linen that has been done up at the Salem Steam Laundry is put in contrast with that laundried anywhere in Salem. The beauty of our laundry work makes us justly proud, and we feel like crowing every time we see the difference in our superb color and finish on the shirts, collars and cuffs done up by our methods with the linen worn by anyone laundried by any other process.

DON'T SHIVER WHILE YOU DRESS
These cold mornings. Reach out of bed, strike a match, turn on the gas in your gas stove and note how quickly your room gets warm. Haven't a gas stove? Mean it? Lots here so cheap you'll wonder how you have permitted yourself to be benumbed when so much comfort could be had for so little.

TO CARE FOR THE INSANE

New Law Makes Relatives Liable for Their Care at the Asylum

At the last legislature an act was passed to amend section 3621 of Bellinger and Cotton's annotated code and statutes of Oregon, relating to the pay of patients confined in the Oregon state insane asylum. Heretofore the state has stood all the expense connected with the care and treatment of patients committed to be state asylum, whether or not the person committed, or the parents, children or guardians of the person were able to pay.

The new law, which will go into effect tomorrow, provides that it shall be the duty of the county judge, at the time any person is committed to the insane asylum to determine whether the said person, his or her parents, children or guardian, are able to pay the state for the maintenance of such person during the time he or she is an inmate of the asylum. If the county judge shall determine that such person, his or her parents, children or guardian have the ability to pay, he shall make an order to that effect, and the person or persons so designated shall pay \$10 to the state treasurer per month, on or before the first day of January and July each year.

In the case of failure to pay the amount due within 30 days after the same becomes due, it shall be the duty of the state treasurer to furnish the prosecuting attorney a statement of the amount due, and the prosecuting attorney shall collect the amount in the same manner as other indebtedness due the state would be collected.

Super Heated Air For Acute and Chronic Diseases

W. G. Robbins, Doctor of Osteopathy, has added to his practice, the system of super heated air, for the treatment of acute or chronic diseases of all kinds, especially acute or chronic articular or muscular rheumatism, stiffness of the joints, traumatic synovitis or tubercular synovitis, also chronic gout or arthritis, where the urate of soda deposit has formed in the small joints of the hands and feet, practically deforming them. These can hardly be cured by any other method than dry hot air treatment, applied daily at intense temperature. Remember, lead melts at 360 degrees and you can stand 450 to 500 when wrapped in turkish toweling. This treatment dissolves the deposits around the joints, and increases the circulation. It dilutes capillaries and blood vessels, and stimulates the arteries, and restores to healthy action the pores of the skin. It is a great aid in all urinary troubles such as Bright's Disease of the kidneys. We cure syphilis, catarrhal affection, gripes, colds and all skin diseases. Call and see me. Consultation and examination free. I have four Bets hot air apparatuses, one for the entire body, one for treating various parts, one for treating the knee, and one for treating the head or ears, for deafness or catarrh of the head or throat. Super heated air is superior to any hot springs, for you can stand only 140 to 190 degrees moist heat, and in dry heat 350 to 400 degrees, which will bring a normal circulation, which tends to give relief from intense pain. As for asthma, it gives instant relief at 250 degrees, and respiration becomes easy. When you have tried the drug system, and have failed, come and be cured. There is no fake about this system. Heat is nature's remedy for the healing of all diseases, in connection with the osteopathic treatment. Ninety per cent of all chronic diseases are curable.
