NOT RUN BY A CALIFORNIA SYNDICATE.

The Journal has been taken to task for saying its Portland namesake was run by a California syndicate.

We are informed that the Portland Journal is owned "lock, stock and barrel" by Portland people.

It is reliably stated that the Ladd banking firm are the largest owners, and that the owners all live in Portland.

Well, that is news so far. But is it not a fact that a California syndicate is managing and editing the paper?

Now that is no crime. We wish some of the California spirit could get hold of other Oregon enterprises, as well as newspapers.

But why fight shy of the fact that the managing editor, Mr. Tyler, is from the San Francisco Examiner, and a very clever man?

Why deny that the sporting editor is a San Francisco man, and a very good one, too?

Is not the telegraph editor, and nearly every man of prominence on the paper a San Francisco importation?

Was not every Oregon man turned out of positions of prominence, except O. S. Jackson, a fine Southern gentleman, who prides himself on being a Virginian?

Is there a man left on the paper who knows Oregon history, or who is familiar with Oregon politics, or Oregon people? Even Lathrop is doing outside work. This may be all right, but why deny it?

EUGENE ENTERPRISE.

The Journal is not one of those papers that is always hunting for funny and disparaging things to say about its neighbors.

On the other hand, it believes in giving them a long credit mark, when there is a favorable opportunity, and they deserve it.

The city of Eugene deserves two long credit marks for the way that community takes hold of the public schools and baseball.

A \$25,000 high school building is going up there, and a full four-year course has been established, with 250 pupils enrolled.

Finding that they were short on good baseball players, when the last Salem game was pulled off, there showed up a number of Fresno players.

It is reported that they had the unmitigated nerve and baseball gall to import seven men from California, and walloped the Albany team good.

That is showing a proper respect for the national game, anyhow, and it is possible that the valley baseball players will all learn something.

Eugene is setting a warm pace for the rest of the towns of Western Oregon, and, while not up to the Capital City, is doing first rate.

It is the spirit of generous emulation and liberal enterprise that makes a city in these strenuous days, and Eugene has got the fever badly.

A GRAND APPOINTMENT.

Hon. E. C. Giltner, who was for twelve years assistant at the secretary of state's office, has been elected clerk of the World's Fair board.

Mr. Giltner is a very competent office holder, having also been receiver of the State Insurance Company.

The World's Fair board has a majority who are Democrats, but they elect a Republican secretary.

The same people who ran the Chicago exhibit for Oregon, the Omaha exhibit, and other exhibits for Oregon, will run this fair.

They will accomplish the same magnificent success in expending public money, and the magnificent results attending the bringing of people to Oregon.

FOR WOMEN, TOO

Hostetter's Stomach Bitter is a medicine that is especially adapted to all women who are weak or delicate. It has a calm, soothing effect upon the tired nerves, promotes refreshing sleep and assists nature in the proper performance of her duties. Then don't experiment any longer, but get a bottle of Hostetter's Stomach Bitters today from your druggist. You'll feel its beneficial effect from the first dose.

HOSTETTER'S STOMACH BITTERS

President Jeff Meyers and Secretary Ed. Giltner are a strong pair to put behind any public enterprise, with an appropriation behind it.

Mr. Giltner's uncle is one of the directors of the St. Louis fair, and gets a salary of \$5000 a year.

These gentlemen have been connected with the development of Oregon for twenty years past, and have been largely responsible for the magnificent results that have been attained.

The graft dies hard in any Western state, but if the fair board steers a clear, non-partisan course, and employs all worthy, competent and deserving people the result will be great for the taxpayer.

The \$500,000 have got to be spent, and it is not a question of absorbing the money, but getting great and unselfish results out of it.

JOURNAL X-RAYS.

This weather is "unusual."

This weather makes demand for an enlarged brewery plant.

The hot weather is cooking the strawberries on the vines in some cases.

What a pretty paper the Saturday Journal is getting to be, was the universal comment.

Oregon evidently believes in rotation of office—rotating out of one office into another.

Mrs. D. J. Fry and Wm. Brown are unanimous choice for members of the Salem park board.

There was very nearly an ice cream famine Sunday, and even some of the best girls went without.

Salem has now three bands—the Salem Military band, the University band, and the Salem Marine band.

Hitchcock will have to hurry in his working up reserves all over Western Oregon, before Hermann gets to congress.

According to Bookman the most read popular books in May were:

Lady Rose's Daughter.
Lovely Mary.

Under the Rose.
The Pit Norris.

Conjuror's House.
Darrel of the Blessed House.

A south wind blew up last night, and this morning light clouds overcast the sky, and many good people were hoping and praying for rain. But Oregon will have good crops without another drop of rain this summer. Still rain is never unwelcome.

Max O'Rell died a few days ago, and almost his last words were "I don't like this idea of changing my hat for a halo." For forty years Max had been trying to say something witty, and his first successful attempt was fatal.

For grim humor the Corvallis Times perpetrates a good one. Speaking of William Broders having purchased a saloon of Mr. Whitehorn, and of him giving the boys a genuine blow-out election night, it naively adds: "Mr. Broders is a man of well-known integrity and sobriety."

Profuse dispatches tell the world that Choate's son and Oliver's daughter are to be married. The bridegroom is a splendid golf player, and she handles a "brassy" as a cub bear does a roasting ear. The matrimonial chain that binds them is probably the golf links.

A Saratoga, N. Y., woman has received judgment against a man who flitted her after 14 years' courtship. She produced a note book in court showing that in that time he had kissed her exactly 1236 times. Great Swat! only 1236 times in 14 years? She ought to take a moonlight drive with a Salem boy.

Among suitable persons for school directors are named W. T. Slater, J. C. Young, B. A. Pierce, L. L. Pearce and several yet to come. All these gentlemen are substantial citizens.

Bright's Disease

Not Rare, but Common—All Kidney Diseases is Bright's Disease—The 8th to 10th Month it Becomes Chronic and Incurable by All Known Means Except the new Fulton Compounds, which Record 87% of Recoveries.

We have before us a little work on kidney diseases by Joseph F. Edwards, M. D., of Philadelphia, that contains some things that every one ought to know. Many people imagine Bright's Disease is rare, when, in fact, it covers the whole gamut of kidney diseases. This book sets out that the kidneys have but one function, viz., the elimination of the urea and waste products, and that all interferences with that function are called Bright's Disease. Dr. Edwards adds: "For the benefit of physicians who may read this book I will give a list of the cases which I attribute to Bright's Disease, viz.: Albuminuria, Degeneration of the Kidney, Fatty Degeneration of the Kidney, Inflammation of the Kidney, Uremia, Disease of the Kidney." Thus, all kidney disease being Bright's Disease, the serious question is, is it acute or chronic? In other words, is it in the primary or secondary stage? After the eighth to tenth month it becomes chronic and is then incurable by all known means except the Fulton Compounds. The kidneys are not sensitive. There is often no notice of the trouble till it has already advanced. If you have kidney disease in the first stage the Fulton Compound will cure it quickly. If it is of more than 8 to 10 months standing it is the only thing known that will cure it. To prove that nothing else will we cite all medical works as evidence that to this time there has been nothing that cures Chronic Bright's Disease. The stockholders of the John J. Fulton Co., business and professional men of San Francisco, are the first people in the world to announce a positive cure, presenting a definite percentage of recoveries (87 per cent), and giving out the lists of the cured, all among purely chronic, well-defined cases. If you have any kind of kidney trouble, there is only one thing to take. The Fulton Compound for Bright's Disease is \$1.00 for Diabetes, \$1.50 for John J. Fulton Co., 400 Washington street, San Francisco, sole compounds. Free analyses for patients, pamphlet free. We are the sole agents.

DR. J. F. COOK
Has come to the conclusion that all profession of the healing art on the side of the vegetable kingdom is a failure. When your system is run without pure blood. You will only find vitality in the vegetable kingdom. Poisonous drugs nor doctors' knives nor thunder lightning will not remove the cause, but lay the foundation for all kinds of disease. Those poisons go into your bones, and kill the life of the bone and create all kinds of diseases, cancerous tumors, consumption, bone diseases, etc. You must bear in mind that his medicine is not poisonous tonic, nor a stimulant, nor temporary relief which you get from poisonous drugs, where the results are sure death sooner or later. Do not blame the medicine, when it takes an effect and stirs up the poison disease in the system. You must not expect to be cured in a few days, your sickness or disease has been a long time coming on, and it will be a long time to get it out of your system. It will take months or a year to build a new body from the bones up. This is what the people do not understand. They are used to being humbugged. His medicines are composed of Nature's Herbs—what the human system requires. When the animals get sick they will help themselves to those herbs, for they have the instinct, and the people have not, so we have to make a study of it. It has been a life study with Dr. Cook. Do not get weary; this life is too short and too sweet to worry out of this world.

Dr. Cook Cures All Kinds of Diseases
301 Liberty Street, Salem, Oregon.

Man Wants But Little
But wants that little right sets it so every time he has the best on the market, and can guarantee purity and quality. Distillery, properly aged and medicinal use a specialty. Prices, too. Fine old rye, leading brands.
