Notice to Contractors.

Sealed proposals addressed to the Governor of the State of Oregon will be received at the Executive Office until 2 p. m., June 24, 1933, for raising the second story of the present Dining Hall, the building of a third story over same and a two-story addition thereto, at the Oregon State Penitentiary, located about two miles east of Salem, in strict accordance with the plans and specifications and instructions to bidders prepared therefor, which may be seen at the office of W. D. Pugh, architect, Salem, Oregon, and at the Executive Office at the State Capitol Building.

The bids must be made on blank form of proposals, which may be obtained from the Architect or Governor's office. A certified check must accompany each bid in the sum of five per cent of bid, payable to C. W. James, Superintendent Oregon State Penitentiary, as a guarantee that the successful bidder will enter into a contract and furnish a good and sufficient bond, to be approved by the governor, equal to the amount of the contract price within five days after the awarding of contract.

The right is reserved to reject any and all bids.

GEORGE E. CHAMBERLAIN,

6-12-13-17-20-22-24 Governor.

DICE NOTICE IS SERVED.

Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. For sale by F. G. Bane, 96 State street.

Your Stepmother.

Is still here, and as busy as ever. When your clothes are worn and dirty, or the buttons off, take them to her, at the Salem Dyeing and Cleaning Works. Repairing and relining; new velvet collars put on overcoats; also four suits a month for \$1. Called for and returned.

MRS. C. H. WALKER, Prop.
195 Commercial Street.

Looking Well and a Good
Yield of Grain is
Assured

U. S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, Oregon Section, for the week ending June 16th.

General Summary.

The past week has been cooler, with beneficial rains in nearly all sections. In Morrow and Malheur counties local storms did great damage over small areas by washing the soil, drowning vegetation, and inundating irrigation ditches. More rain is still needed in Southern Oregon, but elsewhere a marked improvement in the condition of all crops is noted.

Fall grain is heading, and in most places the heads promise to be of good size, although the stock is short. In Southern Oregon spring grain is heading with small stalks. Spring grain in the Willamette valley is making good growth, and the plant is thrifty and promising. In Eastern Oregon spring grain has improved considerably during the week, and a fair crop is now expected.

The cutting of alfalfa and early clover has begun and the yields are generally reported below the average. Hops, corn, potatoes, sugar beets and onions are growing nicely. Gardens also show improvement, and early vegetables are plentiful.

The hot weather of the previous week did some damage to apples, but the outlook is still favorable for fairly good yields. Cherries are ripening, and the strawberry season is at its height. Prunes are uneven; some orchards promise large yields, while others will give very light returns, but the crop, as a whole, will probably be an average one.

Coast District.

Nehalem, Tillamook county—Past week clear, with two excessively warm days, which curled the leaves on fruit trees; garden stuff not doing well; hay crop promising.

Waldport, Lincoln county—First of week warm; latter part showery; crops doing well.

Acme, Lane county—Warm and dry early part of week; latter part warm, showery; early vegetables are in the market; all crops are making excellent growth.

Gardiner, Douglas county—Excessive heat during first of week did but little damage to crops, which are now progressing nicely.

Coquille City, Coos county—Crops doing well; strawberries ripening; fruit and berry prospects good; grass plentiful.

Eckley, Curry county—Week very favorable; all crops made rapid growth, and they promise average yields; fruit of all kinds heavy, especially apples.

Astoria, Clatsop county—After the excessive heat the weather turned misty and cool; all vegetation is doing well; hay very promising; fruit light; pasture excellent; potatoes up and gardens doing nicely; young rutabaga plants damaged some by garden fleas.

Willamette Valley.

Troutdale, Multnomah county—Beneficial showers latter part of week; everything growing finely and looks thrifty.

Dixie, Washington county—Weather cloudy, with a few light showers; all crops doing well; some varieties of late apples seem to fall more than common.

Stafford, Clackamas county—Week favorable; wheat promises a fair crop; oats in fine condition; fruit not as good as expected; pasture good, and stock gaining in flesh.

North Yamhill, Yamhill county—Week cool and mostly cloudy and threatening; all kinds of crops made slow growth; hops doing well; fruit all right; clover nearly ready to cut; crop short.

Rickreall, Polk county—Cool, cloudy and threatening; without rain soon wheat and oats will be light; hops not needing rain; hay crop will be short here.

Gervais, Marion county—Cooler, with rain Thursday; hops are being cultivated the last time; shoes being filled; clover is being cut for hay; both spring and fall wheat look well.

Woodville, Linn county—Week favorable; fall sown grain heading; spring grain and gardens growing very fast.

Cresswell, Lane county—Grain and hay will be very light; fruit and berries fair; hops looking well; corn small and needs rain; vegetables fair. Southern Oregon.

Glendale, Douglas county—An electric storm of unusual severity occurred Thursday, with heavy rain, which thoroughly wet the ground, and was very beneficial to crops of all kinds: fall sown wheat shows no sign of grains developing, and spring sown wheat begins to look yellow, and is short in stalk; gardens are not up to the average.

Althouse, Josephine county—Week warm, with some cloudy days; rain needed badly; haying will begin next week; outlook now is for a light crop; gardens growing nicely; green worm have made their appearance on cabbage; outside range drying up; stock looking well.

Wellen, Jackson county—Warm weather, turning cloudy and at times showery towards end of week; the condition of growing grain somewhat improved, and the little corn that came up will now be able to make its growth; first cuts of alfalfa giving light yields; fruit trees are thriving.

Columbia River Valley.

Tygh Valley, Wasco county—Copious rains on the 11th and 12th insure a good crop of fall sown grain; fruit prospects good; alfalfa being cut; gardens doing well.

Condon, Gilliam county—Thunder showers on 11th and 12th greatly benefited grain and grass; sheep all on summer range.

Douglas, Morrow county—Fore part of week warm; latter part cooler, with occasional showers; the rain will help spring grain.

Grass Valley, Sherman county—Heavy rains on 11th and 12th; wheat doing well; a good yield is now assured; heavy wind on 11th did some damage to fruit trees and buildings.

Vinson, Umatilla county—Beneficial rain Thursday; crops will be light in this vicinity; stock is doing well, considering the previous dry weather.

Pendleton, Umatilla county—Early part of the week drying winds from the northeast caused considerable apprehension of further damage, but the damage has not been verified; Thursday and Friday copious showers over most of the wheat area has done much to relieve the situation; the weather remains warm, cloudy and threatens rain; ideal weather for maturing the crop.

NEW SCIENTIFIC PROCESS.

A Preparation Discovered That Will
Destroy the Dandruff Germ.

For some time it has been known that dandruff is caused by a germ that digs up the scalp into little white flakes, and by sapping the vitality of the hair at the root, causes falling hair, and, of course, finally baldness. For years there have been all kinds of hair stimulants and scalp tonics on the market, but there has been no permanent cure for dandruff until the discovery of a preparation called Newbro's Herpicide, which destroys the dandruff germ and you'll have no dandruff, no itching scalp, no falling hair.

For sale by Daniel J. Fry. Send 10 cents in stamps for sample to The Herpicide Co., Detroit, Mich.

Union Store.

Fine strawberries and fresh vegetables at Branson & Ragan's the union store.

Cake Making Axioms.

To get a fine grained cake, beat thoroughly after the flour is added. Sweet milk makes cake that cuts like pound cake. Sour milk makes spongy, light cake.

Always sift flour before measuring, then it may be sifted again with the baking powder to ensure their being thoroughly blended.

In making fruit cake add the fruit before putting in the flour, as this will prevent it falling to the bottom of the cake. Flouring the fruit is unnecessary, unless the fruit is damp.

If a cake cracks open while baking, the receipt contains too much flour.

In creaming butter and sugar, when the butter is too hard to blend easily, warm the bowl, and if necessary, warm the sugar, but never warm the butter, as this will change both texture and flavor of the cake.

The smaller the cake the hotter should be the oven. Large, rich cake require very slow baking.

Grease cake pans with lard or dripping, as butter will be likely to make the cake stick, owing to the salt in it.

The First Pill

the biggest seller in the world! Why? Because the best to cure Biliousness, Indigestion, Sick Headache and all troubles from Disordered Stomach is

JOURNAL X-RAYS.

The X-Ray man has all the rain he wants, and it will please him.

Why elect a board of health before the new territory is taken into the city, when that board was created on the strength of that new territory?

The X-Ray man has been asked to say why certain parties are allowed to construct corrugated iron buildings in the fire limits, while others are not. He can't say.

If the popular loan is right, and if the city is paying too much interest, why defer action on the \$30,000 bonds that are coming due to give some banking syndicate, local or otherwise, time to "gobble them up?"

Make a Walking Skirt.

The plaited walking skirt is as a general thing unlined, but a thin lining foundation reaching down to the hips is advisable, and will help to hold the skirt snugly in place where it is supposed to cling.

Another little wrinkle worth remembering is excellent as a preventive of bagging at the knees—a vice for which the plain front breadth unlined skirt shows a shocking propensity. Certain knowing tailors take a piece of firm silk, cut it to fit the front breadth in width and about ten or twelve inches in depth and lay it flat across the front breadth at the knee line, sewing it in with seams on either side and blind-stitching it slightly to the cloth. The silk will not stretch, and will hold the softer cloth in place instead of allowing it to bag at the knees, as it will in the average unlined skirt.

F. W. Osburn, a former Salemite, has been elected a school director in Eugene.

Proposals for Wood.

U. S. Training School, Chemawa, Or., June 16, 1933. Sealed proposals, endorsed "Proposals for Wood," and addressed to the undersigned at Chemawa, Oregon, will be received at this school until 2 o'clock p. m. of Tuesday, July 7, 1933, for furnishing and delivering at this school, as required, during the fiscal year ending June 30, 1934, 2000 cords of wood, as per specifications and instructions to bidders, obtainable at the school.

Bidders must state specifically in their bids the proposed price per cord of the wood to be offered for delivery under contract. The wood so offered will be subject to rigid inspection. The right is reserved to reject any and all bids, or any part of any bid, if deemed for the best interests of the service. Each bid must be accompanied by a certified check or draft upon some United States depository or solvent national bank, made payable to the Commissioner of Indian Affairs, for at least five per cent of the amount of the proposal, which check or draft will be forfeited to the United States in case any bidder or bidders receiving an award shall fail to execute promptly a contract with good and sufficient sureties, in accordance with his bid, otherwise to be returned to the bidder. Bids accompanied by cash, in lieu of certified check, will not be considered.

For further information apply to THOMAS W. POTTER, Superintendent.

Bids Invited.

For supplies for the Oregon State Penitentiary, during the period ending December 31, 1933.

Sealed bids for Dry Goods, Groceries, Shoes, Leather and Findings, Plumbing Supplies, Hardware, Flour, Oats and Mill Feed, Fish, Meats, etc., will be received at the office of the Superintendent of the State Penitentiary until Thursday, July 9th, 1933, at 3 o'clock p. m. at which time they will be opened.

A deposit of \$200.00 in cash or certified check payable to the superintendent must accompany each bid for meat, and of \$75 for bids for flour and fish, all other bids must be accompanied by an amount equal to 10 per cent of the amount of the bid.

The right is reserved to reject any and all bids and to accept or reject any portion of a bid.

On each envelope should be inscribed the nature of the bid. Goods of Oregon manufacture or production will receive preference, other things being equal.

All goods and supplies must be delivered to the Penitentiary within 20 days after the contract is awarded, unless otherwise provided in contract.

Schedules of the various lines of goods will be furnished upon application to the Superintendent. Vouchers will be issued for payment on the first of the month following completion of contract, and monthly on continuous contracts.

Samples must accompany bids for Dry Goods, Groceries, Flour and all other articles where practicable.

C. W. JAMES,

Superintendent Oregon State Penitentiary,
Salem, Oregon, June 9, 1933.
