The Weather. The weather forecast for tonight and tomorrow is fair.

JOURNAL X-RAYS.

Dolliver promised Portland a million.

Adam's troubles began with raising Cain.

Since the king had it, appendicitis has multiplied rapidly in Great Britain.

About 200 years ago there was a tax in England on the birth of children.

Of course, John Hay is a great diplomatist. All the stately politicians say so.

General Strike is the Napoleon of Industrial War and sometimes meets his Waterloo.

A late popular song relates what befel a young man who took his Roel-May to the Seaside.

The entire old Oregon State Fair Board seems to be running the Lewis and Clark exposition.

Hanna has disposed of some of his large business interests, but Hanna has not been disposed of.

If Portland wants to eradicate crime why not stamp out the breeding places in the North End?

Thank God and the women of Salem for the little exercise of a public park we have in Marion square.

Uncle John Savage, Sr. a big Salem farmer, objects to city birds coming into his premises.

Chicago hopes to pass the two million mark in population this year. Chicago always was long on people.

The meeting of the Republican state central committee taxed Portland hotels to their utmost capacity.

Many a father who starts in to make a lawyer out of his boy is glad to compromise on a good shoe clerk.

The United States government furnishes the farmer a free weather report, and the trusts attend to the rest.

The greatest objection to law schools is that they make lawyers out of everybody that comes to them.

One of the humors of the age—to hear a sore-eyed, sad-faced psychologist expound the "new thought" to a woman's club.

There would be some satisfaction to their critics, at least, if more Christian Scientists could be persuaded to have appendicitis.

Who would be harmed if fifty thousand acres a year of good farming land were cleared by "Chinese cheap labor" in Oregon?

It is doubtful whether Judge Lynch should attack the effect or the cause in seeking to eradicate high-handed crime at Portland.

Prominent society people of a Chicago suburb turned out and cleaned up a neglected park. Their aristocratic patriotism for you.

Bonnie H. a Chicago doctor that once amused President Roosevelt, is dead, and a monument is to be erected for the canine so distinguished.

Dr. Kuntz of New York was made insanely jealous by a coquetish wife, killed a man and was sent to the penitentiary for life. Men never coquette.

Tobacco culture is being introduced in Ireland. The first cigars made of native stock are said to be strong enough to support a drowning man.

Massachusetts has passed a stringent law against cutting up live animals in public schools. It is still extensively done in colleges. What a commentary on Christian education!

The Wisconsin factions are to be quelled by giving Governor La Follette a cabinet position. There is danger of his going to the United States trust.

The pope's mind was clear after his body had become almost frayed.

Chicago hopes to pass the two million mark in population this year. Chicago always was long on people.

Army

Life Caused Chronic Headaches.

Stomach Trouble All His Life.

Dr. Miles' Anti-Pain Pills Cured Him of Both.

As is very frequently found the stomach, trouble and headache in the following case came from the same cause. Dr. Miles' Anti-Pain Pills, like all of Dr. Miles' Remedies, are designed to cure the disease, not the symptoms. This readily explains why these sterling medicines can cure such a variety of diseases. There is no remedy, formula or prescription which in any way equals Dr. Miles' Anti-Pain Pills for the speedy cure and relief of headache and kindred ailments.

"Up to the age of twenty-three my son was greatly troubled with severe pains in the stomach. After he had served his term of enlistment with the army in the Philippines he came home and was unable for anything because of terrible headaches. He found that Dr. Miles' Anti-Pain Pills not only relieved him of the headaches but would prevent an attack if taken in time. He continued their use for some time and to his surprise and delight he found they had cured the stomach trouble also. You may imagine how grateful both he and myself feel to you for the good the Anti-Pain Pills have done him. I may add that I have used your medicines in our family for many years and keep a bottle of Nervous in the house all the time. I think it an ideal household remedy and all the remedies are just what you recommended them to be. You have my permission to publish this."—MRS. M. L. FARBER, Walla Walla, Wash.

All druggists sell and guarantee Dr. Miles' Anti-Pain Pills. They are non-toxic; contain no opiate, never sold in bulk, 25 doses, 50 cents. Dr. Miles Medical Co., Elkhart, Ind.

parent. An ordinary candle light could be seen plainly through the palm of his hand.

Portland can easily get rid of a few thousand of her thugs by closing a few hundred dives in the North End. It is a legalized home for criminals with no limit to age, sex or nativity.

The Oregon delegation is harmonious. The new state chairman is harmonious. The state press is harmonious. There will be no more discords in the Republican party of Oregon.

Under civil service rules a man was just appointed to the Port Townsend Chinese inspectorship who passed a written examination several years ago and had forgotten all about it.

The electric cars do not shy at the express trails; the motor-cycle don't jump stiff-legged and run away at sight of an automobile. They are all children of a speedy age and recognize each other.

The Portland papers print a picture of the street car that was held up and the man who was shot. The public would be glad to see the picture of the Portland thief of police who could capture one of the robbers.

J. S. VanWinkle, of Albany, gives the magazine "Outdoor Life" a going over for locating Castle Rock on the California river. The criticism was just, but oh! Van, why stab Bryant by that line, "pieces the barcan wilderness," and with a lower case "b" at that.

The Democrat is requested to announce that five Albany girls will go in bathing in the ditch in the first ward tonight, just below the falls, taking their summer vacation in this delightful manner in the waves from the Santiam.—Albany Democrat.

Unfortunately, this having taken place last night, it can only go as an extra.

That cosmopolitan institution kept by Portland for the amelioration of the acerbities incident to single blessedness among the proletariat, and known commonly as white chapel, is a disgrace to decency and civilization; but Portland points to it with pride as the mid-way pleasure, the blue ribbon exhibit, in the grand carnival of Cyprian salaciousness.

Wanted. We would like to ask through the columns of your paper, if there is any person who has used Green's August Flower for the cure of indigestion, Dyspepsia and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual constiveness, nervous dyspepsia, headache, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you, and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25-cent size has just been introduced this year. Regular size 75 cent. Dr. Stone's drug stores. G. G. GREEN, Woodbury, N. J.

"You say you favor divorce?" "Well," answered the theatrical manager, "I don't exactly say I favor it, but if there was no such thing as divorce, what would we do for heroines in society dramas or for actresses to play the parts?"—Washington Star.

Mother "My mother was troubled with consumption for many years. At last she was given up to die. Then she tried Ayer's Cherry Pectoral, and was speedily cured."—D. P. Jolly, Avoca, N. Y.

SECOND HAND SHOW

Oregon Don't Want St. Louis Second Hand Exhibits

Must Show Eastern People Oregon, and That Means That Part Outside of Portland

Editor Journal: The wild and woolly West is beginning to take on Eastern airs. We are becoming more civilized, so the Easterners say. To examine into this new state of affairs and label it civilization is to result in a pertinent query from the Westerner to the great Easterner as to what they call civilization in the East? Is Western products have lived long and healthy and never knew what a coin less than a quarter was until the Easterners began flocking to our green pastures and rippling waters. We enjoyed our kind of civilization. However, our poker tables have probably won back all and more than we have been euchered out of in the way of business prestige. Finding they couldn't bring the West, East, the East has almost unanimously decided to come West. With this advent we find we are growing a new state of civilization. In past days we never had anything more than an occasional overland circus, a local dogfight, or a necktie party, but things are different now. We have street fairs, carnivals, World's fairs, state fairs, county fairs, city fairs, and street car fairs, and church fairs. These in the main cost 10 cents to get inside. Naturally these newly added ideas of civilization and fashion plated events, have raised the temperature perceptibly. Many farmers, who never come to town, have been making inquiry lately as to why the summers seem to be getting hotter with each year. Of course, they do not realize the rapid strides we have been making in the way of civilization. It is estimated that the recent carnival held in Salem, including the streets of Cairo, raised the temperature in the valley about 2 degrees, Fah. When the big \$500,000 fair comes off in Portland in a few years hence, it is proposed as a precautionary measure solely, to cover over the Willamette river which trickles through that berg, with an asbestos awning so that Astoria vessels can find their way into the intramural lakes, oceans and seas at the exposition. It is understood that it is the intention of the Oregonian to build some wharves along the exposition ocean, to prove by actual demonstration that Portland ships more wheat out of Portland than Seattle ships out of Tacoma. Copies of the paper may be had at the wharf giving exact figures. This matter, of course, is more vital to the farmer than the price he gets for his wheat. But, this is not quite to the original subject. The Board of Commissioners is making every effort to protect the surrounding country for when the streets of Cairo, the Buttery boulevard, and the living works of art jar loose, all at once, there is liable to be "something doing." All these things put together can readily answer why the summers are getting hotter and the winters longer. It is simply another phase of what is called improved civilization. We must follow suit. Fairs have been held all over the East, and when the people seek to escape them by rushing out into the wild mountainous West, let us, by all means, seek them with another. Instead of spending a half million dollars showing them one town in Oregon, why not buy a half million dollars worth of railroad fares and show them OREGON. The railroad company might object to this reckless expenditure of money but would the farmer, the real estate dealer, the business man, the fruit raiser, the common people, Oregon pays for the show, Oregon ought to get pass to see exhibits from the West will be sadly disappointed if our Oregon managers don't quit buying the cast off exhibits from the Eastern fairs. Our fair should not have one single exhibit from the East. People want to see the West. Show them the West. The maiden said, "Love me, love my dog." Portland says, "Love Oregon, love my fair." WILDAN WOOLIE, Salem, July 14.

Here is Ball News

The Eugene Guard of Friday says of the ball games: "No McCormick will umpire these games in Eugene. He is too vacillating for the Eugene blood, and is liable to do most anything. An umpire from Portland has been engaged by President Turner. He is said to be strict, but impartial, and a stickler for rules. The umpiring will no doubt be of the proper kind.

The games are to be called at 3:30, on account of visitors from both ends of the state and county coming in on the afternoon trains. The result up to press time, and probably the total, will be read in the Guard. Bulletins will be posted, however, at the Postal telegraph office, Robert's cigar store and the Guard office.

It is rumored on good foundation that the Salem team has secured Geo. Engle, a released Portland "Brown's" pitcher, for the remainder of the season to strengthen their team in the pitcher's box. Engle is a fair pitcher, but the Eugene team is not afraid of him. He was dropped on account of inefficiency.

A watch will often get out of order from a job—so does man.

Proceedings of Leaguers

Detroit, July 18.—The proceedings of the Epworth League international conference are nearing a close, but no abatement of interest is apparent on that account. The morning watch service in the Central M. E. church at 6:30 o'clock this morning were conducted by Thomas S. Marshall of Salem, Ill., and were well attended. At 9 o'clock a. m. the gathering divided into three great conferences, composed respectively of the delegates and visitors representing the Methodist Episcopal church, the M. E. church South, and the Methodist Episcopal church of Canada. Bishop Isaac W. Joyce presided over the conference of the M. E. church held in Auditorium Epworth. Rev. A. N. Swickard of Aberdeen, S. D., discoursed on "The Literary Work of the Chapter." Bishop E. E. Husk was the presiding officer at the conference of the M. E. church South, and among the speakers were Rev. T. F. Sessions, Seguin, Texas; Rev. E. H. Rawlins, Portsmouth Va.; Rev. J. M. Nichols, Galveston, Texas, and Rev. E. O. Watson, Charleston, S. C. Rev. John McDougall, D. D. of Calgary, N. W. T., was one of the principal speakers at the Canadian conference, his subject being "Our Work in the Northwest." John G. Wolley of Chicago and Samuel Dickie of Michigan, both temperance leaders of national prominence, are to speak tonight and among other prominent persons to be heard are Bishop C. B. Galloway, Henry D. Lloyd, representing the American Federation of Labor; Hon. D. D. Woodmansee of Cincinnati, and Rev. P. A. Baker, D. D. of Columbus, O., representing the American anti-saloon league. Tomorrow the pulpits of the leading churches of Detroit will be occupied by distinguished divines who are among the visitors.

Has Made Rich Strike

Millburn Brown, an old pioneer of Lane county, who moved to Grants Pass a few years ago, has struck it rich during his prospecting. He informs a Eugene friend that, with his partners he has uncovered the face of a ledge 20 inches wide, and it carries free gold all the way across its face. The sample quartz is crystal white and contains the free metal in pieces as large as grains of wheat. The ore carries values at the rate of thousands of dollars to the ton. The owners of the claim are jubilant over it, and believe they have a bonanza. They have driven in a tunnel to the depth of 50 feet, which is practically all of the development work that has been done thus far. As this is but one of sever-

al rich finds that have been made in the Applegate, mining men have been led to turn their attention in that direction. There are a large number of claims over there being opened up, and all are making a fine showing.—Eugene Guard.
