

More Council Business

The city council elected a health board last night, in compliance with a provision of the new charter, passed at the last session of the legislature. The matter came up at the regular session of the council held last evening. After a considerable amount of routine business had been disposed of, Alderman Stols called up the matter of electing a health board, and announced that he had invited Dr. E. A. Pierce, of the state board of health, to appear and address the council on the subject, and no objections being heard, Recorder Judah, acting mayor, called on Dr. Pierce. That gentleman called attention to what he termed nuisances and a menace to public health in the city, and urged the council to elect a strong board of health, and give the body power to enforce its mandates. This was followed by a statement by Recorder Judah, who also urged action, and the fullest possible freedom and power to the new board. Among the aldermen there appeared a disposition to postpone action but the ballot was finally called for, and after eight gentlemen had been placed in nomination, a ballot was taken. The nominees were:

J. B. Tutbill, Theo. M. Barr, O. S. Hamilton, Dr. W. Carlton Smith, Dr. F. E. Smith, C. A. Murphy, J. A. Bernard, W. H. Holmes and D. D. Keeler.

The first ballot resulted in the election of Messrs. Hamilton, Tutbill, W. H. Holmes and Dr. F. E. Smith. On the second ballot the two plumbers each received two votes, and on the third Mr. Barr received three out of six votes cast. Alderman Polio not voting and Mr. Burroughs being absent. On motion Mr. Barr was declared to be the unanimous choice of the council, and the board, as elected, stands as follows: J. B. Tutbill, chemist; C. B. Hamilton, merchant; W. H. Holmes, attorney; Dr. F. E. Smith, physician; Theo. M. Barr, plumber.

The council met with all aldermen present, except Burroughs and Mayor Elshag. The matter of the license ordinance came up and action on proposed amendments was postponed until the first meeting in September. Chairman Cattlin, of the ways and means committee, was given further time to look into the P. A. Sotton claim for damages.

The committee on fire and water reported the old Sibley engine in good repair, at a cost of \$1194.98, and the final test before accepting was referred to the committee.

The license committee reported favorably on the application of J. P. Rogers for three saloon licenses, and they were ordered to issue.

The business men's petition to the mayor to veto the new bicycle ordinance was read and filed. Councilmen Stols and Cattlin objected to the matter being brought before the council.

Col. J. Olmsted asked for permission to erect a temporary corrugated iron building adjoining the laundry, and the request was granted.

Permission was received from the trustees of Williamsite University to build a 6-foot walk at the west side of 12th street, from State south. The street commissioner was instructed to build the required walk of cement as soon as the weather conditions are favorable.

Street Commissioner Griswold reported that the Ferry street improvements were completed, and asked for an order allowing him to draw the money deposited in the bank by the property holders, and disburse the same. The order was made as requested.

Mr. Griswold also asked permission for H. B. Gile & Co. to erect a raised platform and shed between the railroad switch and the warehouse of the firm, 80x80 feet, and the matter was referred to the committee on streets and public property, to investigate, and report at the next meeting.

The election of the board of health took up about an hour of the council's time at this point, and after this matter had been disposed of, Mr. Stols moved that the ordinance committee be instructed to draft an ordinance for the building of bicycle paths on certain streets, asserting that this had been promised the bicycle riders when the new bicycle ordinance had been passed. This was opposed by several aldermen, and the question was asked where the money for the paths was to come from, to which Mr. Stols replied: "Our warrants sell at par at the bank." The instruction to the ordinance committee was voted down, after Mr. Stols told the council that all bicycle ordinances were unconstitutional and would not stand the test of law, and for that reason discussions at this time would be made in the way of paths.

When the instruction to the ordinance committee had been disposed of, Mr. Stols moved that the same committee be instructed to draft an ordinance repealing all bicycle ordinances, but before this could meet with a second, Mr. Hubbard drew out of his pocket and introduced an ordinance repealing the newly enacted ordinance, and recommending the old bicycle laws. This was read twice and referred to the ordinance committee, after Mr. Stols vainly attempted to amend it so as to repeal all bicycle legislation.

The ordinance for an additional switch on Trade street for the S. P. was read a third time, and carried.

After the usual list of bills had been read and referred the council adjourned.

Probate Court Matters.
The will of the late Mrs. Martha Porter, who died at Astoria May 17th, last, has been filed for probate, and, on petition of John H. and Henry C. Porter, it was admitted. Deceased left an estate consisting of real property valued at \$3000, and the heirs are the children and grandchildren of W. O. Porter, deceased, a son of the late Mrs. Porter: John H. Porter, Mrs. Elizabeth Reed, H. C. Porter and Mary Vanhook, all of Astoria, and S. H. Porter, of Kout, Wash.

SUMMER COLDS Produce Chronic Catarrh.

Madame Isabella Ellen Baynes.

Madame Isabella Ellen Baynes, Life Governor Grand Lodge of Free Masons of England, in a letter from Hotel Saratoga, Chicago, Ill., says:

"This summer while traveling I contracted a most persistent and annoying cold. My head ached, my eyes all day seemed constantly running, my lungs were sore and I lost my appetite, health and good spirits. Doctors prescribed for me all manner of pills and powders, but all to no purpose."

"I advised with a druggist and he spoke so highly of a medicine called Peruna, that he induced me to try my first bottle of patent medicine. However, it proved such a help to me that I soon purchased another bottle and kept on until I was entirely well."--
Madame Isabella Ellen Baynes.

Summer colds require prompt treatment. They are always grave, and sometimes dangerous. The promptness and surety with which Peruna acts in these cases has saved many lives. A large dose of Peruna should be taken at the first appearance of a cold in summer, followed by small and repeated doses. There is no other remedy that medical science can furnish, so reliable and quick in its action as Peruna.

Address The Peruna Medicine Company, Columbus, Ohio, for a free book entitled "Summer Catarrh," which treats of the catarrhal diseases peculiar to summer.

The will was dated February 24, 1894, and provides that \$250 shall be expended in perpetuating the memory of a deceased daughter; that Wm. Porter, husband of deceased, shall have a life estate in the property, and after his death all the remainder shall be divided equally among the heirs. The husband having died before the testator, the court appointed John H. and Henry C. Porter, named in the will as executors, to act as such, and their bonds were fixed at \$5000. F. J. Van Hebra, David Eastburn, W. Gentry were appointed appraisers of the estate.

Charles A. Dusher, administrator, with the will annexed, of Michael Klein, deceased, filed his final account in the probate court this morning, and Monday, October 5th, at 1 p. m., was the date fixed for hearing the same.

SUN AND SNOW.

Sometimes Help the Hair to Go. In any changeable climate the hair is apt to become brittle and to break off stubby here and there. This makes a hair-dressing almost a necessity, especially to ladies. In using a hair-dressing, why not get the best, one that combines with it the efficiency in killing the dandruff germ, the germ that eats the hair off at the roots, causing what is called falling hair and in time baldness. Newbro's "Herpicide" is that kind of a hair-dressing. You have no idea how delightful your scalp will feel, and how stylish your hair will appear, after an application or two of Herpicide. It is certainly a wonderful innovation as a scalp antiseptic and hair-dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Daniel J. Fry, special agent, Salem.

THE FOUNDATION OF HEALTH.
Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all food into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. In digestion, Dyspepsia, and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by F. G. Hass, 98 State street.

The Chinese Dragon.
The great Chinese dragon, that is to be a part of the regatta program, left Los Angeles Saturday by steamer. It is expected to reach here about August 7th on the O. R. & N. boat. Secretary West is in receipt of some photographs of the monster. It is nearly 500 feet long, and 200 Chinamen are required to carry it. They walk underneath it, and carry it on their shoulders, their legs seeming to be the legs of the dragon. An expert Chinaman from San Francisco will be here to set it up. Its value is \$5000, and it weighs more than two tons. It will be a great card for the regatta.—Astoria News.

Swamped With Salmon

The Astoria Budget of Monday, says: There continues to be a prodigious number of salmon in the river and the present run is accepted by all who have been interested in fishing for years to be the largest that has ever been fished. Fishing last night and today has been practically suspended at the canneries and cold storage plants have only been able to take a small quantity even of what was offered. The fish have been so plentiful that there is no established price, and while it is claimed that 4 cents is the price, Lindenberger openly offers 3, but the others have also been paying that price, and fish are being hawked about the streets by fishermen as low as 25 cents each, and regardless of the size. The salting of salmon was never generally so largely engaged in, but there is now a famine of barrels and casks, but salt is plentiful, as the merchants have taken warning from their experience of last year. Tons upon tons of fish have already spoiled and been thrown into the river, but the canneries and cold storage plants are only accepting the freshest, and are keeping their floors as nearly cleaned up all the time as possible. The working crews are beginning to show the effect of the continuous strain of work, and a number of cold storage workers have been compelled to drop out because of sore hands. It is estimated that during the past three days the pack has averaged 15,000 cases a day, and cold storage plants handling several hundred tons. Up to this evening there will have been about 20 cars of fresh fish shipped to Rooster Rock, Warrendale and The Dalles to be handled in the canneries there. These fish are well iced and sent through at express speed, and, as the weather is not warm, the fish should get to these canneries in good condition.

Shield's Park Appreciated

Another big audience greeted the performers at Shields Park last night, and every one present pronounced it by far the best vaudeville bill ever presented in Salem. Baby Owen, the bright little comedian, certainly made good last night, and the crowd fairly went wild over his clever impersonations, and he had to respond to another number, which was immense. Happy Hooligan, in the person of Edward Poulter, was a side-splitter. He simply talked the people into hysterics, and when he makes his "funny fall," it's the limit. Holl & Holl are delighting the audience with their magnificent operatic selections, and is certainly a rare attraction, seldom seen on a vaudeville bill. Bartelmea, the "up-side-down man," shows great dexterity in foot juggling. His turn is entirely new to the amusement public, and those that fail to see this act are missing a big treat. Joe Thomp-

son is still making a hit with his two illustrated songs, while the poly-scope still amuses the audience.

More lights have been added to the park, and every effort is made by the management to make its patrons comfortable. Standing room should be at a premium before this week's entertainment is over, for certainly the management have overdone themselves in presenting such a strong bill.

Newspaper Rumor.
There is a rumor afloat, says The Dalles Chronicle of Saturday, to the effect that Otis Patterson, of this city, and Walter Lyon, formerly private secretary to Governor Geer, have purchased the Morning Astorian, and will take charge today.

Brush fires, supposed to have been started by campers, threaten to destroy the mining town of Bingham, 25 miles southwest of Salt Lake. The town is without fire protection.

What Shall We Have for Dessert?
This question arises in the family every day. Let us answer it to-day. Try

A \$12.00 SUIT FOR \$7.00

is not an every day opportunity, but during our summer clearance sale, we make many such offers. In the lot of suits now reduced to \$7, you'll find suits that were \$10, \$11, \$12, or \$12.50. The lot reduced to \$8.50 and the lots reduced to \$10, \$12, 14, \$16.50, etc., are each full of just such bargains.

All our Summer Suits, this season's choicest patterns, are included in this lot. Over 200 suits ought to enable one to find his size in a desirable pattern, but but when there's only one or two of a line, there's no telling how soon the other fellow who's just your size will snap up the very suit you'd like to have. Better lay aside that shabby old suit that makes your wife ashamed of you, and don a new one while they're cheap.
