

THE CRIME OF CARELESSNESS.

There are many times in life when even so slight a thing as the simplest form of carelessness is a crime against yourself, against your bodily welfare, strength and comfort. Doing nothing to counteract failing eyesight is an example of this criminal carelessness. When one's eyesight is "out of kilter" no time should be lost before getting glasses. For eye afflictions thrive upon neglect. If you have any reasons to think that your eyes would be benefited by the proper kind of glasses selected with scientific care to suit your visual requirements, we invite you to visit our admirably equipped optical department. Now here else in Salem are glasses so carefully fitted.
