They Butcher Bulgarians

Salonica, European Turkey, Aug. 22.—The correspondent of the Associated Press at Monastir sends the following dispatch under yesterday's date: When the Bulgarian bands entered Krushovo they occupied the Greek quarters, hoisting their flag over a Greek house. The Turkish troops arrived August 12. All the Komitadjis had already gone except about 400 local men. Although no shot was fired from the town, the Turks commenced a bombardment, which was continued throughout August 13. The shells destroyed 260 houses, 215 shops and all the fine, large Greek and Vlach (Wallachian) houses. The Greek churches were destroyed. The other quarters escaped.

The Turks entered the town August 14, pillaged all the houses, assaulted many of the women, stripped many persons naked and killed about 300 local Bulgarians and also some 60 innocent Greeks and Vlach.

The people the starving. The material damage amounts to several million francs.

The Turks on August 19 massacred 200 Bulgarians who surrendered at a village near Monastir.

Zionists at Baise

Basle, Aug. 22.—Representative Jews of the United States, Great Britain, Germany, France, Austria and other countries have gathered here for the sixth Zionist congress, which is to begin its session tomorrow. The congress this year promises to be the most important ever held in view of the late Kishineff outrages and the political situation in Eastern Europe. There seems excellent reason for believing that the Zionist leaders are preparing to take full advantage of the situation developed through the Macedonian uprising.

One of the principal discussions of the congress will be the colonization of a province of Wadi-Ausch in Palestine. It is a protectorate of Great Britain, where it is proposed to settle 100,000 Jews. Negotiations have already been opened with the British government.

Missionary Meeting

Atlanta, Ga., Aug. 22.—The fifth annual Southern convention of the Christian and Missionary Alliance began today at the Piedmont Park auditorium and will continue for a period of eight days. Nearly every Southern state is represented at the gathering and the speakers will include a number of eminent divines. Besides the sermons and addresses the program is to include musical features of a high class.

Pooled Their Grain.

The farmers at Rock Point school house have again pooled their grain and invited bids for the pool, to be opened at Rock Point next Thursday evening. In the pool are 15,000 bushels of wheat and 70,000 bushels of oats and the parties to the pool expect to secure good prices, better than can be secured in the open market.

DOINGS IN THE CITY

Newsy Letter From World's Business Center

Yacht Races Draw Crowds—Mayor Low Considering Nomination and Doings of People Generally

New York, Aug. 22.—Naturally popular interest this week has been absorbed in the yacht races. It would be unpatriotic to say that the contesting boats are not responsible for the multitudes that have sailed to Sandy Hook every day since Thursday on every available excursion craft, yet it is true that many spectators have gone down the bay as much to see the sights as to witness the races between Relliance and Shamrock III. The titled visitors from Europe and society people from various parts of the United States have attracted unusual attention. The gowns of the women in the various parties are marvelous and it is doubtful if any other contest has been marked with such all-round splendor and extravagance.

After the races fashionable New York will turn its attention to the big display of dresses to be exhibited at Madison Square Garden from September 1 to 14. For the first time in the history of this country an exhibit of the creations of Worth, Felix, Paquin and Mayer, the world-famed Parisian arbiters of feminine taste and fashions will be witnessed and many who have come to Gotham for the races will attend the Fashion Show.

An attempt is being made to resurrect the Greater New York Democracy by a threat that it may go over to Tammany unless an independent Democrat be nominated by the fusionists for mayor. In order to win this year the Fusionists will need every vote they can muster but so insignificant a factor has the Greater New York Democracy become that its possible defection is not looked upon with alarm by the fusion managers. In fact the organization has never appealed very strongly to independent Democrats and its leadership is almost as suspicious as that of the Wigwam.

Further evidence that Coney Island is undergoing a transformation is furnished by the introduction in one of the new pleasure resorts there of the baby incubator that attracted so much attention at the Buffalo exposition. There is a decided element of incongruity in the placing of such a "show" amid the hurly-burly attractions of Coney Island, but it indicates clearly that wealthy amusement companies intend, if possible, to make the famous resort a new, better and more refined place.

The laying of asphalt pavement in Brooklyn is now in progress in no fewer than 67 streets, not counting repair work, and as millions are to be spent on paving work the City of Churches will soon emerge from the undesirable class of "the worst paved city in the country." Since January 1, there have been laid in Brooklyn 9.7 miles of completed pavement as compared with 1.4 miles laid in the corresponding half of 1902.

Mayor Low has promised to let the Fusion leaders know by August 31 whether he will accept a renomination. The rumor is current, though, of course, cannot be verified, that Mr. Roosevelt, who is greatly interested in the New York City campaign is not impressed with the political skill of the fusion managers and is said to have suggested to Republican leaders that they cultivate the Independent Democrats more and devote more energy to creating dissension in Tammany. If Mr. Low does not consent to a renomination, he will doubtless go abroad to one of the important diplomatic posts.

There is little doubt that the strict regulations relative to preaching in the streets will be relaxed and street exhorters will have as much liberty as musicians, peddlers, push cart men and others who have use of the city's thoroughfares. The prominent ministers signing the petition to the aldermen asking that missionaries and lay workers be allowed to preach point

Weak Hearts

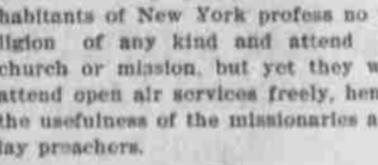

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Kodol

Digests What You Eat
Mrs. Loring Nichols of Fern Yan, N. Y., writes: After eating my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After taking a few bottles I am cured.

Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammelled action.

Bottles only \$1.00 Size holding 2 1/2 times the trial size, which sells for 50c

out that a large proportion of the inhabitants of New York profess no religion of any kind and attend no church or mission, but yet they will attend open air services freely, hence the usefulness of the missionaries and lay preachers.

The first consignment of the 500 passenger cars ordered from a Springfield, Mass., company for the subway have arrived. At first glance the cars seem to be a little different from those in use on the elevated lines, but a closer inspection shows many points of difference. They are more ornamental, a little larger, less liable to catch fire and more convenient both for travelers and operators. The seating capacity and arrangements of seats is the same, the cars being divided practically into two sections.

The commission, which the attending engineers and draughtsmen appointed early in the year to investigate New York City's possible sources of water supply, is having a pleasurable time of it up in the mountains and along the picturesque Hudson, while others are sweltering in the city, and it is not surprising that it shows little inclination to finish its work speedily. When the commission began its work it was stated that the results of its investigation would be known by June 1. Since that time it has been stated almost periodically that the report would be forthcoming in a couple of weeks; now it can be stated that the report will not be made before September 1 and perhaps not before October 1.

Women are usually considered to be the incorrigible gossips (Mr. Editor will please see that the women readers of the Journal do not observe this paragraph), but Wall street has suffered considerably lately from this nuisance—in men it is a nuisance. Indeed, it is said that some of the recent failures, large and small were largely due to rumor mongers who are busier now than has ever been known before. The report that a house was in financial difficulties is no sooner started than it is all over the financial district. Customers, brokers and creditors generally become alarmed and the effect is something like a run on a bank. The gossips have not hesitated to attack some of the best known and strongest houses in the street and many institutions whose resources are unquestionably strong enough to withstand almost any strain have been compelled to fortify themselves heavily to avoid injury from the rumor purveying.

The system with which affairs are conducted in New York City does not extend through the state in many instances. This is borne out by statement of a prominent society woman who ran out to a country place somewhat obscure for a week of solid rest and quiet. "Things are a little mixed up there," says she. "We buy our bread from a dressmaker, order coal from a jeweler, have our washing done by the grocer's wife in the post-office building and hire the minister's horse. It is not so embarrassing as one would think, for the 'natives' naturally look on the summer visitor as legitimate prey."

Already the sports have begun to return from Saratoga where they have been attending the races which are interesting only during the month of August. Next month they will begin in New York again and there will be the usual fights between the police-

men and the poolroom-keepers. Many of these dens of vice still run openly in New York, but it is difficult to get the evidence against them that is required by law and the men who run them take advantage of every loophole to keep their places going.

Scalded to Death

Chehalis, Wash., Aug. 22.—A frightful wreck occurred on Yeoman's logging road, at Pe Ell, a small lumbering town about 20 miles west of Chehalis, on the South Bend branch of the Northern Pacific.

A trainload of logs was being brought to the mill. On a heavy grade the locomotive was unable to hold the heavy load, and got away. At a sharp curve a rail turned and the engine and tender left the track. The loaded logging cars crowded on behind and the locomotive was overturned.

Four men, John Hamaker, M. F. Hedrick, Mr. Coburn and Mr. Ellis, were on the engine at the time. Coburn was killed instantly. Hamaker lived for about three hours, and Hedrick died shortly after noon. Ellis escaped serious injury.

The men were literally cooked by escaping steam. Pinned under the machinery, they were scalded and crushed to death.

The dead men all leave families. Hamaker has a wife, brother and other relatives at Pe Ell. Hedrick leaves a wife, four children, and relatives, at Napavine. Coburn leaves a wife and other relatives at Pe Ell.

The Trans-Mississippi fake has concluded its labors and the ubiquitous Barrett is still full of hot air. He ought to work it off on our southern neighbors, in bad Spanish.

SURE CURE FOR PILES.

Itching Piles produce moisture and cause itching, this form, as well as Blind, Bleeding or Protruding Piles are cured by Dr. Bo-san-ko's Pile Remedy, stops itching and bleeding. Absorbs tumors. 50c a jar at druggists, or sent by mail. Treatise Free. Write me about your case. Dr. Bosanko, Philadelphia, Pa. For sale at Dr. Stone's drug stores.

Here's Something Worth Your Attention.

BRANSON & RAGAN.

Use Trib for tobacco.

Do Not Forget. That on next Sunday, July 19th, and every Sunday thereafter until the close of the summer season, that the Corvallis & Eastern railroad will give one of their popular Sunday excursions to Newport and return, leaving Albany at 7 a. m., Corvallis at 7:30 and Philomath at 7:45.

Fare for the round trip from these points \$1.50, points west the usual Sunday rates. Three-day or season tickets good to return Sunday night, if desired. EDWIN STONE, Manager.

Use Trib for Liquor habit.

Pearson's Weekly publishes a list of "don'ts" prescribed by the London Times. They apply to phrases and words in common use, but which must never be used in the columns of that old back number of newspaperdom. One good "don't" for a live newspaperer to follow is, don't follow the Times' style.

Agony

Of Apprehension of Sudden Death. Twenty Years of Heart Disease.

Dr. Miles' Heart Cure Cured Me.

Dr. Miles' Heart Cure cures heart disease. It has positively no equal in that regard. The fluttering, palpitation and heart pains readily disappear before its magic influence; the shortness of breath, the frightful smothering spells vanish after a short course of treatment; the pulse beats become strong and regular, the circulation is improved so that the veins are charged with healthy, pure, life giving blood carrying strength and health to every nerve and muscle and replacing the dead tissue with solid flesh.

"For eighteen years I suffered from heart trouble. The least excitement caused severe fluttering and palpitation and at night smothering spells would frequently cause me to sit up in bed for breath. Beside the frequent physical pains I was constantly in an agony of apprehension lest it might bring about my sudden end. I began taking Dr. Miles' Heart Cure and experienced almost immediate relief from my former disagreeable symptoms. I believe that my cure is permanent because I have not had occasion to use the Heart Cure for six or seven years, which time has elapsed since I quit taking the Heart Cure. As a household remedy I keep Dr. Miles' Anti-Pain Pills in the house all the time. I consider the Dr. Miles Remedies fully as good as they are recommended to be and I trust that you may live many years for the sake of humanity."—R. T. HEWITT, Chehalis, Wash.

All druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.
