Boer Took the Parlor

Rock Pass, Ore., Aug. 29.—The

discovery of a blow-snake over four feet in length languidly enjoying himself in the parlor caused considerable excitement at the home of Mr. and Mrs. E. B. Gabbert, of this city, a few days ago. Mrs. Gabbert and her three children were in the parlor at the time and were not aware of the reptile's presence till it dragged itself out into the middle of the room, close to one of the smaller children that was playing on the floor. The mother rescued the child at once, and all made a hurried exit, leaving the snake to enjoy the parlor to his entire satisfaction until a neighbor could be called in.

The big snake was hastily dispatched, and the frightened woman and children returned to the house. The snake probably meant no harm by entering the house, and is a species that are harmless unless attacked or injured.

Snakes of all kinds have been more numerous in this section this year than for many seasons. An unusual number of rattlesnakes have been killed in the surrounding mountains.

Comet With Four Kids

Geneva, N. Y., Aug. 29.—The Brooks periodic comet has been observed in the constellation Capricornus, with slow motion westward. It was discovered at Hobart college in 1889, and was found to be moving in an orbit with a period of seven years. The comet was seen again in 1896, and now makes another visit, being found exactly in its predicted place. It is attended by four small companion comets.

On the Way to Beirut

Washington, Aug. 29.—The navy department was informed this morning that Cotton is now at Genoa, coaling, with the Brooklyn. The San Francisco is enroute to Beirut. The state department has received informal assurances from all the powers that no obstacles will be placed in the way of America regardless of its mode of action in Turkish territory. It is generally admitted the situation for aliens is grave, and it may even be necessary for Cotton to land his forces.

Delegation is Turned Down

Washington, Aug. 29.—The prolonged clash between Secretary Hitchcock, on the one side, and the Oregon delegation on the other, over the appointment of a register of the La Grande land office terminated today, with the appointment of Edward W. Davis, the man favored by the secretary, and who was refused support by the delegation. This is the only time that President Roosevelt has flatly refused to abide by a unanimous recommendation of the Oregon delegation and favored the secretary of the interior instead. It is a slap of no small moment; an act which may lead to a great deal of friction between the delegation and the administration.

Another Clash in Sight. It was said the clash is ended. This is not altogether true. There will be another, and probably an even more bitter contest over this appointment next winter, when President Roosevelt sends to the senate the name of the man he appointed today. Davis is a recess appointment. He can hold office under the commission mailed to him today, only until the close of the next regular session of the senate, unless in the meantime he is confirmed by that body, or a successor is named by the President, and is duly confirmed.

His Reputation Badly Injured

San Francisco, Aug. 29.—Gustav Postler has brought suit for \$10,000 against the Master Plumbers' association, charging that the association is conspiring to ruin his business. Later the building trades learned the facts and removed the boycott. Postler claims his business and his good name are injured \$10,000 worth.

AUSTRIAN FLAG IS FIRED ON

Turkish Troops Fire Volley at the Consulate

Clouds of Trouble are Gathering Thick and Fast for the Unhappy Sultan

Vienna, Aug. 29.—A dispatch from Uskub says a company of Turkish troops, while passing through that city, fired a volley at the Austrian consulate. No one was injured, but the incident will probably increase the diplomatic strain. The correspondence of the Macedonian leader, Saraf-off, which has been seized at Monastir, is reported to prove that he received assistance from the pan-slavist Russian committees, who supplied the insurgents with arms and dynamite, which were sent from Odessa, via Austria and Roumania.

Constantinople, Aug. 29.—The war office has authentic information that revolutionary outbreaks will occur at three points in Macedonia next week, and great precautions are being taken.

They Never Touched Him

Washington, Aug. 29.—A decidedly new turn in the case of United States Vice-Consul William C. Magelssen, at Beirut, Syria, who was reported to have been assassinated last Sunday, developed tonight, when it became known that the report was incorrect and that, although Mr. Magelssen had been shot at, he had not even been injured. This information came to the state department tonight in a dispatch from United States Minister Leishman at Constantinople, who said the mistake in making the original announcement was due to an error in the transmission of the cipher dispatch from Consul Ravengal, at Beirut, in reporting the incident to the minister.

The dispatch from Minister Leishman followed closely on the Associated Press bulletin on the same subject, which had been shown to the prominent officials of the government.

The dispatch from the minister was communicated at once to the President at Oyster Bay, but up to a late hour tonight nothing had been heard from him on the subject at the state department. From other sources, however, it was learned that the President has decided to have Admiral Cotton and his ships continue to Turkish waters.

The dispatch of Minister Leishman was extremely gratifying to the officials of the government, as it relieved the situation of its extreme tension and leaves the way open for an amicable and peaceful adjustment of the incident.

Acting Secretary Loomis declined to make public the text of Minister Leishman's dispatch tonight, but he gave a summary of its contents.

As stated in the press dispatches, it showed that Mr. Magelssen had been shot at by some person at the time unknown to the officials, but that he had not been hit. The local Turkish officials were prompt to express their regret at the occurrence, and were exerting themselves to apprehend the assassin, but thus far had been unsuccessful.

Starved in the Far North

Chicago, Aug. 29.—A dispatch to the Inter-Ocean from Minneapolis, Minn., says: Edith White, former wife of John A. White, general agent of the Deering division of the International Harvester company, died of

starvation in the Klondike country, and her body probably has been devoured by wild beasts.

Such is the information contained in a dispatch from Seattle which gives the details of the finding of the unfortunate woman's diary, containing a history of her life from the time she left her former home in Mankato, until she died of exposure and lack of food in the heart of the trackless Copper River country.

Mrs. White was a graduate of the dental school of the State university and was practicing dentistry in Dawson City two years ago. She wrote her relatives here, saying she was going into the interior and probably would not be heard from for some time. In a letter written from Central Alaska, July 29, 1903, William Shafter, a petty officer in the employ of the government signal corps tells of finding letters and a diary tending to show that Mrs. White perished from cold and hunger, while trying to make her way unaccompanied to an interior camp in the Copper River country.

Will Race Every Day

New York, Aug. 29.—The regatta committee of the New York Yacht club announced this afternoon that the Reliance and Shamrock will race Monday, and every day thereafter until the series for the cup has been concluded.

The committee has named Monday, and each following day, in view of the fact that Lipton has practically abandoned all hope of winning, and therefore felt no time should be lost in concluding the races. Secretary Carmack said today there was absolutely no truth in the statement that the crews of the Shamrock and Reliance would be transposed.

Astoria, Ore., Aug. 29.—Two Chinamen were held up and robbed of \$40 on Wednesday night at the corner of Fourth and Bond streets by a party of young men. The orchids are rare specimens and very valuable.

Boy Killed While Hunting

Astoria, Ore., Aug. 29.—Elliott Henry, the 12-year-old son of C. K. Henry, the Pillar Rock seiner, was accidentally shot and killed Thursday afternoon while hunting on Woody Island. At the time he was wading through a tide marsh and pushing a small skiff in which he had placed his gun, ahead of him. His companion, who was pushing another boat nearby heard the report of a gun and upon investigation found the boy lying dead with a gunshot wound in his stomach.

The gun was still in the boat, but both barrels were empty. It is supposed the young man attempted to pull the gun out when it was discharged. The young man's funeral will be held from the family residence tomorrow with the interment in Elliott cemetery.

Teamsters Will Win

Seattle, Aug. 29.—Over 750 teamsters are now out. Fifteen small firms have signed an agreement with the big ones and asked for arbitration, but the strikers turned them down, and insist on their original demands. The transfer companies have asked for police protection, but as the strikers have resorted to no violence their demands were refused. It looks as if the men would win everything they have asked.
