The Weather.
Tonight, showers and cooler; Sunday, fair and warmer.

WATER AND SANITATION.

There is a great deal of talk at present about the Salem water supply. There is every summer.

The Journal has always believed that the owners of the Salem water plant were doing their best to give the city a good quality of water.

Under private ownership there is probably no improvement to be had on the present system of pumping water out of the river.

But the time has come to consider this whole matter from the standpoint of the future growth of the city.

An adequate water supply for the state capital is a matter of public importance to the whole state.

A proper sewer system and proper sanitation cannot be provided for the capital without taking into consideration the greater city.

Those opposing extension of the boundaries to include all the suburbs should be able to tell how the city can be drained and properly sewerage so as to be kept reasonably clean without extension.

The only logical line of action for this city to pursue is to consider water supply and sewerage from the standpoint of Greater Salem.

The only intelligent and rational line of policy in the treatment of this problem is to plan for a water system and a sewer system that will include the suburbs.

The city should own and operate its water works just as certainly as it should own and operate its sewer system, and it can't be about it too quickly.

We know it will shock conservative citizens to tell them this city should take in all its suburbs, build a sewer system for the whole city and buy or build a system of water works.

But it is in the line of intelligence and justice, and The Journal believes all the people when they fully understand the situation will be satisfied with nothing less.

The proper drainage and sewerage and cleanliness and sanitation of this city are of supreme importance to the people of the whole state and they have an interest in demanding a display of progressive spirit if the state capital is to remain here with all the state institutions.

DELEGATION IS HARMONIOUS.
The Portland Journal is trying to establish the proposition that the refusal of the President to appoint Knowles to the LaGrande land office is a slap at the Oregon delegation.

The Oregon delegation is harmonious and united in recommending Knowles and so far as known there is no substantial reason why he should not be appointed, and confirmed for that position.

The theory that the Secretary of the Interior has refused to allow Knowles to be appointed, and that is one of his ways of giving Congressman Hermann a slap, is not worth entertaining.

There were substantial differences of opinion between Secretary Hitchcock and Hermann as Commissioner of the General Land office, and these differences are vital to the people of Oregon.

But it is inconceivable that those differences as to the policy of dealing with the forest reserves, the leasing of public lands and entries, shall be thrashed out over every appointment.

fractional differences in the Oregon delegation, or getting the delegation at loggerheads with the administration if possible.

But the Oregon delegation is working intelligently and harmoniously in recommending good Republicans and the Knowles incident will not be allowed to embroil the Republicans of Oregon with the Roosevelt administration. Oregon has all to lose and nothing to gain by such a policy, but the administration and the party have also much to sacrifice.

ZIONISM WITH ZION LEFT OUT.
The Zionist movement was organized to restore Palestine to the Jews. It was believed by the projectors that the race which had done so much for civilization in all progressive nations could establish a Jewish state in Palestine and restore the ancient glory of the country.

It was hoped that wealthy Jews who had financed the affairs of great nations would form some plan by which the control of Palestine might pass from the Turks to Jewish colonists. It was contended that Jews who had great influence at European capitals could bring such pressure to bear on the sultan as would lead him to favor the emigration of Jews to Palestine.

When the Zionist movement was organized there were 7,000,000 Jews in the world and only 12,000 in Palestine. Of the 1,000,000 people in Palestine nine-tenths were Mohammedans and one-tenth Jews and Christians, the Christians outnumbering the Jews as seven to one. In five years of work the Zionists have accomplished much in the way of promoting unity of feeling among Jews, but no progress has been made in securing from the Sultan a charter for the colonization of Palestine.

At the meeting of the Zionist congress last year it was reported that the Sultan personally had taken such interest in the Zionist movement that the way might be opened for negotiations. This year it is admitted that the Sultan's refusal to grant a charter to Zionists makes it impossible to establish a Jewish state in Syria. At this juncture comes a formal offer from Great Britain to establish an autonomous Jewish state in South Africa.

ASSET CURRENCY.
Eugene Guard—Dem.)
There is no difference in theory between the proposed asset currency now being advocated by the Republican party and the Populist scheme of public warehouses leasing advances on grain. In fact the latter is the more creditable undertaking, as it would be of benefit to the producers, while the asset currency scheme is but a device to aid and abet the stock gambler.

The financial situation must indeed be desperate when such expedients as loaning the people's money to corporations are suggested rather than relieving the people of taxation which has produced the accumulation of the surplus and which accumulation has largely caused the present congestion in the money market.

Desperation exists only among the speculators and promoters. So far as the other people are concerned there is nothing the matter with them which cannot be relieved by the removal of unnecessary taxation.

OREGON IRRIGATION FUNDS.

(Medford Mail.)
Old Oregon sold more government land last year than any other Western state. Over two million dollars were received from all sources from government land. Of this amount, all, except five per cent, which goes into the school fund, will be expended in reclaiming the desert lands of the state. Several irrigation systems are now proposed, and it will not be many years before the deserts of Eastern Oregon will be watered and made habitable and productive for the thousands of settlers who will acquire title to the land under the desert act. The fact that Oregon has now contributed between \$2,500,000 and \$3,000,000 to the reclamation fund will no doubt serve as an incentive to the Interior department to hasten its examination of proposed irrigation projects east of the Cascade mountains, in order that the state may soon receive some practical benefit from its otherwise active land business. Certainly no state is entitled to more recognition than Oregon. Once the government completes an irrigation system in the state, the lands opened up thereby will contribute to the reclamation fund direct, as the law provides that the settlers shall repay to the government in ten annual installments the actual cost of the construction of storage reservoirs and canals built by government aid. This contri-

SICK HEADACHE

Indigestion, Dyspepsia, Constipation, Biliousness, Heartburn or Nausea can be quickly cured if you will only take Hostetter's Stomach Bitters at the first symptom. There can be no disappointment because it contains only those ingredients as will strengthen the stomach and cure these ailments. We urge you to try it the next time your stomach gets out of order. The genuine must have our Private Stamp on neck of bottle.

HOSTETTER'S STOMACH BITTERS

but, however, will be in addition to funds turned into the Federal Treasury each year from regular entries and sales.

Tom Johnson has been nominated by the Democrats for the office of governor of Ohio. When will the Democratic party quit running after freaks?

There's a vigorous kick among the Republican members of congress against Roosevelt's proposed extra session of congress. Possibly they look with suspicion upon extra sessions of legislative bodies.

The government has added 6000 square miles of land to the forest reserves of Northwestern Alaska. Next some big corporation will get a right of way through it and then they will turn that into lieu land scrip and go to taking up land elsewhere—or in Oregon.

It is represented that 68,340 children were crowded out of the public schools of New York last year because there were no accommodations for them. This year the number has increased to 78,000. And yet New York claims to be the richest and most progressive city in the country.

A BALD NEWSPAPER MAN.

Getting a New Crop of Hair, and Has No More Dandruff.

Everybody in the Northwest knows Col. Daniel Searles, the veteran journalist and publicist of Butte. Jan. 10, 1900, the Colonel writes: "I have used a couple of bottles of Newbro's Herpicide with marvelous results. The dandruff disappeared; a new crop of hair has taken root, and the bald spot is rapidly being covered." Herpicide is the only hair preparation that kills the dandruff germ that digs up the scalp in scales as it burrows its way to the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out. Kill the dandruff germ, with Herpicide. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Daniel J. Fry, Special Agent, Salem.

Use Trib for Liquor habit.

JOURNAL X-RAYS.

Don't name your baby girl Lou Dillon unless she is to be fast.

As Croesus is no longer champion fast horse, we don't want him at our state fair.

A face illuminated by real good will toward others is one of the finest complexion improvements.

A New Jersey man has his heart on the wrong side. If he lives near Paterson he is lucky to have any heart at all!

Some genial philanthropist has offered \$2000 for the best essay on goodness. The graduation essay has found a market at last!

Sir Thomas Lipton has dumped \$2,000,000 worth of tea in New York harbor; which breaks the record heretofore held by Boston.

As many Salem physicians are expressing opinions about Salem water, why do they not come together and give an official opinion?

Boston held the tea dumping record for more than 125 years, which is more than twice as long as New York has held the cup. Sir Thomas ought to be satisfied.

Idaho has produced a record breaking crop of wheat, and now it doesn't make two cents difference whether it is called Idaho, or given the unregenerate Joaquin Miller twist I-dah-ho.

A Paris man who was three times given up to die by the doctors has just celebrated his one hundredth anniversary, and expects to give the medical profession several more guesses.

Cottage Grove Leader: Brownsville is seeking to strip Cottage Grove of all its honors. The Times is laying claim to the "last of the Calapooias," in the person of an aged Indian woman residing in that town and familiarly known as "Old Eliza." Enoch, our candidate for the distinction, when interrogated regarding his knowledge of the old woman, exclaimed: "Nika waka cuntau, ole klutchman."

PEOPLE OF THE DAY

Chamberlain to Visit Us.
It is reported that British Colonial Secretary Joseph Chamberlain intends visiting the United States in the autumn. He will be accompanied by Mrs. Chamberlain, and they will spend some time at Danvers, Mass., visiting

JOSEPH CHAMBERLAIN.

Mrs. Chamberlain's mother. The fact that Mr. Chamberlain is quoted as saying that he desires to have the visit regarded purely as a domestic one seems to give confirmation to the report that it has been planned at the desire of his American wife to again tread her native heath and incidentally to afford both the opportunity to witness Sir Thomas Lipton's third attempt to lift the famous America's cup.

Facts About the Congressmen.

The Congressional Directory prepared for the recent special session of the senate shows that the law is the prevailing profession of the members of the upper house of congress. For the first time in several years all of the states in the Union are represented in the senate, and three-fourths of the members are lawyers. Out of the balance one is a civil engineer, two are doctors, three are newspaper men and the others are bankers, miners, business men and politicians. The average age is found to be fifty-six, with Senator Pettus of Alabama the oldest, eighty-two, and Bailey of Texas the youngest, forty. Senator Pettus is a survivor of the Mexican war, while twenty-five members fought in the civil war. Of college graduates there are fifty-five, and seven of the members are foreign born. Kearns of Utah, Millard of Nebraska and Gallinger of New Hampshire were born in Canada, and Nelson of Minnesota was born in Norway. Senator Patterson of Colorado is Irish. Wetmore of Rhode Island was born in England of American parents, residing there at the time. Twenty-eight senators were born within the borders of the states they represent.

They Pick Up Our Slang.

When Prince Henry of Prussia visited the United States about a year ago, people were surprised to see how quickly he picked up American idioms. To those associated with him it was no uncommon thing to hear such phrases as "Made him feel like 30 cents," "Out of sight" and "Go way back and sit down," together with current slang of twelve months ago, come trippingly from the royal lips. Therefore no one in Washington is surprised to learn that in speaking of a statement he deemed particularly direct and appropriate Baron von Sternberg frequently says, "It's bully—right off the bat."

Dr. Bigelow's Promotion.

The secretary of agriculture has promoted Dr. W. D. Bigelow to be assistant chief of the bureau of chemistry, vice Dr. E. E. Ewell, resigned. Dr. Bigelow has been in charge of the food laboratory for some time past and at present is Dr. Wiley's chief assistant in the food tests that are being made under the direction of Secretary Wilson.

Chicago's Most Beautiful Women.

In Beatrice Cameron's "Book of American Beauty" Mrs. H. C. Chatfield-Taylor and Mrs. Walter Farwell are pronounced the two most beautiful women in Chicago. A Chicago paper makes haste to explain that "it is not meant that these two beauties are really nonpareil among the women of Chicago, but rather that they are types

MRS. H. C. CHATFIELD-TAYLOR.
of the loveliest of Chicago women. Numerous points were taken into consideration in this judgment, and it is understood that color, carriage, outline and other elements of feminine perfection were all included when the selections were made."
It is an odd coincidence that Mrs. Farwell and Mrs. Chatfield-Taylor are sisters-in-law.

900 DROPS
CASTORIA
A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of
INFANTS & CHILDREN
Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Meicral. NOT NARCOTIC.
