DR. J. F. COOK

Has come to the conclusion that all profession of the healing art outside of the vegetable kingdom is a failure. When your system is run out without pure blood. You will only find vitality in the vegetable kingdom. Poisonous drugs nor doctors' knives nor thunder and lightning will not remove the cause, but lay the foundation for all kinds of disease. Those poisons go into your bones, and kill the life of them as create all kinds of diseases, cancerous tumors, consumption, dropsy, loss of vision, etc. You must bear in mind that his medicine is not a poisonous tonic, nor a stimulant, nor temporary relief which you get from poisonous drugs, where the results are sure death sooner or later. Do not blame the medicine, when it takes an effect and stirs up the poisons of disease in the system. You must not expect to be cured in a few days, for your sickness or disease has been a long time coming on, and it will take a long time to get it out of your system. It will take months or a year to build a new body from the bones up. This is what the people do not understand. They are used to being humbugged. His medicines are composed of Nature's Herbs—what the human system requires. When the animals get sick they will help themselves to those herbs, for they have the instinct, and the people have not, so we have to make a study of it. It has been a life study with Dr. Cook. Do not get weary; this life is too short and too sweet to worry out of this world.

Dr. Cook Cures All Kinds of Diseases 301 Liberty Street, Salem, Oregon.

E. C. CROSS, Phone 291, Salem, Oregon

A stove that is always ready! A stove that makes no smoke, smell or ashes! A safe stove! An economical stove! A clean stove! A stove that requires no skill to operate it! A stove which has revolutionized "cooking," and has transformed the drudgery of the kitchen work into a pleasant pastime. A "Quick Meal" Stove will do any and all work that can be done on a wood or coal stove, only with the difference that the "Quick Meal" does it quicker, cheaper and in a more agreeable and reliable way.

THE NEW CRUISER LAUNCHED

Maryland Takes Water at Newport News Today

Baltimore Beautiful Women Were There, and Those of Washington and Richmond Also

Newport News Sept. 12.—There was launched from the ways at the big plant of the Newport News Shipbuilding and Drydock company today the latest addition to Uncle Sam's new navy—the 15000 ton armored cruiser Maryland. The launching was in some respects the most notable in the history of the city; it was moreover, one of the most beautiful and imposing. There was something indescribably majestic in the sight of this tremendous bulk of gracefully assembled steel descending with rapidly increasing speed down the long greased ways to the bright river, in which so many ships have been christened. There was something curiously inspiring in the scene—the mountain of moulded metal rushing riverward, heading down the ways, the fluttering of thousands of handkerchiefs and the cheers from thousands of throats, the music, the ceremony.

The available space about the ways was packed with enthusiastic humanity. The school children were present in thousands. Work was suspended in the yard, and thousands of brawny workmen mingled in the great crowd. From the city came everyone who could spare the time. All the fashion and life of the city was there.

From Baltimore, Annapolis and other points in Maryland came big crowds by special and regular trains. Washington sent a large contingent. Richmond was represented and many hundreds of other persons came from intermediate points. On the launching stands were parties of distinguished visitors including Governor Smith and party of Maryland and numerous naval officers and others from Washington.

When the hour for the launching arrived the block was sawn apart at the big ship's bow, and she started on her journey down the ways. It was an instant after the ship began to move that Miss Jennie Scott Waters, daughter of General Waters of Baltimore, fung the christening bottle against the vessel's shapely prow. In less time than it takes to tell it the ship was riding gracefully on the bosom of the James. As she came to anchor in midstream a renewed cheer went up from the assembled thousands while the countless tugs and other craft on the river added to the general din with deafening screeches from their whistles.

The cruiser Maryland was authorized by congress along with the West Virginia, the Colorado, the South Dakota, the Nebraska and the California. The vessels represent a long step ahead for the navy. Practically no advance was made after the Brooklyn and New York were built by the Cramps. The new ships have the invulnerability of a battleship, with the speed of a first-class cruiser, and compare favorably with the best vessels of foreign powers.

The principal dimensions of the Maryland are as follows: Length on load water line, 502 feet; extreme beam, 69 feet 6 1/2 inches; draft on normal displacement of 13,676 tons, 24 feet 1 inch; full load displacement, ammunition and stores aboard, 15,104 tons; designed indicated horsepower, 23,000; speed 22 knots; coal supply, 1850 tons; complement of officers, 47; complement of seamen marines, etc., 783.

The ship will be propelled by two sets of twin screws, vertical inverted triple expansion, direct acting engines designed for 3000 collective horsepower, having a stroke of four feet and running at 120 revolutions a minute. Each engine will be placed in a separate water tight compartment, and will have cylinders 28 1/2 inches, 63 1/2 inches and two 74 inches in diameter. team at 250 pounds pressure to the square inch will be supplied from 16 water tube boilers of the most improved marine type. The boilers will be arranged in six water-tight compartments, the total grate surface being 1600 square feet, and the total heating surface 70,944 square feet. There will be four funnels, standing fore and aft.

The main battery will consist of 4 eight-inch breech loading rifles and

The man who can hardly crawl, and has just strength to get through a day's work, has no strength left for family life. He wants to be quiet; to be alone, out of sight and sound of everybody.

What a difference between such a man and the healthy, hearty man, who romps with his children and rides his laughing baby to "Banbury Cross."

What makes the difference? Usually disease of the stomach, involving the entire digestive and nutritive system. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. When these diseases are cured the hindrance to the proper nourishment of the body is removed and strength comes back again.

"I am happy to say I am getting to feel fine," writes Mr. A. J. Vandewater, of 574 West Division Street, Chicago, Ill. "In all I have taken six bottles of 'Golden Medical Discovery' and four or five vials of the 'Little Pellets.' They have done me worlds of good. These medicines have brought the great change in me from a slow, mope of a man that could hardly crawl, tired and sick all the time, and could do no work. Now I can work, sleep, eat, and feel fine, and that tired feeling is all going away. I am very thankful that I wrote to Dr. Pierce. His 'Golden Medical Discovery' and his 'Little Pellets' have almost made a new man of me. I feel young as I did at thirty years. No other doctor for me, only Dr. Pierce."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

14 6-inch rapid fire rifles. The 8-inch guns will be mounted in pairs in two electrically controlled elliptical balanced turrets of the Hinchborn type, placed on the middle line of the ship, one forward and one aft, each having an arc of train of at least 270 degrees. On the upper deck at the corners of the superstructure there will be four 6-inch guns mounted in sponsons, one in each corner, and having either a bow or stern fire, with an arc of train of at least 145 degrees. There will also be the gundeck battery of ten 6-inch rifles, forming a broadside, five on each side, the arc of fire of each being not less than 110 degrees, or at least 55 degrees forward and 55 degrees abaft the beam, except in the case of the forward pair, which are so arranged as to be capable of direct ahead fire.

From present indications it is hoped that the cruiser will be completed and ready for commission before this time next year.

It is a hopeful sign of the times when older schools of medicine endorse osteopathy and recommend it for many cases, as they do. Dr. Schoettle, Barr & Barr, Osteopaths, Grand Opera House, Salem, Or.

Reduced Rates to the Oregon State Fair.

The Oregon State Fair will be held at the Fair Grounds September 14 to 19. The Southern Pacific Company will sell tickets to Fairground and return at one and one-third fare from all points on its Oregon lines. Special exhibits of fine cattle and horses and agricultural products have been prepared, and every effort will be put forth to make this the greatest fair in the history of Oregon. If you are interested in the development of the state (and of course you are) you cannot afford to miss the fair this year. W. E. COMAN, Gen. Pass. Agt., 9-8-3t a w Portland, Or.

Great Exposition and Carnival at Portland.

The Merchants' and Manufacturers' Exposition and Carnival will be held at Portland September 14 to 26, inclusive.

For this occasion the Southern Pacific will sell tickets to Portland and return, including coupon of admission, at rate of \$2.80 from Salem. Sale dates September 15th, 18th, 22d and 25th. Tickets sold at stations south of Fairgrounds will allow stop-overs at that point, enabling holders to visit the Oregon State Fair. The Exposition will be held on Multnomah Club grounds and adjacent streets, and in addition to exhibits by merchants and manufacturers, Jabour's Circus, with its many attractions, has been secured. A special feature will be the Grand Spectacular Ballet, "When Knighthood Was in Flower," by 60 trained dancers in gorgeous costumes, prepared for the occasion. W. E. COMAN, Gen. Pass. Agt., 9-8-3t a w
