DR. J. F. COOK

Has come to the conclusion that all profession of the healing art out side of the vegetable kingdom is a failure. When your system is run out without pure blood. You will only find vitality in the vegetable kingdom. Poisonous drugs nor doctors' knives nor thunder and lightning will not remove the cause, but lay the foundation for all kinds of disease. Those poisons go into your bones, and kill the life of them and create all kinds of diseases, cancerous tumors, consumption, dropsy, bone diseases, etc. You must bear in mind that his medicine is not a poisonous tonic, nor a stimulant, nor temporary relief which you get from poisonous drugs, where the results are sure death sooner or later. Do not blame the medicine, when it takes an effect and stirs up the poisons or disease in the system. You must not expect to be cured in a few days, for your sickness or disease has been a long time coming on, and it will take a long time to get it out of your system. It will take months or a year to build a new body from the bones up. This is what the people do not understand. They are used to being humbugged. His medicines are composed of Nature's Herbs—what the human system requires. When the animals get sick they will help themselves to those herbs, for they have the instinct, and the people have not, so we have to make a study of it. It has been a life study with Dr. Cook. Do not get weary; this life is too short and too sweet to worry out of this world.

GOOD ROADS REFORM

Fair Grounds Road is Being Cleaned of Rocks and Rubbish

County Judge Scott has put a man on the fair grounds road to have all the loose rocks and rubbish removed from that important thoroughfare, between the city limits and the Southern Pacific crossing. It will make it a much smoother driving street, and will be appreciated by thousands who attend the state fair by vehicle.

The condition of South Commercial street, from the Southern Pacific tracks to the old city limits, south, is worthy of observation. The viaduct across the creek is unfit for travel on one side, having pieces of three-inch plank nailed over the holes. The railings of the bridge are made hideous with signs, and a red poster of a departed circus, at the south end, frightens many nervous horses. Old plank and poles are piled at both ends of it, brush is growing up in the street, and the freight trains sometimes stand for 10 minutes across the street. Two great piles of sawed wood obstruct the street, so that teams can hardly pass. The street commissioner could put in a day or two to great advantage, and to the lasting improvement of the appearance of that part of the city, and the people would arise and call him blessed.

About one day's work with a garden rake would clear State street from the river to the pen of loose stones and pieces of slabs and other rubbish, that has no place on the main thoroughfare of a Capital City. The city could well afford to pay for such work, as it would be saved ten times over in the wear and tear on the street, to say nothing of the improvement of the tempers of the people who drive on that street.

Mexican War Veterans

Indianapolis, Sept. 16.—What will, in all probability be the last of the national conventions of the Mexican war veterans began in Indianapolis today. There are less than 4000 of the veterans left out of a total of 112,000, and they are dying at the rate of more than 1000 a year. Among the prominent survivors are General James Longstreet of Georgia, General Simon Bolivar Buckner of Kentucky, Col. W. F. Cloud of Missouri, Major S. P. Tufts of Illinois, and General Lew Wallace of Indiana. Several score of the veterans were assembled in the state capitol this afternoon when the gathering was called to order by N. T. Ogden of Cincinnati, president of the national association. Letters of good will were read from President Roosevelt and from the governors of several states. The session will continue through tomorrow. The association has no business to transact except the election of officers and the convention is entirely in the nature of a reunion.

Storm Losses Grow. Jacksonville, Fla., Sept. 16.—Further news of the storm continues to arrive, though a large part of the storm-swept area has not been heard from. Wires are still down, and it is impossible to get trains through on account of washouts. Three negroes were killed by falling timbers at the camp of the Cumner Lumber Company, near Gainesville. Another was probably fatally hurt. Several houses were wrecked.

At Mulberry the phosphate mines are said to be greatly damaged. They have been compelled to shut down on account of the high water. From all parts of the state great damage to the turpentine industry is reported. Wire connection was made tonight with Arcadia, in DeSoto county, about 40 miles south of Tampa. A special from there says the damage to the orange groves is very great. Orange men estimate the loss to the crop from 25 to 40 per cent. Many houses were blown down, but only one man was killed.

Snow Still Falling in Wyoming. Cheyenne, Wyo., Sept. 16.—A heavy snow storm has been in progress here since Sunday, and shows no indication of abating. A great deal of snow has fallen, but it melts almost as soon as it strikes the ground. From Laramie comes reports of a fall of 18 inches of snow during the past 24 hours. Telephone and electric wires were broken by the weight of the snow, and last night the city was in darkness. Reports from the country state that the grain crop in Albany county has been ruined.

Mrs. Sutton Identified. San Francisco, Sept. 16.—In the preliminary examination Tuesday of Martha Bowers and Zylphia Sutton, jointly charged with the murder of Martin Bowers, Adolph Peterson, the drug clerk, who, it is alleged, sold the fatal doses to Zylphia Sutton, which it is charged Martha Bowers afterward administered to her husband, identified Mrs. Sutton most positively. He refused to state whether she wore a hat or was bareheaded, or to describe any other particulars as to her appearance. He never noticed such things.

Exposure

To cold and stormy weather opens the way to an attack of bronchitis. The man on the wagon, be he farmer, milkman or truckman, needs to pay special heed to the first symptoms of weakness or disease of the organs of respiration.

The use of Dr. Pierce's Golden Medical Discovery will cure bronchitis, deep-seated coughs, bleeding of the lungs, and other conditions which if neglected or unskillfully treated, terminate fatally in consumption. There is no alcohol in the "Discovery," and it is entirely free from opium, cocaine and other narcotics.

For seven years I had been troubled with what the doctors called bronchitis," writes Mr. Arthur Mauls (general merchant), of Niles-town, Middlesex Co., Ontario. "A year ago, after I had been taken sick with a severe attack, I began taking your Golden Medical Discovery. I rapidly recovered from the attack and felt no more of it that fall. This season I began taking the 'Discovery' in August, and have so far been perfectly well. I can go out in all kinds of weather and not feel the bronchial trouble at all. Let me say to all who are suffering from such complaints to give Dr. Pierce's Golden Medical Discovery a fair trial, and I am convinced that good results will be obtained."

Dr. Pierce's Common Sense Medical Adviser, paper-bound, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only; or 31 stamps for the book in cloth binding. Address Dr. K. V. Pierce, Buffalo, N. Y.

liminary examination Tuesday of Martha Bowers and Zylphia Sutton, jointly charged with the murder of Martin Bowers, Adolph Peterson, the drug clerk, who, it is alleged, sold the fatal doses to Zylphia Sutton, which it is charged Martha Bowers afterward administered to her husband, identified Mrs. Sutton most positively. He refused to state whether she wore a hat or was bareheaded, or to describe any other particulars as to her appearance. He never noticed such things.

When it came to fixing the date of Mrs. Sutton purchase, and when the attorneys about him argued, hotly as to the difference of fixing a date and remembering it, the young man was confused to such an extent that the judge's services were necessary to straighten out the tangle. Finally, he said, it was surely during the month of August.

From the prescription files it appeared that the poison had been sold either on the 20th or 31st. The amount was one ounce—480 grains.
