THAT GENTLE VOICE

Percolated Into the Pericardium of the Printer

Hello Girl's Dulcet Tones Made Pl of the Dessicated Aorta of the Foreman

Love will find a way if he has to travel over a telephone wire.

This statement finds its proof in a romance which has just leaked out concerning a happy wedding held last June, in which L. D. Preston, foreman of the American Press association composing room, was the man whose heart felt the dart of Cupid fired at long distance.

A few weeks before Christmas employees of the company noted that a new "hello girl" answered the calls at the General Union Telephone company. Foreman Preston, who had the reputation of being a confirmed bachelor, also noted the new voice.

In a few days Mr. Preston answered all phone calls personally. There was something about the voice that attracted him, and he yearned to know more of the girl at the other end of the line.

Love makes its victims oblivious to everything else except the principals, and on that account it was only a short time until an arrangement for a meeting was made over the wire.

The girl was Martha Kelley, long distance operator. When Mr. Preston met her the impression he had gained over the telephone strengthened, and his fate was inevitable.

In a few short weeks the engagement was announced, and when June, the month of weddings, came around the acquaintance had ripened into love and the two were made one.

Although the employees of the American Press association composing room knew that their foreman had shown a liking for the unknown "hello girl," the circumstances connected with their romantic lovemaking and happy wedding did not leak out until recently. It was too good to keep.—Indianapolis Journal.

Factories Move South

Boston, Mass., Sept. 28.—It is reported on good authority that several of the cotton manufacturing companies of New England are planning to establish plants in the South for the manufacture of cotton goods. Some of the companies will transfer part of the business that is being done now in their New England factories, others will increase their business by building additional plants in the Southern States. The coarser grades of cotton goods can be manufactured in the South at greatly reduced cost, as compared with that in New England, which is the chief cause given for manufacturing this class of goods in the South.

Insurance Meeting

Baltimore, Md., Sept. 28.—Arrivals for the annual meeting of the insurance commissioners of the country today indicate that there will be a large attendance at the convention. The first meeting will be held tomorrow, when the visitors will be formally welcomed. The program of papers and discussions is a long one, and will occupy the four days' session.

Colorado Women Clubs

Colorado Springs, Colo., Sept. 28.—All preparations have been completed to entertain in comfortable style the Colorado Federation of Women's Clubs, which will meet in annual convention here tomorrow, under conditions perhaps more favorable for a successful meeting since the organization. Almost every county in the state will be represented. In addition, there will be many women famous in literary and educational circles from other states. Among the number are Mrs. Robert J. Burdette, of Los Angeles; Mrs. Dore Lyon and Miss Mary Garrett Hay, of New York; Mrs. Phil-

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. THE GENUINE VS. COUNTERFEITS.

The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market. W. S. Leadetter, of Shreveport, La., says: "After using numerous other remedies without benefit, one box of DeWitt's Witch Hazel Salve cured me. For blood poisoning, itching and protruding piles, no remedy is equal to DeWitt's Witch Hazel Salve. Sold by E. G. Haas, 96 State St."
