

Spend Your Money And Earn a Dividend

The usual way in which money can earn a dividend is by being placed in a savings bank or in some other dividend-bearing investment. But the BARR STORE has a plan whereby spenders receive a dividend—provided, of course, they spend the money here. Our new Cash Register automatically prints a rebate check showing the amount of your purchase is registered by the salesman. And this rebate check is given to you. When you have accumulated \$25 worth of them, bring them to us and they are exchanged for \$1.00 worth of goods, chosen any-where from our stock. This is equivalent to a 4 per cent dividend on every dollar you spend here—quite a little extra inducement is it not?

FACTS ABOUT TOTEM POLES

Emblem to Indicate Different Tribes and Clans

Interesting Facts About Crest Distinctions Among Al- aska and British Col- umbia Indians

Prof. W. H. Gilstrap, secretary and curator of the Ferry Museum, at Tacoma, writes entertainingly, in a Tacoma paper, about "Totem Poles and Their Significance." He says:

From the earliest times men have used emblems to indicate their tribes or clans. The earlier Egyptians carried images of bulls and crocodiles into battle. Each of the 12 tribes of Israel had a special ensign of its own, which is now generally considered to have been totemic.

Athens chose an owl for her sign as a compliment to Minerva; Corinth a winged horse's head, in homage to Neptune; Persia, the sun, because its people worshiped fire; Rome an eagle, in deference to Jupiter.

As culture increased, clans and tribes have become nations, so that there has been an evolution by which the emblems of bands have been discontinued and replaced by the emblems of nationalities. Images of animals, badges, coats of arms, tokens, are all replaced by national emblems.

The Indian tribes of the Pacific Northwest have for symbols birds, animals, frogs and fish. These creatures are regarded as the visible representatives of powerful and mystical beings of Indian mythology, and as all of one group of these creatures are said to be of the same kindred, so all of the same class whose heraldic symbols are the same are counted as blood relatives.

Indians point back to a remote age when, in a mysterious manner, the mythical creatures whose symbols they retain, revealed themselves to the heads of the families of that day. Hence the crests have continued to mark the offspring of the original founder of each family.

One tribe has for its symbol the whale, the bear, the grouse and the sun and stars. Another has the frog, the raven, the starfish and bullhead. Another family has the keon and the grizzly bear for totems. And still another the eagle, the beaver and the halibut, etc.

It is the ambition of all leading members of each clan in the several tribes to represent their rank by carving or painting their heraldic symbols on all their belongings, and on the death of the family a totem pole was erected in front of his house by his successor, on which is carved or painted the symbolic creatures of his clan.

Persons having the same crests are forbidden to intermarry—that is, a bear cannot marry a bear, nor a raven, but a bear can marry a whale and a raven a frog.

A stranger, with or without his family, in visiting an Indian village, need not be at a loss for shelter. He at once goes to the house belonging to his crest, which he can easily distinguish by the totem pole in front of it. There he is sure of a hearty welcome, and will be received as a brother, and treated as such. Although the tribes of Alaska and the islands of British Columbia are civilized, nearly so, they still retain their crest distinctions.

These totem poles are found in the vicinity of Juneau, Skagway, Ketchikan and other points in Southeastern Alaska.

Used Bad Language

Harvey Henline, a barber of this city, was last night arrested on a warrant from Recorder Judah's court, charging him with using profane and obscene language before a girl. He was allowed to go on his own recognizance, and his trial set for 2 p. m. today, but this morning he appeared before the recorder, plead guilty and was fined \$10, which sum he promptly paid. The warrant was issued at the instance of Frederick Brauning, the Commercial street baker and the offense was said to have been committed before the 12-year-old daughter of Mr. Brauning, at the city limits, and later repeated at the Brauning bakery. The officers stated that the defendant was intoxicated when the offense was committed.

TO GET RICH QUICK

Some of the Schemes of the City Sharp- ers Exposed

When Once Hooked the Vic- tim Develops a Fund of Credulity Simply As- tounding

John R. Hill a member of the Chicago board of trade, under the heading "Gold Bricks of Speculation," writes concerning the bucket shops and get-rich-quick concerns, as follows:

One hundred million dollars annually is about the sum that this highly civilized nation is contributing to the "get-rich-quick" and safe-investment swindlers.

While I do not anticipate that the public will heed the warning, I believe an expose, such as I am in position to make, may have the effect to at least arouse the postoffice authorities and the press to a realizing sense of their duties in the premises.

The public, so far as the swindlers are concerned, includes all classes, from the laundress to the lawyer and clergyman and merchant. It dwells on the farms, ranches and plantations, and in every hamlet, village and city of this broad land. But distance is quickly bridged by Uncle Sam's fast mail, and the public's money flows incessantly into the "get-rich-quick" specialists' hands, through that artery.

The swindlers treat all alike. Of this vast sum wrung from the thrifty by false pretenses, about \$20,000,000 is spent for newspaper advertising; about an equal amount for postage, and vast sums for blackmail, attorney's fees, circulars, booklets, stenographers, clerks, telegraphing and furnishing suites of offices. The swindler is usually a reckless spender and squanders his ill-gotten gains.

These lists are interchangeable or purchasable. A possible victim, having written to one of these "fakers," will be surprised at his rise from obscurity to popularity in the course of a few months, as indicated by his increased mail and numerous offers of golden opportunities for acquiring a steady income or great wealth.

The following sent out in March, 1903, by a Philadelphian is a mild example of an announcement that a "plan never before opened to you," but which promises "a large permanent income with absolute safety," is now open to those who will allow the kind gentleman to "handle their accounts."

Special Announcement.
"As a result of my 35 years' experience as a professional trader in stocks listed upon the New York Exchange, I have evolved a plan, which, if rigidly adhered to, brings large and regular profits. It is the plan adopted by all successful traders and is the only way to make continuous and large profits."

"It is my intention to widen the scope of my business, and I will now place before you an opportunity to speculate in the stock market through a regular stock exchange house, and on a plan never before opened to you. This plan is the result of my 35 years of observation and experience as a professional trader, and if you want a large permanent income with absolute safety for your investment then write me for full details, references, etc."

Trusting to have the privilege of handling your account, I remain,
Sincerely yours,

It requires from three to a dozen letters before the victim begins to give up his wealth. But having once succumbed to the blandishments of the accomplished swindler, it is appalling to note the confidence and sense of security he displays in absolute strangers while the deal is on, and the surprise he manifests when he finally and inevitably awakens to the realization that he has been duped and robbed.

About 99 per cent of the victims are ashamed to acknowledge their veridancy and very few of the balance care to go to the trouble and vexation of prosecuting. So that it makes this system of robbery comparatively safe.

LIGHTING CONTRACT CLOSED

For Electric Illumin- ation of Three State Institutions

Important State Contract Undertaken by the Citi- zens Light and Trac- tion Company

Attorney John H. McNary has closed a contract today between the Citizens Light & Traction Company and the Public Building Commissioners, Governor Chamberlain, Secretary Dunbar and Treasurer Moore, by which the Salem light company will light the asylum farm, the deaf-mute school and the state reform school for a period of five years.

The rates agreed upon in the contract are \$6.00 per month for each arc light, and 30 cents per month for each 16-candle power incandescent. Of the latter the asylum farm takes 300, the mute school 200, and the reform school 350.

As a result of the reductions in state lighting rates, the whole bill for lighting seven state institutions will not be any more than the state formerly paid for lighting four.

It is generally believed that the state has secured a very favorable contract. The state will discontinue all its own lighting plants at these institutions, finding it cheaper to buy the light than to make it.

SAVED BOY'S LIFE

Young Cigarmaker Pulled the Lad Out After He Had Gone Down

Harry Wiedmer, a young man who works in the Huckestein cigar factory, saved the life of little Glen Hollister Sunday, after he had fallen between the logs in the boom in front of the Capital sawmills.

The two little Hollister boys were playing on the logs, and, in trying to jump from one to another, the younger one, aged about eight years, fell in, and had been under the water some time, when Wiedmer saw him struggling, and rescued him.

The water was very deep at the place where he fell in, and in a few moments he would have been out of reach. His rescuer deserves credit for his prompt and plucky action. The father of the boy, when he learned the facts, called on Wiedmer, and thanked him, offering him a reward for his bravery.

The lad who came near drowning was a son of G. W. Hollister, the well-known clerk at the Holverson store, who has just removed with his family to Dallas.

It Was Not a Fur Seal.
The new seal of the state of Oregon, provided for by a law passed at the last session of the legislature, is now in use in the state department at the capitol. The seal does not differ much from the old one.

The Walk is Needed.

Street Commissioner Griswold has a force of men at work building the cement walk along the west side of 13th street, south of State, recently authorized by the city council. The walk was originally one of boards, and these were torn up last spring, and the street commissioner rebuilt the same with gravel. This proved a very unsatisfactory walk, and the city council authorized the putting down of cement. The walk will be six feet wide, and will run from State street to the cannery, from which point a new board walk has been constructed to the Southern Pacific switch.

They Can Marry.

County Clerk Roland this afternoon issued a marriage license to Ira S. Lamkin and Miss Mae E. Wellman, upon the application of L. Townsend. Both parties are residents of Marion county.

Street Commissioner Griswold offers The Journal editor a job at street work. He says he is rustling hard for men to work on the streets, but cannot get them. He might offer John Albert, Dr. Cusick or W. F. Boothby a job. Dr. Cusick says he is afraid Griswold would set him at work cleaning up around his own premises. The Journal editor would work on the streets, if he could get rid of his present job, and had no other. A good German on the streets might not be a bad idea.
