

NAVY YARD UNIONS

Man Upheld by the Commander's Orders

Washington Unions Weakening Over Roosevelt's "Open Shop" Policy

Norfolk, Sept. 30.—Notwithstanding Roosevelt's "open shop" policy, naval officers at this station today assert that the navy yard bosses will discharge whenever they can mechanics not identified with trades unions. Mechanics just discharged for this reason have appealed to the officers. The commander of the yard, upon investigation, has ordered a man's immediate reinstatement.

Unions Weakening.
Washington, Sept. 30.—It is believed here that Mr. Gompers is not surprised by the President's reiteration at a meeting last night of his position against the discrimination between unionists and non-unionists in the government employ. It is known that Gompers considered the stirring up the Miller case as ill-advised. In fact the Miller matter seems to be dying out in this city.

Ambassador is Dead.
London, Sept. 30.—Sir Michael Herbert, the British ambassador at Washington, died at Davos Platz, Switzerland, this morning.

The death was announced at 3:30 o'clock this afternoon by Lord Alverstone, who is attending the meeting of the Alaskan boundary commission. Counsel Carson had just begun summing up the English side, when he was interrupted by the announcement that Counsel Robinson was dead. Alverstone paid a most feeling tribute to the deceased statesman, and tears coursed down his cheeks as he spoke. Carson and Dickenson followed with remarks, when the sitting adjourned.

Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system. It will continue to exist, annoy, and perhaps agonize, as long as these humors remain. It is always radically and permanently cured by

Hood's Sarsaparilla which expels all humors, and is positively unequalled for all cutaneous eruptions.

as a mark of respect. Sir Michael had been ill for some time, having recently left Washington for the benefit of his health. His death was, however, unexpected, and was caused by an affection of the lungs. The resort where he died is largely patronized by consumptives.

Herbert was born in 1857, and was considered one of England's leading diplomats, and America's warmest friend. His appointment to succeed Pauncefoot gave great satisfaction on both sides of the Atlantic. His long service in various capacities in Washington, and his marriage to Lola Wilson, an American, of New York, gained him such a wide circle of American friends that it caused him to declare frequently that he was half American.

Germans Blush for Their People.
Berlin, Sept. 30.—The Neuste Nachrichten today bitterly assails the Germans in America. It says they shake off their nationality, and avoid the use of the mother tongue, and thus forget their fatherland. They neglect to educate their children as Germans, which causes them to be despised by Germans in Germany, and causes the blush of shame for those who thus betray their own country.

Czar Visits the Emperor.
Vienna, Sept. 30.—The Czar of Russia arrived here today to visit Franz Josef. The Emperor met the royal visitor at the station, and both drove to Schoenbrunn palace, through troops, which stood several deep along the entire route. Great crowds gave the Czar an enthusiastic greeting.

Of Course She Suicided.
San Diego, Cal., Sept. 30.—The body of Mrs. A. J. Morris was discovered on the bay shore this morning. She disappeared from her home Monday, and it is believed to be a case of suicide. She was 60 years of age, and her husband was a wealthy packer in Kansas City.

Seattle Sport Dies on Table.
Seattle, Sept. 30.—Wm. S. Thomas, alias Kid Smith, who was held for the murder of Patrolman A. C. Scheneman, succumbed to a surgical operation this morning. The doctors say that cowardice was the real cause of his death, as he always feared lynching.

Rockafellering the Oil Product.
Toledo, Sept. 30.—The Standard Oil Company today gave notice of another increase in the price of crude oil of two cents in the West and three cents in the East. Oil men say the Standard is proving that it will pay almost any price for the crude product.

Robinson Let Go.
London, Sept. 30.—C. Robinson, the Canadian counsel, who fainted yesterday in the session of the Alaskan commission, was sufficiently recovered this morning to resume his argument today. He concluded this forenoon, and was followed by the American counsel in rebuttal.

PUSH CLUB MEMBERS INVITED

To Hear Lecture on Forestry by a Famous Expert

Portland Chamber of Commerce asks Salem to Hear Forest Reserves Discussed There

The executive committee of the Greater Salem Commercial Club held an important business session at the office of Secretary Judah this morning. Among the matters disposed of was the following letter, which speaks for itself, and the executive committee directed the secretary to issue the proper credentials, as a member of this club, to any one who may desire to go to Portland in this behalf. The object is one of exceeding interest to every community and citizen of Oregon, and it would be well if Salem and her commercial organization were largely represented. Secretary Judah would be pleased to know, at the earliest moment possible, all the parties who may desire to appear at this lecture, in behalf of the club: The letter is as follows:

"Portland, Or., Sept. 28, 1903.
"Greater Salem Commercial Club, Salem, Oregon:

"Gentlemen: The Chamber of Commerce respectfully invites the members of your honorable body to be present in Portland on the evening of October 6th, when a lecture will be delivered, under the auspices of the Chamber by Prof. Gifford Pinchot, chief of the Forestry Department of the United States. In view of the fact that Oregon's vital interest is in the forest reserve question, this subject, as discussed by Prof. Pinchot, is opportune, and should be heard by representatives of every commercial organization in Oregon. Members of the Oregon congressional delegation at Washington are expected to be present at this meeting. Kindly let me know of the parties in your vicinity who will attend this lecture. Very truly yours, SAMUEL CONNELL, "Secretary."

All a Big Mistake.
Oscar Cole, residing on 19th and Lee streets, was last evening arrested on the charge of using insulting and abusive language to Mrs. John M. McAllister, a neighbor. Mr. Cole was allowed to go on his own recognizance, and this morning, after taking legal advice, he appeared in court and plead guilty to the charge. He was fined \$5, which amount he paid. Mr. Cole says he did not use the language ascribed to him with the intention of insulting the complaining witness, but was addressing the lady's mare, the animal having entered his stable and eaten his cow feed, and, becoming exasperated, he used some forcible language, and the lady overhearing it, and doubtless thinking the words were intended for her, filed the complaint.

Looked for Bandits.
Chief of Police Stiles was routed out of bed this morning about 3 o'clock, with the information that the O. R. & N. train robbers had headed south, and were expected to show up along the Southern Pacific line any time. With the startling news waking him up he proceeded to the depot, and conducted a vigorous search for the miscreants through every box car, on every brake beam, and in every kind of a hiding place. He was searching a barn in the neighborhood of the depot, and, while clambering over the hay in the mow, heard a voice of terror. "Heah, don't walk on me like dat." A black face appeared through the straw and the face explained that he was only looking for a little sleep.

Salem's Law School Opens.
The Oregon Law School opens this evening at 7:30 o'clock, at the rooms in the Murphy block formerly occupied by Prof. Parvin, on the third floor. Dean Richardson will be in charge.

Yes, They Can Marry.
County Clerk Roland this forenoon issued a marriage license to W. A. Buckner and Miss Dollie E. Ringo, upon the application and affidavit of C. W. Buckner.

D. H. Wyant, of Mehama, is in the city for a few days' business.

WILL FIGHT UNIONS

The Battle is on Between the Elements

When Labor Fights Money Who is There Shall Estimate The Results

Chicago, Sept. 30.—The temporary officers of the National Employers' Organization today issued a call for delegates to a convention to be held here October 29th and 30th. The object is to enlarge and perfect the organization, until it shall include all the associated employers in the United States, Canada and the British and American Dominions. Representatives of the thousands of organizations are expected to attend. Circular letters were today mailed to hundreds of thousands of employers who are not members.

The Employers' Association are urging them to join in a common fight against the demands of labor. A business agent will be sent to every town. Secretary Job expects, within three months, to have the organization so perfected as to be able to successfully combat all union demands which employers consider unjust.

Takes a Back Seat.
St. Paul, Minn., Sept. 30.—Vice-President Hannaford or General Counsel Bunn will probably succeed Mellen as president of the Northern Pacific.

Stock Market Grows Better.
New York, Sept. 30.—On the stock exchange this morning stocks opened firm and with a steady gain. Deals were free from eccentric fluctuations,

Car Men Had a Fine Time.

Sault Ste Marie, Sept. 30.—In addition to the troops that arrived by special train last night a second special of 50 more grenadiers and Highlanders arrived here this morning with the regulars, to guard property. Idle workmen will be refused free meals, and much trouble is expected. A detail of soldiers will be sent to each boarding house to guard the buildings. All company property will be likewise guarded. The street cars were started again this morning.

The soldiers marched through the streets to the Consolidated Superior works followed by hundreds of idle workmen, but no violence was manifested. The streets were lined with idle men, who watched in silence. Everything is quiet, but when the rationers are refusing the workmen, it is feared a clash will occur, as they have no money for transportation, and several thousand will be compelled to remain here.

The Plumbers Lose Clear Out.
Portland, Or., Sept. 30.—The plumbers' strike, which has been on for six weeks, was settled today, the men losing and going to work. They demanded \$5 per day, instead of \$4.50. The general sentiment was strongly against them.

Must Have Evidence.
San Francisco, Sept. 30.—The condition of Edmond Labrousse, who killed Marie Jordan yesterday remains unchanged. He is still conscious, though the bullet in his head is unlocated.

Tillman is All Right.
Lexington, S. C., Sept. 30.—The third day of the trial of Tillman is attracting but small attention. Only 20 spectators listened to the examination of the witnesses.

McGrew Gets There.
New Haven, Conn., Sept. 30.—The Spanish War Veterans this morning elected Harold McGrew, of Indianapolis, their commander-in-chief.

Texas Against It.
Laredo, Tex., Sept. 30.—There are 13 new cases of yellow fever.

CAN'T JOLLY WILLY

Hearst's Presidential Campaign May Yet Materialize

Sancho Panza Told Some Good Truths Which are Equally True Today

Kansas City, Mo., Sept. 30.—San Francisco, in addition to having the leading candidate for the presidency, is also making a fight for the next convention of the iron workers. Toronto is also making a vigorous campaign. This morning's session is quiet. Sam Parks, attired in patent leather shoes and cap, black and white sweater, carefully crossed cut-away suit, with a ring with three large diamonds was conspicuous. The convention today instructed the secretary to apply for a charter to the American Federation of Labor. It also adopted a resolution permitting one apprentice for every seven men.
