

The Best is None Too
GOOD
and the most
ECONOMICAL

In carpets we have sole control both in Salem and Albany of the justly celebrated PARK MILLS PRODUCTS. The fabrics from these mills stand highest in wearing qualities, beauty of design and colorings and great variety of weaves.

You cannot do better than buy these and have them sewed with a perfectly flat seam. You should have your mitting sewed.

The House Furnishing Company.
Salem. 269 Liberty Street. Albany

DR. J. F. COOK

Has come to the conclusion that all profession of the healing art out side of the vegetable kingdom is a failure. When your system is run out without pure blood. You will only find vitality in the vegetable kingdom. Poisonous drugs nor doctors' knives nor thunder and lightning will not remove the cause, but lay the foundation for all kinds of disease. Those poisons go into your bones, and kill the life of them and create all kinds of diseases, cancerous tumors, consumption, dropsy bone disease, etc. You must bear in mind that his medicine is not a poisonous tonic, nor a stimulant, nor temporary relief which you get from poisonous drugs, where the results are sure death sooner or later. Do not blame the medicine, when it takes an effect and stirs up the poisons or disease in the system. You must not expect to be cured in a few days, for your sickness or disease has been a long time coming on, and it will take a long time to get it out of your system. It will take months or a year to build a new body from the bones up. This is what the people do not understand. They are used to being humbugged. His medicines are composed of Nature's Herbs—what the human system requires. When the animals get sick they will help themselves to those herbs, for they have the instinct, and the people have not, so we have to make a study of it. It has been a life study with Dr. Cook. Do not get weary; this life is too short and too sweet to worry out of this world.

Dr. Cook Cures All Kinds of Diseases
301 Liberty Street, Salem, Oregon.

THE NEW UNION STATION

Washington is to Have a Magnificent Depot Building

Fourteen Million Dollars will be Put up for The Accommodation of Guests

Two words apply with peculiar force to the new Union Station, for which proposals were opened in Philadelphia today. The first is "immense," the second "magnificent."

The width of the front will exceed that of the Capitol; twenty-nine tracks will lead into the station, and a tunnel more than a mile long will admit trains under Washington; the base stones of the two immense statues to be placed in front are now being brought to Washington by specially constructed trucks. The entire cost of the new station is estimated at \$14,000,000.

Materials for the construction will be almost entirely of marble and granite, and the Roman style of architecture will be followed. A superb state entrance will be provided for the president and distinguished guests of the city. The interior of the building is to be lighted by a semi-cylindrical dome of colored glass, 100 feet high.

The Union Station will be the central point for the Baltimore and Ohio, Atlantic Coast Line, Southern, Seaboard Air Line, Chesapeake and Ohio, and Pennsylvania systems. Twenty-three tracks are to be on a level with the station and three will go through the tunnel. The tunnel will run from First street east, pass between the capital and library of congress, and come out at C and First streets south-east.

Many institutions included. A striking feature in the construction of the building will be that the floor of its basement is to be nineteen feet and that of the waiting room thirty-five feet above the level of the ground.

Three arched doorways of granite, 60 feet high and 44 feet wide, will occupy the central portion of the front and open into a vestibule 289 feet broad. Beyond the vestibule is to be the main waiting room, 210 feet wide by 150 feet long. Floors and walls are to be lined in white marble. The apartment will be lighted by a 100-foot dome of glass and decorated with marble statues of heroic size, frescoes and giant palms.

The plans call for a driveway, circling about a parking, which will permit the traveler to alight at the door of the ticket office and baggage room and pass directly into the waiting-room. Special waiting rooms for the respective use of men and women will be installed, and a "quick lunch" counter and handsome dining room will be provided. The state entrance is to occupy the whole of the east end of the building. This will constitute a suite of rooms, including reception and retiring rooms, for the dis- shaft of the dome extends, will be smaller rooms for the use of his attendants. Leading from these rooms to the train is to be a long passage brilliantly lighted. A driveway similar to that on the left side will lead to the state entrance.

Back of the first floor of the main building is to be the "concourse," a covered space 760 feet wide and 135 feet deep, which will form a shelter for passengers as they form in line on their way to trains. All baggage will be handled in a specially provided apartment directly under the concourse. Express wagons and drays will drive down an incline and unload in the baggage room.

Provision has been made for a barber shop, a swimming pool 26 by 37 feet, built of marble, Turkish and shower baths and a mortuary chamber with accommodations for five bodies.

A Notable Construction.

A sub-basement has also been planned for the handling of Southern baggage. In this basement there is to be an emigrants' waiting room 40x60 feet baggage store rooms, and rooms designated as "unassigned space." Six elevators 15x6 feet, will pass from the sub-basement to the main waiting room.

The second floor, through which the shaft of the dome extends, will be raised off by massive marble balustrades and reached by marble staircase to the left of the vestibule. On this floor will be rooms for train dispatchers and offices for men connected with the road.

On the third floor there is to be a

Retrospect.

It is an evil day for the wife and mother when she scans her worn face in the mirror, and asks the question, "Does it pay?" Does it pay to sacrifice health and happiness to wedded love? But there is another question which rightly takes precedence of Does it pay? It is this: "Is it necessary to sacrifice health and happiness to wedded love?" Half a million women answer, No! They have been weak and have been made strong by Dr. Pierce's Favorite Prescription. They were sick and "Favorite Prescription" made them well. It will do the same for almost every woman who gives it a fair and faithful trial. It stops weakening drains, heals inflammation and ulceration and cures female weakness. It tranquilizes the nerves and encourages the appetite.

"I expected to become a mother, and a threatened miscarriage greatly weakened me," writes Mrs. E. A. Nations, of Wills-Springs, Henry Co., Ark. "and my old disease returned. My husband got another doctor for me but I seemed to get drag along and get no better. At last I told the doctor that if his medicine did not help me I would go back to Dr. Pierce's medicine. I did so, and by the time I had taken them one month I could do my own housework, except washing, and tended my garden box. I was stouter than I had ever been while waiting baby's coming since my first baby came (this one was the sixth child). She is now eleven months old and is a healthy child. As for me, I feel as young now as I did at eighteen years of age; I am thirty now. I can cheerfully recommend Dr. Pierce's medicine to all suffering women."

Doctor Pierce's Pleasant Pellets cure biliousness and sick headache.

Y. M. C. A. room 20x60 feet, having a gymnasium and library for the exclusive use of employes of the road, who are members of the organization. A lunch room and kitchen for the accommodation of train crews who stop over will also be located on this floor. Sleeping apartments for these crews are to be fitted up in the attic of the building.

The Union Station proper will occupy 254,000 square feet. The space will be inclosed by a line running from Massachusetts avenue, near North Capitol street, cutting G, H and I streets, passing on to Second and H streets and cutting G and F streets.

The cost of the tunnel will be \$250 per linear foot, or a total of about \$1,000,000.

The District of Columbia will defray about \$2,000,000 of the total cost of the station, the Pennsylvania railroad about \$7,500,000, the Baltimore and Ohio about \$4,500,000. It is estimated about three years will be consumed in building the new station.

Washingtonians regard the erection of this building as an event in the progress of the Capital City. It will gather in one spot and almost under one roof the clamor and ugliness of the train yards now divided between two stations and give the visitor a favorable impression of Washington as he crosses its threshold.

To the War College.

Governor Chamberlain has received a letter from Adjutant-General Finzer, recommending the appointment of Captain F. S. Baker, of Company "F," Third Regiment, O. N. G., to a term at the officers' school, at Fort Leavenworth, under the recommendation of Major Chynowith, of the regular army, who last spring inspected the Oregon militia, and highly complimented Captain Baker on his efficiency. The governor at once recommended the appointment of Captain Baker, sending his recommendation to the adjutant-general at Washington, D. C. The action was taken under the new militia act, passed by congress last year.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it to-day. Try

Jell-O,

a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! add boiling water and set to cool. Flavors—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers to-day, to cts.

Education

DEMANDS CONSIDERATION

There are two kinds—practical and ornamental. The former should be secured by everyone, because it may be put to use quickly. The latter is desirable, but the former is essential. Our courses are arranged with a view to usefulness. We don't dabble in a little of everything, but devote our energies to conducting a first-class business school. Living expenses low. Send for catalogue. Students may enter at any time.

CAPITAL BUSINESS COLLEGE, Salem, Oregon. W. J. Staley, Principal.
