Supreme Court Doings

The supreme court has made orders in the following cases, pending on appeal from the circuit courts of the state:

The Astoria & Columbia R. R. Co. respondent, vs. Daniel Kern, appellant; ordered on stipulation that the abstract be dispensed with.

James Hall, respondent, vs. Albert Abraham, appellant; ordered on stipulation that appellant's time to serve and file his brief be extended to November 19th.

A. McFarlane, respondent, vs. G. B. Cornelius, appellant; argued and submitted on objections to cost bill of appellant.

Petitions for rehearing have been denied in the following cases, heretofore decided by the court:

F. B. Waite, respondent, vs. Kate Grubbe, et al., appellants.

Beaver Flume & Lumber Co., respondents, vs. Wm. Eccles, et al., appellants.

Stephen Williamson, et al., appellants, vs. North Pacific Lumber Co., respondents.

Bessie Randall, et al., respondents, vs. C. C. Lagwall, appellant.

Elizabeth McFarlane, respondent, vs. A. McFarlane, appellant.

State of Oregon, respondent, vs. Andrew J. Nelson, appellant.

Leo J. Patterson, Jr., respondent, vs. United Artisans, appellant.

The Union Street & Suburban Railway Co., respondent, vs. The First National Bank of Union, appellant.

MANY SURGICAL CASES.

But No Typhoid Fever Cases at Florence Sanatorium.

Dr. Fisher, of Roseburg, today brought a surgical case from that city of the Florence Sanatorium, where his patient will be treated by skilled surgeons. It is learned that the Sanatorium is well filled up with surgical cases, but that there is not a case of fever of any kind at that institution at the present time.

An Educated Goose.

The Kenney Gun Club today received a singular express package, the contents being a wild goose, which was born in captivity, and trained for use as a decoy. The value of the bird is \$50, and if it does all that it is guaranteed to do, it will be worth the money. It is evidently used to being near people, for even shortly after its arrival here it ate out of the hands of any one who was pleased to give it food, and the parties from whom it was purchased promise that it will call all the wild geese within sight or hearing, and when its master signifies that it is time to go home the bird will take its place in its cage. It will be given an opportunity to show its ability as a decoy in the very near future.—Astoria News.

Military Board Meets.

The state military board held the regular quarterly business meeting at the state house last evening, when the bills for the quarter, and especially those for the recent encampment of the National Guard, came up for action. The bills, so far as they are filed, were paid, and the board would have been pleased to settle the entire expense of the encampment at this time, but could not do so, for the reason that some of the claims have not yet been filed.

A Pair of Young Bandits

Portland, emulating Seattle, has come to the front with a young married couple, who have been doing the highwayman act. They are Mr. and Mrs. A. T. Johnson.

Johnson is a son of the late A. H. Johnson, a well-known meat packer. Mrs. Johnson is a Portland girl. Although but 17 years of age, she has a child three years old by a former husband named McKinstry. She married Johnson last May. Her husband is about 28 years old, and said he formerly worked in a local laundry as a linen marker.

Johnson has already plead guilty to one charge, and his wife will follow suit. It is probable the young criminals will arrive here ere long for a term in the pen. The crime worse than those they admit, was that of the parents, and the law, permitting the child wife to be married when only 13 years old.

Supreme Court Matters.

The supreme court is this afternoon conducting the regular examination of applicants to the bar. There are seven of these aspirants for admission and lawyers' licenses, as follows:

- John E. Tracy, of Portland.
- F. C. Hackman, Astoria.
- Arthur C. Dayton, Portland.
- Hugh C. Gearis, Portland.
- James R. E. Burdett, McMinnville.
- George F. Brice, Portland.
- Thomas H. Tongue, Jr., Hillsboro.

Clerk Murphy, of the supreme court, this morning set the case of Maria Flanders vs. Multnomah county, the tax test case, for hearing Wednesday, October 14th. This is done for the purpose of securing an early decision of the case, which is of great importance to the state, as all the counties will, if Multnomah county should lose the case, be unable to levy the regular taxes this year.

Gets Talent From Oregon.

Rev. Alexander Blackburn, formerly of Portland, has accepted a call to the First Baptist church, of Salem, Mass. This church is one of the leading churches of the denomination in New England, as well as one of the oldest and richest. It has been supplying Tremont Temple, in Boston, and other prominent Baptist churches in the state during the summer, among them his old churches at Cambridge and Lowell, where the warmest welcome met him.—Portland Journal.

Teachers for the Philippines.

The local civil service board will give examination to applicants for positions as male teachers in the Philippines at salaries from \$900 to \$1200 per year. Apply to Miss Zaidée Palmer, Salem postoffice.

ICE

Consumers please take notice

ICE

Desiring to serve our customers to the best possible advantage, we have decided to adopt the COUPON system for ice sales. This is in use by practically all of the progressive dealers, and has been found most satisfactory for both dealers and customers.

Commencing on October 1st, these COUPON books will be for sale, and all family customers purchasing in quantities of less than 100 pounds must secure one of them, or make cash payment.

The books contain COUPONS of the denominations of 5, 10, 25 and 50 pounds, and are good for 200, 300, 500, 1000 and 2000 pounds. They can be obtained from the drivers or at our office, and if paid for in cash a discount of FIVE per cent is allowed. Credit will be extended to approved parties, but books will be charged at face value. No deliveries made for less than 10 pounds.

We thank the public for the patronage extended to us in the past, and it shall be our endeavor to treat our customers in such a manner as to merit their patronage in the future.

Any complaints should be referred to the office at once, and they will receive prompt attention.

Salem Brewery A'ssn.

All England by the Ears

London, Oct. 5.—There is amazement and speculation over the new cabinet appointments. Chamberlain speaks tonight at Glasgow, and he is now the only consistent figure in the whole conservative party, making him the inevitable premier should the protectionists win at the next general election. His speech tonight is looked forward to with great interest.

Grain Men in Session.

Minneapolis, Minn., Oct. 5.—The annual convention of the Grain Dealers' National association, which opened here today, is the largest in point of attendance ever held by the organization. Those in attendance include all the prominent eastern exporters of Boston, New York, Baltimore, Philadelphia and Newport News, and the West Coast exporters who load grain into ships at San Francisco, Portland, Tacoma and Seattle and send it half way round the world to England, or down to Australia. The exporters from New Orleans and Galveston are in attendance to compare methods with the dealers who export from Duluth, while the dealers in all the larger milling centers are here to discuss matters of mutual interest in connection with railroad rates, consumptive demand and the primary movement of grain. The present convention is also unique in that there is an unusually large attendance of Canadian grain men. The Eastern and Western Canadian grain men have their own association, which has sent representatives to observe the proceedings of the convention, while many dealers are attending independently.

Sheridan Water Works.

The people of Sheridan have voted \$10,000 bonds with which to put in a gravity water system. The water will come from springs two miles north of town and run into a 200,000-gallon tank 200 feet above the city.

go together. We give particular attention to these complications. The nervous exhaustion which results from strain upon the delicate muscles of the eye can only be understood by a careful student of the nervous system. We have been giving this particular study our attention with results which seem marvelous to those benefited with our new system and specially ground lenses for these complications. If you have tried various opticians and had no results satisfactory to you don't give up until you have seen us.
