The debate was growing warm when Marcus Marks, of the New York Garment Makers Employers' Association, poured oil on the troubled waters, by diverting the discussion into one concerning the province of the Civic Federation. He said it was formed for the purpose of convincing the working men it was to their interest to maintain open shops, that the unorganized 80 per cent might join the organized 20 per cent of Gompers, the president, said Hanna would be the chairman tomorrow.

WILL MAKE EXHIBIT

Superintendent Ackerman Arranging For Showing at St. Louis Fair

State Superintendent Ackerman has issued a circular to the educators of the state, urging them to assist in their power in the matter of providing a suitable educational exhibit and comparative display, of Oregon's school system for the St. Louis Exposition. This is the first step toward arranging such a display, and from now on work in this direction will be pushed. The superintendent's letter is as follows:

"To the School Directors, Superintendents, Principals and Teachers in Public Schools of Oregon: "The Louisiana Purchase Exposition is to be held in St. Louis in 1904, and, for the first time in the history of enterprises of this kind, the department of education has been assigned a separate building has been provided for the educational exhibit, and a comparative display of educational systems, from all the leading nations of the world.

"It is earnestly desired by this department that Oregon shall take its proper place as a leading exhibitor in that department. The great interest heretofore manifested by the people of Oregon in all matters pertaining to education, justify the expectation of hearty co-operation in the preparation of an educational display that will intelligently and effectively illustrate Oregon's school system, and the results achieved in all lines of work.

"Prof. F. G. Young has been appointed as the educational exhibit commissioner from Oregon, and Supt. H. S. Lyman as superintendent, and these gentlemen have, in conjunction with the committee appointed for this purpose of the State Teachers' Association, prepared a circular containing suggestions and plans for preparing a creditable exhibition, which you will receive in due time. All inquiries and communications should be addressed to Supt. H. S. Lyman, 203 Vine street, Portland, Oregon.

"Firmly believing that all will take hold of the matter with zeal and enthusiasm to the end that this exhibition of school work will be the best in the history of the state, I am, yours truly, "J. H. ACKERMAN, "Supt. Public Instruction."
