

TS UP TO THE GOVERNOR

Everybody Wants a Special Session Cal- led at Once

Legislators Think the Gov- ernor Is Wrong In Ask- ing Pledges, But Session Should Be Short

Governor Chamberlain is in receipt of several letters urging the calling of a special session of the legislature. One of these from C. B. Watson, of Ashland, endorses the stand the governor has taken, and expresses the hope that the governor's suggestion that no legislation be attempted except that to correct the present unsatisfactory condition in the assessment law, will be agreed to by the members of the legislature.

A letter was also received from J. N. Teal, of Portland, urging the calling of a special session, and calling attention to the deplorable condition of the city of Portland, and many other cities and counties would find themselves in on account of the absence of revenue next year, if legislative relief is not obtained promptly. The Portland Taxpayers' league has also sent in strong resolutions, favoring the prompt calling of the legislature to give relief to Portland and Multnomah county. These resolutions were adopted by unanimous vote of the league.

A letter from State Senator Farrar, of Marion county, is also to hand. Mr. Farrar is not favorable to the calling of a special session, and he does not pledge himself to tax legislation alone if one is called, reserving the right to support any legislation that may be proposed for the benefit of the state.

Substitute for Ship Subsidy.

Washington, Nov. 10.—Representative Jones, of Washington, today re-introduced his substitute for the ship subsidy bill, which provides that a discriminating duty of 10 per cent, in addition to existing duties, shall be collected on goods imported into the United States in foreign vessels.

In case the goods so imported are not now dutiable, a straight discriminating duty of 10 per cent ad valorem is to be levied. The bill proposes to enforce the foregoing regulations after April 1, 1905.

Hunters Lost in Mountains.

Missoula, Mont., Nov. 11.—A special to the Missoulian, from Hamilton, says:

Will Harlan, son of W. B. Harlan,

the wealthy politician and rancher, of Como, was brought here this evening in an exhausted condition, after having been rescued in the mountains in the Owl Creek country by a rescuing party from the Cross of Gold camp.

Somewhere along the 150 miles stretch of Horse Creek, between Owl Creek and the Salmon river, Llewellyn Roberts, another well-known young man of Hamilton, is either dead or dying from exhaustion and exposure, lost in the mountains. Roberts and Harlan were on a hunting expedition, and became lost in the mountains.

President for Carnegie Schools.

Pittsburg, Nov. 10.—The committee appointed by the board of trustees of the Carnegie Institute, to select a president for the Carnegie Technical Schools of Pittsburg, today reported in favor of Arthur Arton Hamerschlag, of New York, for the position. The salary will be \$5000 a year.

Strike in the Crystal Mine.

Cottage Grove, Or., Nov. 11.—The Crystal mine at Bohemia has just struck an immense chute of free-milling ore. The ore body is 12 feet wide, and has well defined walls.

Car Strike In Chicago

Chicago, Nov. 11.—The conference of labor leaders this morning prepared for the biggest strike of street car men ever contemplated by local unions. Both sides declare it is inevitable, and, unless, at the last moment, there is some intervention, tomorrow will find one-fourth of the railways tied up and half a million people without car service. The unions demand a 30 per cent increase for train service, and the withdrawal of the ban against the union, which contains 2200 members. Manager McCullough says the railways cannot grant either. Boss Farley, the strike-breaker, and 400 men are quartered at hotels awaiting action. The police fear rioting. The postmaster declares the mail cars shall run, even if troops are necessary. A mass meeting will be held at 6 o'clock tonight, when the train men are not expected to take out cars, but to attend for the purpose of ratifying the final action of the officers of the union, and appointing a time for the walk-out.

Not Yet Recognized.

Paris, Nov. 11.—The foreign office report, published through the press agency yesterday to the effect that France had recognized the republic of Panama, it says is absolutely false.

He Never Will Be Missed.

New York, Nov. 11.—Bryan called for Europe today on the Majestic. He will be gone six weeks.

Physicians

Should by all means hear the lecture on Christian Science Friday night. Admission free. 3t

WON'T FIGHT DAVIS

The Oregon Delegation Concludes to With- draw Opposition

Dresser For Oregon City, Snyder and Watson For the Lakeview Land Offices

Washington, Nov. 10.—The Oregon senators will not oppose the confirmation of Edward Davis, as register of the La Grande land office. Such an announcement was made today, after the President sent Davis' nomination to the senate. Notwithstanding the bitter fight the senators made last August to prevent Davis' appointment at the time they were so strongly urging John W. Knowles for the office, they have decided to put no further objections in Davis' way. Speaking of the matter today, Senator Mitchell said: "From a public standpoint there is no reason why Davis should not be confirmed, and I intend he shall be in the regular course, and at an early date."

The senator, like his colleagues, says, Davis is an excellent man, and that the appointment is in every way commendable, though Knowles was the choice of the delegation, and would still be its preference.

With the nomination of Davis the President sent in the names of A. S. Dresser for register of the Oregon City land office; John N. Watson, for register at Lakeview, and C. U. Snyder, for receiver at the same place. All will be confirmed.

WILL KICK FRIDAY

Pacific University Will go Up Against Willamette's Athletes

Next Friday afternoon the most interesting football game of the season will be played on the Willamette field, when the Pacific University eleven, an undefeated team this season, will play the local team. Pacific University played Corvallis last Saturday a scoreless game, and before that defeated McMinnville by a score of 29 to 0. Willamette defeated the same team 27 to 0, so that Pacific appears to have the better of it.

The game will be played Friday at 3 p. m., in order to accommodate business men and clerks, who are too busy on Saturday to witness the game. A good afternoon's sport is promised by Manager Skidmore, who is confident of victory, as is the manager of the Pacific team.

In the evening, in the society halls of the University, a reception will be tendered the football players of the two universities.

The game will be one of great interest, as both teams are in excellent condition, are well trained in team work, and composed of the best players either school has ever put forward on the football field. The spectators will find the new field a good one, and the grand stand a most comfortable place from which to view the contest. A new board walk is being built from the gate to the grand stand, so that visitors will not have to tramp through the mud, and everything possible will be done to make the spectators comfortable and the game interesting.

Barn and Contents Burned.

Eugene, Or., Nov. 11.—The large barn on the old Kelly place, on the outskirts of Springfield, and which belongs to Ly E. Smith, burned last night, together with nearly all its contents, consisting of agricultural machinery, vehicles, seed and harness. Three horses perished in the flames. The origin of the fire is not known. Mr. Smith's loss amounts to about \$3000.

Example of Special Session.

Washington, Nov. 10.—There were \$19 bills introduced in the house yesterday, of which 115 were public, and the remainder measures for the benefit of private individuals.

MONTANA TRAIN HELD UP

Highwaymen Fired at Train Crew on North- ern Pacific

Get Frightened and Abandon the Attempt Without Securing Any Booty

Spokane, Wash., Nov. 10.—Northern Pacific train No. 3, from the East, which reached Spokane early this morning, was held up at Joe, Mont., by three armed highwaymen, who fired six shots at the members of the train crew.

The highwaymen were discovered on the train by the head brakeman, J. E. Rodenhaver, of Spokane. His attempt to put the men off precipitated the shooting, and foiled the plans of the robbers.

The train pulled westward immediately after the shooting, leaving the highwayman behind. The man who had followed Rodenhaver, seized him by the throat and shoved a big revolver into his face, saying:

"You go back and tell your partner and the conductor not to come ahead. We will look after this end of the train."

Apparently the three highwaymen decided that everybody on the train had been alarmed, and that robbery would be impossible, for they disappeared, and the train moved forward at once.

Negro in Every Woodpile.

It looks as though there is some politics mixed up with the alleged land office frauds, and it is to kill off a few prominent politicians that the tempest in the teapot is raised. Joe Simon worked a similar thing when he put his political rival, Jim Lotan, to sleep, and succeeded in getting him into his political coffin on account of smuggling. Who knows but what it is the same hand that is working now to put some of the Oregon delegation and leading politicians on the shelf as some future date, for it is plain as plain can be there is to be a sanguinary fight between Simon's henchmen and the Mitchell-Fulton henchmen for control of politics in the state, and especially in Portland. The line-up next spring will be Simon vs. Mitchell-Fulton in the Republican party, and it is well just now to watch the drift of the alleged land frauds to ascertain who is back of it all.—Tillamook Headlight.

Oregon News Notes

Jim Bunn, who was arrested a few days ago for assaulting an 8-year-old girl at Eugene, was tried yesterday and promptly found guilty. He will get his sentence today, which will probably be the limit, 10 years.

St. Anthony's hospital was dedicated at Pendleton Sunday, Governor Chamberlain making an address on the occasion.

Most of the members of the legislature want an extra session, but do not want to make any pledges.

Eugene will open her theater next Tuesday. The occasion will be made a brilliant one, "The Christian" being the play, and the seats put up at \$2 to \$4.

The Portland chamber of commerce, through its committee, says: "The situation appears to the transportation committee to be that the Southern Pacific management looks upon Portland as a way station, and that the state of Oregon is too sparsely settled and of too little importance to receive any particular attention, and that no matter what impositions are placed upon us, no matter what wrongs and grievances we endure at its hands, all can be amicably arranged afterwards."

The charge of murder against Ed. C. Lewis, who was accused of killing Max Calof in Portland last June, has been dismissed, he proving an alibi.

Samuel Bauman will be tried for murder in Multnomah county on the 30th. He killed Adolph Burkhardt hallowe'en.

All ships coming into Astoria report the gale of last week as being one of unusual severity.

George H. Chives, a gentleman of

color, raised a row in the Southern Pacific diner Monday, because a white man objected to Chive's seating himself at the table located by himself. A race war was averted, but Chives got all swelled up.

The steamer Innaba, on the upper Snake river, was wrecked at Mountain Sheep rapids Tuesday morning. The passengers and crew were saved, but the boat and cargo are a total loss.

The steamer Pomona made the run to Albany Tuesday, the first trip this fall.

Kaiser Is Debilitated.

Berlin, Nov. 11.—This morning's bulletin says the kaiser is making normal progress, and was greatly benefited by yesterday's walk. The wound is beginning to diminish. Notwithstanding the favorable bulletin, it is learned the throat affection is not the only thing worrying the physicians, as the kaiser is generally debilitated. Physicians have cautioned him that it is necessary for him to husband his strength, as too much excitement might have serious results.

Captain Warner Discharged.

Seattle, Nov. 10.—Captain Charles Warner, master of the steamship Oregon, and Edward Healy and Charles Guntart, first and second mates, respectively, were discharged today upon a rehearing of the charge of cruelty made against them by Seaman John Low.

Fire at Constantinople.

Constantinople, Nov. 11.—A serious fire occurred at Kroba today. Many valuable public buildings were destroyed, and seven are reported killed.

PANAMA TAKES BOCA

Port Surrenders Very Graciously Without Firing a Shot

President Marroquin Says Colombia Would Pass the Canal Bill Next August

Colon, Nov. 10.—The steam launch sent to Bocas del Toro on Thursday last, to capture that place in the name of the new republic of Panama has returned here, and the officers report that the place was captured and the
