

LINN COUNTY NEWS

Wild ducks are reported very plentiful about Albany.

A. W. Davis, of Mill City, reports extensive development work in the North Santiam district.

The Albany city election will be conducted under the Australian law.

Dr. Darrin, who has been at Albany for six months, announces his final departure for Corvallis November 14th.

Another letter carrier is needed at Albany, two men now handling the mails not being sufficient. Monday there was 1332 pieces of mail that could not be delivered.

Democrat, Nov. 10th: Abe Hackleman arrived last night from his Crook county farm, where he has been several months, looking after his large stock interests. The drop in the price of cattle has considerably disturbed the business.

Accident at Mill City. Herald Nov. 11th: H. D. Myers, a young man in the employ of the Curtis Lumbering Company, at Mill City, was brought to Albany yesterday to secure medical treatment for an injured foot. He was thrown from a horse, and fell on a hillside in such a manner as to sprain one of his ankles and tear some of the tendons loose. He will be unable to walk without the aid of crutches for some time.

New Fire Alarm System. Herald, Nov. 11th: Albany's new fire alarm system will be in operation within 10 days, perhaps sooner. The work of installing it is now progressing rapidly, and, although the workmen have been hindered the past few days by unfavorable weather, the wiring is now almost done. The alarm boxes are already to be placed in position.

A force of men is now at work in the tower of the court house, where the

city fire bell is now located, making preparations to place the striking apparatus in position.

Mining on North Santiam.

Herald, Nov. 11th: A. W. Dawes, of Mill City, vice-president and one of the directors of the Lewis and Clark Mining and Milling Company, says that the company is doing active development work on its property on the Little North Fork of the North Santiam river, and intend to keep up the work all winter. Mr. Dawes was in Albany to secure more mining apparatus and the winter supplies for the men at the mines. While here he let the contract for the construction of an ore car to the Albany iron works.

Active development work has been in progress at the mine since October 1. A large crew of men are now engaged in sinking a new working tunnel through a quartz-bearing ledge and taking out paying ore. Two tunnels have already been completed. Several new buildings have been built at the company's mines this fall, to serve as the camp for a large crew of men all winter. More new machinery will be taken into the mines as soon as possible.

Mr. Dawes showed a reporter several samples of ore taken from the mines. He was very enthusiastic regarding the excellent prospects of the mines to develop into valuable property. Eight different samples of ore, from different parts of the property were recently assayed by J. H. Flak, of Portland, a mining expert and analytical chemist, and who has been appointed mining commissioner for the state of Oregon at the St. Louis exposition. The samples assayed an average of \$15.80 per ton in all metals. One sample gave an assay of \$41.24 of gold per ton, and another made \$26.67. All the samples assayed much better than was expected, and Mr. Dawes says the members of the company are jubilant over the prospects of their

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to take **Hood's Sarsaparilla and Pills**

Which thoroughly cleanse the blood, expelling all humors and building up the whole system. They cure

Hood's Sarsaparilla permanently cured J. G. Hines, Franks, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Weller, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of Hood's than can be published.

Hood's Sarsaparilla promises to cure and keeps the promise.

This will be the first group of mines to be actively developed in the North Santiam district. The South Santiam district has been pretty well developed, and, while good ore has been found, it has not been free milling, or of a very paying quality.

The North Santiam country bids fair to be a better mining district as the Lewis and Clark Company's property, and some other mines, give indications of being valuable property. It is thought that the North Santiam region will soon become known as one of Oregon's promising mining districts. As the district is tributary to Albany, local citizens are greatly interested in the development work being done there.

A Homeopathic Joke.

The ghastliest piece of humor possible is a supposedly funny story, which in the hands, or, more properly the mouth, of a story teller, gets told wrong end foremost, and has all the point doubled back on itself and

lost, the following from the Philadelphia Post, is a fine example:

"There were two twin sisters living up in my state," said Senator Burrows of Michigan, "who were fond of each other and all that, but who warred constantly about the two great schools of medicine. One pinned her faith to allopathy and the other to homeopathy.

"One day there was great excitement in the family of the lady who believed in homeopathy, and it was soon announced that she was the mother of bouncing twin boys.

"The other sister came down in a hurry. 'Well,' she said, 'now see what's happened. I wanted you to have an allopathic doctor. After this I fancy you will listen to me.'—Philadelphia Post.

A Klamath county paper says: "Ducks and geese are now plentiful. Morning and evenings they fly into the grain fields for the wheat kernels, and many of them return not to the river and pond. Besides feed and stubble there is the man with the gun somewhere under cover, and he's a poor shot who fails to bring down a goose or two. Waterfowl are fat and in splendid condition. Canvasbacks are unusually plentiful this fall."

This is downright cruelty to those who like to hunt, and have to put up with an occasional pheasant, up this way.

The Latest Yarn.

A Pittsburg drummer tells this new yarn: I always carry a bottle of Kemp's Balsam in my grip. I take cold easily, and a few doses of the Balsam always makes me a well man. Everywhere I go I speak a good word for Kemp. I take hold of my customers—I take old men and young men, and tell them confidentially what I do, when I take cold. At druggists, 25 and 50 cents.

CHEAP SUNDAY RATES

Between Portland and Willamette Valley Points.

Low round trip rates have been placed in effect between Portland and Willamette Valley points, in either direction. Tickets will be sold Saturdays and Sundays, and limited to return on or before the following Monday. Call on Southern Pacific Co.'s agents for particulars; 2.50 round trip Salem to Portland and return. 10-11f W. E. COMAN, G.P.A.

The Fall Clip at North Bend.

The Coast Mail prints a somewhat lengthy poem entitled "The Charivari," which for profound thought and reasoning as to the tangible results of the remote but apparently foreseen future, is a prize winner. The first two stanzas are given below, as a sample of the rhythm gathered by paying close attention to what the wild waves are saying:

Once upon a moonlight evening,
In the town of old North Bend,
I had just returned from Portland,
With my bride our joys to blend.

In the parlor we were sitting,
Thinking of the days to come,
Thinking of the happy family,
That would some day 'round us roam.

Like Good Indians?

"My dear Lacy," wrote a resident of Iowa to Representative Lacy, of that state. "I wish you would send me some of the bound copies of eulogies of dead members of congress. There is nothing I like to read so much as obituaries of congressmen."—Philadelphia Post.

STRONG TESTIMONY.

This is Salem Testimony and Will Stand Investigation.

If you doubt the following and wish to investigate, you haven't to go to some other state in the Union to prove it. It's not a long story published in Salem newspapers about a resident in Kalamazoo, Mich., or Tampa, Fla. It's about a resident of Salem and given in his own words. No stronger proof can be had.

William M. Spard, living at the corner of North Winter and D streets, says: "Words can not express my opinion half strong enough of Doan's Kidney Pills. I have known their remarkable merits for the last eight years having used them in Clinton County, Mich., where I was living. My kidneys were a source of annoyance for quite a number of years. I had much pain across my loins and the secretions from the kidneys were irregular in action causing me to rise often during the night, and at times there was a scalding. I also had more or less dizziness in my head. I procured Doan's Kidney Pills at Dr. Stone's drug store and gave some to a person visiting us and they gave her wonderful relief, and in my case I was benefited in every way. My backache was relieved and the trouble with the kidney secretions was corrected. You are liberty to refer to me as one who can endorse the claims made for Doan's Kidney Pills. I also know of a great many others who have used them with the best of results."

For sale by all dealers, price 50 cents a box. Foster-Millburn Co., Buffalo, N. Y., agents for the U. S. Remember the name Doan's and take no substitute.
