Temple of Herod at Jerusalem and reremple of Herod at Jerusalem and replies to invitations to admire it with BRIDE OF a prediction of its overthrow. He tells of the building of a tower, but only to point the moral of counting thecos t in advance, lest it be left unfinished. In the parable of the houses built on the rock and on the sand no details are given of the work

Even if he did make plows and yokes, as Justin Martyr says, it would seem to have been as a part of farm work rather than as a carpenter. That a preacher and teacher should have neglected to draw illustrations from his own trade or from the trade which he had seen his father practice when he was a boy, is incredible. the only conclusion seems to be that the passage in St. Mark's gospel is based on a misunderstanding of the fact stated in St. Matthew's, that Joseph had ceased to ply his trade before Jesus was old enough to be interested in it, and that Jesus himself.

Of course, from one viewpoint it

THE PACIFIC

(Concluded from page 17.)

animals, are used up every year in the work of the city and its industries. It s a sacrifice as great as in war, and the suffering is greater and more prolonged, and unattended by any stirring martial splendors. Well may we sigh for the horseless age.

I saw crates of ducks and poultry so near dead from exhaustion that they barely had life enough to squawk. How can people eat such poultry, after having seen it? The good thing is they don't see it, and it is nothing but what goes in any city,

At Pasco Friday there were several a train. The mercury was at zero, and women and children were freezing, with no fire in the waiting room shed, was not a carpenter, but a shepherd of the shed called a station at this faand no coal in sight. In the other end mous junction were the railroad men. yard in from six inches to a foot of water. They had been there for some time, as all look dejected and hung their heads. It was late, and I suppose they spent the night in that torture pen, where they could not lie down or stand up with comfort. Cortainly money made by cattlemen or transportation companies at the expense of such cruelty to dumb brutes will carry a curse with it, and we should not eat the beef.

According to a statement of the Sefrom 20 to 50 per cent of values. The powerful interests, like great corporations, are in one class and the smaller the practice of medicine, and now fry, like home-owners and small business men are in another. I leave the reader to imagine which. Only a law requiring publicity of assessments before equalization will ever correct this evil.

Seattle has her own water system, taking the supply from the Cedar river. The plant cost about \$1,500,000; of any private corporation: costs \$80. 000 to \$90,000 a year to operate and \$1. Called for and returned. produces \$300,000 net revenue to the city. An electric light and power plant is going in that will be still more profitable, also owned by the city, as the result of a fight made by the little one-cont Star.

I interviewed Mayor Humes, a very lever politician, who talked to me half an hour about his administration, but all his remarks sounded very fine to two or three callers who were in his office while I was there. He is a strong type, rough and ready, vital Western politician, who stands well with the "b'hoys," and the classes who attract most attention at the hands of the police, and get very little.

Will H. Parry, formerly editor of this paper, is in president of the city council, and one of those solid muldoons in politics. He has developed frem a small journalist into a municipai plutocrat, who has things pretty much his own way. He believes in stalwart Republican machine politics, bu, admitted that if tax levies ran up much more there would be no remedy but for the people to put in a business

Can she hump it like a hoss? No, she ain't in it wid de hoss,"-Const Mail;

A DISTRIBUTOR OF THE SURPLUS

The Distinction of the Government Printing Office.

It is believed in Washington that President Roosevelt means to ask congress to put the government printing office under the control of the dedozen passengers thrown off to await partment of commerce and labor, That office has an unchallenged distinction It is the most extravagant printing shop in the world, and prints the most worthless and superflous stuff. It can be defended only as the St. Louis "Progressive Printer" defends it, by working with warm fires, and tons of saying that the "Government vaults makes no difference what was the coke stored there. An old German would be gorged" if "some provision occupation of Jesus before he entered broke in on them, and demanded that was not made for distributing the surupon his ministry. But every detail, the passengers get shelter and plus revenue back into the hands of and the truth about it, in the life of warmth. Coal was "rustled," and the people." As a surplus distributor one who, viewed merely as a man, influenced human history more than any and chickens are not the only victims government printing office has unother is of universal and perpetual of cruel treatment. At Kent, Wash., questionable genius. Probably no Saturday afternoon, about 50 head of body will interfere with it, even when beef cattle were standing in the stock the surplus sinks into a deficit-"With the Procession," in the Decem ber Everybody's.
