# REPUBLICAN CITY CAMPAIGN

## The Republican Candidates for Mayor and Alderman Stand for All Possible Progress and Development of Greater Salem Consistent With Good Business Administration.

REPUBLICAN CITY TICKET.  
For Mayor—Frank Waters.  
For Alderman.  
First ward—Robt. E. Downing.  
Second ward—R. A. Crossan.  
Third ward—  
Fourth ward—J. Frank Hughes.  
Fifth ward—J. W. Young, Geo. F. Jacobs.  
Sixth ward—E. C. Churchill, Frank Smith.  
Seventh ward—Andrew Vass, Lee Atchison.

Frank Waters for Mayor.  
Frank W. Waters was born in Nebraska City, Nebraska. He has lived in Salem for over 30 years. During the first few years of his residence in this city Mr. Waters was a trusted employee of the Wells-Fargo Express Company. Later on he entered the business of abstracting land titles, which he has followed ever since, with the exception of four years as county recorder, also serving as deputy in that office and in the office of the county clerk. Mr. Waters is manager of the Salem Land & Abstract Co., and is a successful business man. Eleven years ago Mr. Waters married a prominent school teacher, Miss Jessie Northup, and resides in a comfortable home on Summer street. The friends of our candidate can be numbered by the hundreds, and his gentlemanly qualities have won him the esteem of all who have come in contact with him. He has been identified with many public-spirited movements, and always been a staunch Republican, and ever been a faithful worker for the party. With an irreproachable character and a loyal heart for Salem, Mr. Waters was chosen the popular candidate at an open primary, where the direct vote of the people was inaugurated by the party whose cause and principles he represents.

The Republican Ticket.  
The Republican candidates for aldermen of Greater Salem are clean and progressive business men and property owners. They will give the people an honest administration of public affairs.

The Republican candidates were nominated at publicly called primaries by direct vote of the people themselves, and they are not under the dictation of any machine or inside ring of any description. They are all men in the prime of life, with their best years before them, closely identified with the best interests of the city and its future. They are all public-spirited citizens, all bearing their full share of the burdens of carrying on the community. They are none of them office-seekers or professional office-holders, but stand flatly for the honor of this city and definitely for its progress and continued prosperity. If you want that kind of men in office, vote the Republican ticket next Monday.

No Personalities—But Progress.  
The Republican campaign will be made without engaging in bitter personalities. Dr. Cusick's opinion of Hal Patton or Rube Boise's opinion of Col. Hofer are, strictly speaking, not campaign issues.

There are great interests at stake in this city election, and there is no time to waste on abuse of any one. Personalities are thrown into the fight by the Citizens' press committee, to hide their own record, and to screen certain individuals who are grafting that organization to promote real estate deals, and escape their just share of the expense of needed municipal improvements. Better sanitary conditions, better sewerage, better water, better streets, are of more importance to the average citizen than bitter personalities. Let us work to put Salem in the best possible order, so that in 1905, when there will be thousands of visitors from the whole world to the Lewis and Clark fair, we can show them a beautiful Capital City, with well-improved suburbs—a Greater Salem that we can all be proud of.

The Haysedes Growing Liberal.  
In his speech explaining why he re-

signed, and was taking a brief rest from public duties, ex-Mayor Bishop says: "I do not believe in an absolute cheese-paring policy." But he opposes municipal ownership of water works, and opposes spending \$5000 on Wilson avenue, which no one has proposed. Then he grows suddenly liberal and favors appropriating \$500 to improve Marion square, and Wilson avenue. He should have thought of that while he was in office, and not go to dealing out the public funds so liberally after he is no longer where his talk will count. Promises made by him need not be redeemed by the next haysede council, if we happen to have one. The haysedes were appealed to for Marion square, and generously offered the Ladies' Improvement League \$50, which has never been paid. The ladies must receive the ex-mayor's generous hand-out with a smile, when they meet and take tea and cookies, at 10 cents apiece, to improve Marion square, and that from a man who is not in a position to deliver the goods. That is a sample of the "independent goods" that has been handed out to the public-spirited and progressive ladies of this city by the crowd who have rode on the hay wagon a little too long for the good of the city.

All Devoted to Hofer.  
The opening article in the "leased column" is devoted almost entirely to Hofer, of The Journal, and denounces him as a bad man generally. Let it be admitted that the man who wrote that article has been identified with the Citizens' movement from the start, but for what? In what capacity? He is a warrant shark, and when the Citizens' proposed to carry into effect the 4 per cent popular loan, as promised, this unselfish man resisted it with all his might, denounced it as a visionary scheme, and wanted to issue 5 1/2 per cent warrants. It will be remembered that Mr. Hofer, whom he attacks in so silly a manner, fought for the popular loan, and after it was inaugurated cheerfully sold what 3 per cent warrants he held, and bought 4 per cent bonds with the money. This same warrant shark has since learned several ways to "work" the "Citizens," and insists it is a good thing. The Republican column in this paper will not be employed for dirty personalities, or denunciations of good men in any party for political effect.

Take Their Bicycle Record.  
The bicycle record of the Citizens' administration alone should condemn it to eternal oblivion. An ordinance was passed last spring which virtually excluded residents of the suburbs, or people from the country, from getting into the city from any direction. It deprived business men of the trade of hundreds of wheel riders, who could go and come without violating the law, and being subject to arrest. There was no demand for such a sweeping restriction, and it was never petitioned for by any one. Then the Citizens' council was frightened, and repealed the Chinese wall ordinance. The mayor is not so much to blame as the council was for enacting a dead-end ordinance against all wheel riders. If they had never passed the law it could never have been revived by a veto of the mayor. Then, to crown the absurdity of their effort, they voted unanimously not to enforce the ordinance. Was ever anything more foolish attempted in the way of police regulation? No wonder none of their retiring officials were re-nominated.

Notice to Candidates.  
Republican candidates on the city ticket are requested to meet with the press committee this evening, at the office of the acting secretary, Jos. G. Graham.

Why strike at "Eddie Horgan"? Isn't that rather small for great big maguils and "beneficiaries" of the Citizens' movement?  
There never was as good a Republican city ticket put in the field as this one, and it deserves the support of every citizen who believes in Republic-

can principles, or who favors intelligent and progressive policies in municipal affairs.

Frank Waters will make a good mayor, who will be found able to attend to the duties of that office without getting unduly swelled up over the honor. He is a plain, everyday, honest citizen, and the man doesn't live who can say a word truthfully against his character.

An injection of Beecham's pills into the haysede campaign column in the Statesman was very appropriate.

If the Citizens' administration would compel the electric light company to give the city the light that they pay for every month, you could see a man on the opposite side of the street after dark. By the way, will the haysede campaign manager explain why there has been no reduction in lighting bills when the lights have gone out at different times, as used to be done? Such explanations would be more in order than pretended newspaper attacks on the lighting corporation.

A policy of honesty and justice towards all who have dealings with the city should displace favors to the few large interests. Let us have an administration that will deal justly and fairly with the suburbs, instead of taking their taxes and giving them back just as little as possible. Let there be no protection of a favored few, at the expense of the many.

J. Frank Hughes, in the fourth ward, will stand for opening streets through from the old city into Greater Salem, and that is what hurts the men who have got onto the neck of the Citizens' movement, and are riding it to death, to prevent reasonable improvements. Workingmen should stand up for J. Frank Hughes, and let there be more than one street out of the city to the south.

Frank Waters' clothes may not always be a perfect tailor-made fit, but he'll make just as good a mayor as if they did.

Voters, do not be deceived by the still-hunter who appeals to you in the name of God and morality to confine the present wide-open city, and in the same breath tells you that all this will be changed under P. S. Knight as mayor. Won't he have Judge Judah for city police judge and Doc Gibson for chief of police? In trying to round up for a pure administration some of these people will be found trying to ride horses going in opposite directions.

Of course, in the eyes of envious and spiteful moribund office-holders and politicians who have feathered their nests out of the public, and who are soured whenever they are not on the payroll, it was a crime for Patton Brothers to try to sell the old, historic Cooke mansion to the state for a home for the governor and his family. It would be a crime to get a liberal appropriation to improve Wilson avenue. It would be a crime to compel a few rich men to pay their share of street improvement, without which this city will never amount to anything as a desirable place for a workman to live. It is a crime to talk about progress. It is a crime to be a young Republican or anything else, or to do anything but what a little committee called together in Rube Boise's office tells you to be.

A special fight is to be made by the Citizens' managers on Lee Atchison, in the seventh ward, because he happens to be a member of the Clerks' Union. Mr. Atchison is a Republican nominee for alderman in the seventh ward, and Republicans should see to it that he is not beaten. It is not yet a crime to belong to a labor union.
