

AMERICAN ANNEXATION ISSUE

Last French Possessions in North America Want to Join Us

Halfway, N. S. Dec. 26.—To a majority of citizens of the United States the very existence of the islands of St. Pierre and Miquelon, the last possessions of the French in North America, is perhaps unknown, and to learn that in the insular campaign which closed today the chief issue has been the question of annexation to the United States will be all the more surprising.

The annexation issue has been uppermost in the campaign, notwithstanding the announcement from Paris that the French government was not contemplating the sale of the islands. The islands are valuable solely as fishing stations and this accounts in a great measure for the annexation sentiment that has lately developed here.

Most of the supplies are imported from the United States and the citizens believe that if the islands were sold to that country these necessities would be imported free of duty. They also argue that it would be a great advantage to be able to land their fish in the American markets free.

CHRISTMAS FOOTBALL.

Multnomah Boys Are Clever and Fine Young Fellows, But Were Outplayed.

The football game on Willamette field yesterday afternoon, between the two second teams of Multnomah club, of Portland and the Chemawa Indian school, resulted in a most decisive victory for the Indian team, the score, at the close of the game standing 13 to 0 in favor of the Indian boys; Multnomah was outplayed at every point, and at no time was the goal of the Indians in danger, for so well the youngsters from the school play, so thoroughly were they trained, and so prompt were they to obey orders and take advantage of every opportunity to gain on their opponents, that within a few minutes after the game started victory was conceded to the Indian boys, and

the question was only as to the size of the score.

In the first half the Indians scored a touchdown and a goal kick once, and were on the point of scoring a second touchdown when the half ended by reason of the time limit. Multnomah repeatedly tried to gain ground by punting, but each time lost from 15 to 20 yards, and by this was compelled to abandon this means of making gains.

In the second half the Indians again went at their husky opponents hammer and tongs, and soon scored a second touchdown, but in attempting to kick goal failed, the ball striking one of the goal posts. A third time they started into the field, holding their opponents down nicely, and pushed over the line, when, quick as a flash, Multnomah secured the ball and pushed it back over the line, and the Indians only gained two points on account of the touchback. When time was called for the end of the game the two teams were struggling in the Multnomah territory. The score at the close of the game was 13 to 0 in favor of the Indians.

The Multnomah team averaged in weight 162 pounds, while the Indians were 10 pounds lighter. The latter team was composed of a portion of the second team, with five players from the third team, some of the second team having recently been taken into the first.

Casey, for the Indians, was the star player, scoring one touchdown and the touchback, while Lane made the other touchdown, and made the greatest gains in yardage for his team.

The line-up for the two teams was: Multnomah. Chemawa.

WANT TAXES REDUCED.

Wish the Valuation of \$3.00 per Acre Too High. Attorney A. C. Wooncock, representing the Booth-Kelly Lumber Company, and Attorney L. Blyden, for A. D. Hyland appeared before the county board of equalization this forenoon and asked that body to Lower this year's assessment on timber lands. The board took the matter under consideration, and if any action is taken it will be done Saturday, the last day of the present of the board.

Assessor Burton this year fixed the

Training

Is indispensable to athletic success. In training, much stress is laid upon diet; careful attention to the quantity and quality of the food eaten, with regularity of meals.

That is the secret of strength for every man. No man can be stronger than his stomach. The careless and irregular eating, of business men, causes disease of the stomach and its allied organs of digestion and nutrition. There can be no sound health until these diseases are cured.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and enables the body to be built up into vigorous health by the assimilation of the nutrition extracted from food.

assessment on timber land at an average of \$3 per acre. This is much higher than it has ever been before, hence the complaint from the Booth-Kelly Co. and Mr. Hyland, the heaviest holders of timber in the county. Last year the assessment was from \$1.50 to \$2.00.

Messrs. Woodcock and Blyden, for their respective clients, ask the board to place the assessment on such lands to average \$2 per acre, instead of \$3.

So far there have only been nine complaints in regard to the assessments and the board has been in session nearly a week.—Eugene Guard.

Dowie's Farewell.

Chicago, Ill. Dec. 26.—In the Auditorium tomorrow Dr. Dowie, the self-styled "Elijah II," is to make his farewell public utterances in Chicago prior to departing for Australia for a visit of several months. He has announced that he will review his work of the last sixteen years, since coming to America, and it is expected also that he will turn the meeting into a celebration of his late victory over those of his creditors who sought to put a quietus on the enterprises Zion city by forcing Dr. Dowie into bankruptcy.

According to present plans Dr. Dowie will sail for Australia about two weeks hence, having booked passage from Vancouver. It has been freely intimated that it is his intention to never return to America, but these statements the head of the church of Zion vigorously refutes as malicious fabrications on the part of his enemies.
