

DEER ON THE INCREASE.

Efforts at Propagation Sear Fruit in New England State.

While persons report seeing deer somewhere in Connecticut every day or so, and while it is certain the number of the creatures is on the increase by importation. During the year a dozen have been brought in and deer from one state to another, on account of the laws of the various commonwealths, and it is due to the efforts of George T. Mathewson, of eries and game commission, and ex-Opvernor George P. McLean, an enthuslastic sportsman, that it has been penalble for those interested to obtain the animals.

The deer are kept at Tariffville in a six-acre lot and when they increase catarrh; that cannot be cured to much an extent that space cannot accommodate all comfortably, a number are liberated. The idea is that these will remain in the neighborhood, even though free, and will attract other deer into the state. It was shown by recent experiments that deer liberated from the preservdid stay in the neighborhood and when a few weeks ago one of the deer in the preserve escaped, a trapwas rigged up in the woods to cap ture it. About a month ago the trap only the deer that had escaped, but another, a fawn. The fawn was suffering from a gunshot wound and in apite of every care died two days

later. There are now in the preserve six deer.-Hartford Courant.

MacIntosh has letters from Mrs. Aikens' parents saying that they will gladly send her funds to return to them if she will agree to forsake her husband. But the soldler's wife has not reached the point where she will agree, and so the end is not yet.

MacIntosh visited the Brooklyn hotel, and the landlord relented to the extent of opening the trunk which he held for his bill and sending the unfortunate girl some of her clothing.

There are people who say that the benefit derived from the use of put-up medicines is imaginary. It is not the case with Dr. Pierce's Favorite Prescription, which makes weak women strong and sick women well. A woman may imagine she's weak, or may fancy she's nick, but her imagination can't add forty pounds to her weight. The positive proof of the curative power of "Pavorite Prescription" is found in the restoration of health which is recorded in face and form, of strength which can be tested, and weight which can be registered in

pounds and ounces.

The general health of women is so intimately connected with the local health of the womanly organs that when these are diseased the whole body suffers loss. "I am very glad to let other poor sufferers know what Dr. Pierce's medicines have done for me," writes Mrs. Edwin H. Gardner, of Beechwood, Noriolk Co., Mass. (Box 70.) "You know I wrote to you last summer. I read what your medicine had done for other people, so thought I would try it, and I found it was a blessing to me and my family. I began in June and took six hottles of your medicine, and three vials of 'Pellets.' I took your medicine a year when I had a ten-pound girl. I had the easiest time I ever had with any of my three children. I have been very well since I took your medicine. I took three bottles of 'Favorite Prescription,' three of 'Golden Medical Discovery,' and three vials of 'Pellets.' I had no appetite and could not eat much without it distressing me before I took your 'Pavorite Prescription,' and I only weighed 125 pounds. Now I weigh 175."
