

Five Quarter Dollars. A Good Umbrella

We would like to exchange the latter for the former. And we desire to call special attention to that adjective "good." It means that these Umbrellas will shed rain, no matter how fierce the downpour; will last for a long time; are sufficiently neat and attractive that no one need be ashamed to carry one, and are in all ways much better than this price usually buys. Surely you have use for such an umbrella.

By the way, we recover old umbrellas in satisfactory fashion at modest rates—literally while you wait.

PERSONALS.

Dr. J. H. Coleman left for Portland this morning.

Albert Stewart is in Portland for a few days' stay.

A. P. Morgan has gone to Portland for a few days' stay.

H. J. Ottenheimer was a passenger for Woodburn this morning.

Rev. Wm. Coney returned last evening from a brief visit to Albany.

G. G. Bingham went to Woodburn this morning on professional business.

E. C. Herren went to Aurora this morning for a short stay on his hop farm.

Paul Traglio returned last evening from Portland, where he spent his vacation.

Bert Marsh went to Portland last evening for a few days' visit with friends.

Miss Myrtle Schaefer, of Portland, is a guest of her brother, Dr. F. Schaefer.

C. L. Parmenter is in Gervais today, to institute a court of Foresters of America.

Mrs. E. Cooke Patton entertained about 30 friends informally Wednesday evening.

Miss Margaret Parkhurst left this morning for an extended visit to Klamath Falls.

C. F. Martin was a passenger for Portland this morning, going down on professional business.

Judge Burnett returned this morning from Portland, where he attended the Scottish Rite Masons' reunion.

Geo. C. Will was one of the crowd of Salem people going to Portland to hear Mrs. Patti sing last evening.

Mrs. Anna Culbertson and sister, Miss Zoe Stockton, are in Portland, where they went to take in the Patti concert.

C. F. Lansing returned this morning from Portland, where he attended the session of the fruit growers' convention.

Prof. J. L. Carter, former superintendent of the blind school, last evening for his home in Portland, after a short visit in this city.

Governor Chamberlain left this morning for Eugene, where he will act as one of the judges at the oratorical contest this evening, going to Portland tomorrow to spend Sunday.

Jas. R. Shepard, of Zena, one of the most prominent fruit growers of Polk county, returned last night from Portland, where he attended the sessions of the Fruit Growers' Convention this week.

The county court which has just adjourned audited bills at the January term aggregating \$6584.18, this covering the entire expense of the business of the county for December.

This includes salaries of officers, and the expenses of road work, which latter item alone reached the sum of \$3,335.28, and shows that road work in the county continues throughout the winter. The expenses for last year were \$75,690.18.

It is a beautiful thing for a grocer to do, to sell Schilling's Best; for the goods are good and the dealing is high; there's nothing higher in business.

TO PROBE SAUNDERS KILLING

First Pronounced Suicide, but Now Said to Be Murder

One Person Has Brought Suspicion on Himself—County Court Offers Reward

The Marion county court, at the request of Deputy District Attorney John H. McNary, has offered a reward of \$300 for the arrest and conviction of the murderer of L. B. Saunders, the hop dealer, who was shot to death in Butteville a short time ago, and by this act the court has taken a step that will be approved by every law-abiding citizen of Marion county, who desires to see justice done, and the guilty punished.

On the morning of the 19th of November, on the streets of the little town of Butteville, in the northern portion of this county, the victim of a tragedy was found lying dead, with two pistols beside him. L. B. Saunders, a local hop dealer and grower, and a man of prominence in that community, was the man, and his taking off was then, and is now, shrouded in deep mystery—a mystery that it is hoped may some day be explained, and which the county court last Monday decided should be probed to the bottom.

The story of the tragedy, so far as known, is still fresh in the minds of the readers of The Journal. On the morning of November 19th, Saunders' body was found, and, in response to a request by telephone, Coroner Clough went to the scene at once, empaneled a jury, and held the necessary legal inquest. At the investigation it was shown that the deceased had on the previous day gone from his home with considerable money, had spent some of this in paying bills, and had spent the evening at Strain's saloon in company with the proprietor of that place and Whitley and McArthur, the last one named a resident of Yamhill county, and the other two citizens of Butteville. According to the testimony of those three men, Saunders had several times during the evening complained of the presence in the town of a mysterious stranger, whom he feared. About half an hour before midnight Saunders left the saloon for his home, and a few minutes later the three men named left also, and walked up the street; Strain carrying a lighted lantern. According to their testimony, when approaching the street corner, they heard a shot beyond an intervening building, and, reaching the corner, they heard a second shot, and saw the flash of a pistol, and at the same time heard the falling of a body.

But this did not cause them to investigate, Strain, the saloon man, stating he believed at the time that a hold-up had occurred, and, having his day's receipts on him, he did not desire to mix up with hold-up artists, and he therefore went home. All three stated that no investigation was made by them, although the two alleged shots were fired with in 200 feet of the corner on which they stood, and immediately in front of a house.

When the inquest was held, it developed that Saunders had been shot in the left temple, the bullet penetrating the brain. The face was not powder burned, and the indications were that the shot had been fired from some distance. This was stated by Dr. B. F. Giesy to be the case, he testifying that the shot had been fired at a distance of from three to 12 feet. He did not remove the bullet, holding that it was unnecessary. The verdict of the coroner's jury was that the man had been killed by a shot fired from a gun in the hands of some unknown parties.

Later, after the inquest had been concluded, the physician and others in that section pronounced the case one of suicide, and Sheriff Colbath, who went on the ground the day following the inquest, also pronounced it suicide, and the matter was dropped. Now the relatives of the deceased, who are satisfied that it is not a case of suicide, but murder most foul, have started an investigation, and placed the case in the hands of some expert detectives, who are in hopes of soon running down the guilty parties, and it was to assist in this that the county court offered the reward.

Some of the people in Butteville at the time of the murder are suspected, on account of damaging statements made by one who had spent some time with deceased. This man is said to have come to the residence of the murdered man's family, while intoxicated, and there protested his innocence of the murder, when no one suspected or accused him of the deed, and this occurred so often that the finger of suspicion finally turned toward him, and his friends, who are now said to be keeping a close watch upon him, to prevent him making further damaging statements.

Mr. John Bruckman lost an arm at the electric light station about 6 o'clock this morning. He has been a trimmer, and has only recently begun work inside. At 6 o'clock a pulley, stopped at 10 o'clock last night, is set running. He was reaching in between that pulley, the inside of which was revolving, and the adjoining pulley going at full speed, when his right arm caught either on a clutch or oil cup attachment, and was completely severed between the wrist and the elbow. The hand was not even scratched. It was left in the machinery and afterwards pulled out. Mr. Bruckman rushed to the telephone and called his brother Louis, and then, after doing what he could to stop the flow of blood, ran to the house of Dr. Goff, only a few blocks away, where he was attended to and Dr. Wallace and Davis called. The arm was dressed, leaving a short stub below the elbow, and he is doing well. This is the first accident of any consequence that has ever happened at the Albany electric light station.

Mr. Bruckman is the second son of Mr. Fred Bruckman. He is married, and has two or three children, and resides in the southern suburbs of the city. A general sympathy is being expressed for him and his family in their misfortune.—Albany Democrat.

GRAND PICTURES ARRIVE

Are Being Framed and Will Be Exhibited Next Week

Salem Public Schools to Have Art Display Superior to Anything in the City

Few people have any conception of the grand quality of pictures that are being secured to permanently adorn the walls of the public schools. The first lot arrived and have been placed in the picture stores to be framed, and a few of them are appearing in the show windows.

The collection, when completed, will comprise photographs, carbon prints and steel engravings and photographs of the great masterpieces of art from all over the world, and the Salem public schools will have the finest public collection of great pictures of any public or private schools in the state. There are not as fine pictures in any of our private residences, and the result of bringing these pictures to Salem will be that many persons will want some of them for their homes.

The Horace K. Turner collection of about 200 pictures will arrive in time to be on exhibition at the armory Wednesday forenoon. With few exceptions they are different from the subjects from the Elson collection, but are all large pictures, and each one a grand production of some famous work of art. With the pictures bought from the proceeds of the previous exhibit the whole display will be a grand one.

At the House Furnishing store are displayed two Van Dyck's "Children of Charles the First," the most beautiful child pictures in the world.

Hoffman's "Christ and the Doctors," Corot's "Landscape," Sir Joshua Reynolds' "Innocence," Lerolle's "L'arrivee des Bergers," Washington Crossing the Delaware, Correggio's "Holy Night," St. Gauden's "Lincoln," Millet's "Gleaners," Rafael's "Sistine Madonna," Sir Gallahad "The Angelus."

At Buren & Hamilton's can be seen Kaulbach's "Die Mams," Landseer's "The Monarch of the Glen," Ploekhorst's "Der Gute Hirte," Millet's "Feeding the Birds," Boughton's "Pilgrim Exiles," and "The Return of the Mayflower," Dupre's "Haying Time," and "The Approaching Storm," Bate's "Departure of the Mayflower," Marshall Johnson's "Ship at Sea," Braith's "The Home Coming Flock," Rosa Bonheur's "Brittany Sheep," Stratford on Avon.

Board of Control.

The board of control, consisting of the governor, secretary of state and state treasurer, for the appointment of the commission to license and control sailor boarding houses, met at the capitol yesterday afternoon and organized by electing Governor Chamberlain president and Mr. Dunbar secretary, with W. N. Gatens clerk of the board. The resignation of Commissioner E. W. Wright was received and accepted, and the board will, in a few days, decide on his successor.

A Chance For Men

Of Economical Turn of Mind.

Now is the time for men who like to wear the best, but still do not care to pay the usual price for top-notch quality.

In a few days we'll be receiving invoices for spring clothing. Counters must be cleared and that quickly. That's why we've slashed the prices on hundreds of up-to-date suits regardless of what they sold for or what they cost. The point now is to make them go, and these cuts ought to do
