 Our competitors prophesied we would get into trouble and sure enough we have. But fortunate for us the trouble comes in a different way than was anticipated. Its the pulling down of walls, enlarging and remodeling of our corner store that puzzles us. The store and basement fuller than ever since we moved our ladies' goods from our other store, and we must have room for coming goods, and mechanics must have room to work. Our only salvation is to get you to carry away the goods, and to persuade you to do so we offer great inducements in the form of a

**"BUTCH" SHOOTS WHITE**

**W. F. Butcher of Baker City Has a Shooting Scrape**

**Puts Two Bullets in His Opponent-- One in His Neck May Cause Death**

Baker City, Or., Jan. 16.—W. F. Butcher, one of the leading attorneys of Eastern Oregon, shot J. C. White a prominent sewer and waterworks contractor, last night about 9:15.

Butcher shot twice, one ball passing through the fleshy part of White's right arm, and the other striking him in the side of the neck. White was able to walk from in front of the post-office, where shooting occurred, to a newspaper office, almost a block away, where he stopped and medical aid was called.

White was taken to the hospital, and Drs. McDaniel and Atwood, who have examined his wounds, say they can not say what the result will be until later. The wound in the arm is not serious, but up to the present time the ball which entered the neck has not been located. The wound in the neck is very near the jugular vein, and the doctors fear to probe for the ball.

Butcher walked to Justice Messick's office and gave himself up immediately after the shooting. Butcher refused to make a statement tonight further than to say that White assaulted him and he shot him in self-defense.

Eye-witnesses to the shooting say that White accosted Butcher as he came down from his office, which is over the postoffice. White is said to have exclaimed:

"Are you ready, Butcher?" and to have started forward in a threatening manner, when Butcher drew his revolver and shot twice.

The trouble grew out of a contract in which White and Butcher are interested at Weiser, Idaho, for the construction of an electric plant and waterworks system. White says that Butcher drew a gun on him in Butcher's office this afternoon. Butcher denies this.

White said that he went to Butcher's office this afternoon, and they had trouble, when Butcher picked up a large seal and was going to strike him. Oscar Correll, Butcher's partner, interfered, and prevented them from coming to blows.

Afterwards White says Butcher went to a grip and took a revolver from it, which he put in his pocket. White told Butcher at the time that when he met him on the street he would thrash him. Butcher was placed under arrest, and released on bonds.

Butcher's bonds were fixed at \$5000, with charge of assault with a dangerous weapon. John Waterman and Fred Lack became his bondsmen.

The latest reports from White are that he is resting easy. The doctors are not yet able to give an opinion as to the extent of his injuries.

**New Enterprise in Lake County.**

The Paisley Post reports that the work of building a dyke, two miles long, across the bay at the southeast end of Summer Lake, is being pushed steadily forward. The purpose of the enterprise is to secure the vast deposits of salt on the bed of the bay. The area of the bay cut off by this dyke is over 2000 acres. An acre of water to an average depth of one foot when evaporated leaves over 50 tons of the salts. This immense vat of 2000 acres will produce over 100,000 tons of salt in a season.

**Have Time by the Forelock.**

The Woodmen of the World have frequently arranged a special day at the Oregon state fair, and it has always been a success, and a profitable arrangement for the fair, as well as

a good thing for the lodge. Last year they tried the same thing, but were too late to be able to complete satisfactory arrangements. This year they propose to be on time, and last night a committee was appointed to confer with the state board, and take steps toward securing a place on the program for fair week. The committee consists of F. F. Toews, J. J. Loncore and H. H. Turner.

**JACK RUMSEY'S SECRET FOR SECURING SLEEP.**

**A Missouri Pacific Railroad Conductor Tells How He Prevents the Wreck of His Nerves.**

A great deal of fatigue and anxiety is housed up in the little red box that swings at the tail end of every freight train and shares in every jolt of the string of heavy cars that precedes it on the rails. The men in it are good, hearty fellows who bear cheerfully the hazards connected with the great problem of transportation. They the astir night and day on a vast network of lines over the globe, and the sympathies of tens of thousands of peaceful little homes go with them on their runs. Irregularity in meals and sleep, delays, wrecks, washouts, landslides, breakage of machinery, extremes of cold and heat, are a few of their discomforts. The great public, sleeping complacently all night, must have its supplies in the morning and these are the men who must get them through at the cost even of their lives.

Mr. Jack Rumsey, of Council Grove, Kansas, is an energetic, frank, good-natured member of this brotherhood and he bears a load of worries that makes it necessary for him to seek help at times to keep his excited brain and nerves from wearing him out. He says:

"What troubled me most for a long time in my occupation was my inability to get sleep when the chance came and a most irritating sensitiveness of my whole nervous system, growing out of the irregularities and anxieties connected with my daily work. Three or four years ago a clerk in the superintendent's office of the Missouri Pacific railroad, at Osawatimie, Kansas, advised me to use Dr. Williams' Pink Pills for Pale People. I acted on his advice and got help right away. Two or three boxes made me perfectly well. So I keep them on hand all the time and whenever the strain begins to tell on me I take a few doses and they set me all right again. They quiet down my excited nerves and make it possible for me to sleep just like a child. They are mighty good medicine for a railroad man. That is the absolute truth, as far as my experience goes, and I am right glad to recommend them."

Dr. Williams' Pink Pills for Pale People are unlike other medicines because they act directly on the blood and nerves. This makes them invaluable in such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness, either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box, or six boxes for two dollars and fifty cents, by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.
