

### BEARING DOWN PAINS

3647 Indiana Avenue.  
CHICAGO, ILL., Sept. 27, 1902.  
I have been a sufferer with almost every kind of female trouble for years, but as long as I could get around and do my work I would not try patent medicines as I had no faith in them.

About eight months ago I had to take to my bed, suffering with prolapsus of the uterus, with bearing down pains and intense pains in the back. My aunt, who came to nurse me, told me of Wine of Cardui and sent for a bottle. I am indeed glad that she did, for that first bottle started me on the road to recovery. In a few weeks I was out of bed and in three months I was in better health and stronger than I had been in years. I take a dose now, occasionally, of Wine of Cardui and am kept in perfect health.

*Mabel Cook*  
Sec'y. Woodman's Circle No. 70.

Wine of Cardui brings certain relief to women suffering any symptom of female weakness and perfectly regulates the menstrual flow. Wine of Cardui stops bearing down pains by permanently relieving the irritation which weakens the ligaments holding the womb in place. You need not suffer every month if you take this medicine. The periodical discharge will be painless and healthy without continual weakening drains. Wine of Cardui will make your health right and you may treat yourself privately in your own home. Secure a \$1.00 bottle of Wine of Cardui from your druggist today.

## OREGON LOSES KLAMATH

### Building of the Klamath Road Captures the Trade

### The County Is an Unsettled Empire Whose Settlement Will Give Millions to California

The Sacramento Union, whose editor is familiar with the potential wealth of the Klamath basin, prints the following editorial showing how the Klamath River railroad establishes the connection of the region with California and must divert the trade to that state:

Among the developments of the past year tending to the enlargement of what we may call the general sphere of California trade influence.

but which has attracted little public notice, is the building of a railroad from the point where the Southern Pacific line crosses Klamath river, into the basin of Southeastern Oregon. This little road, now something like 30 miles long, follows the general line of the Klamath river in a northeasterly direction, piercing the mountain barriers which separate California from Oregon, crossing the state boundary a short distance above Klamath Hot Springs, and entering the fine timber belt which lies between Klamath lake on the east and the Cascade mountains on the west. The nominal purpose of this enterprise is to reach the Klamath timber belt, but that behind this purpose there is a larger one related to the permanent commerce of the country, is made manifest by the fact that the work of construction has been done in the most thorough manner and that the work of construction has been done in the most thorough manner and that arrangements have been made at a point on Klamath lake looking to the establishment of terminal facilities. Some 12 or 15 miles more of construction from Pokeyama, the present northern terminus of the line, will carry it forward to a connection with navigation on upper Klamath lake.

The great basin of Southwestern Oregon thus approached for the first time by an effective system of transportation is the largest remaining district in the United States wholly undeveloped in a transportation sense. It is a country as large as the state of Ohio, with a thousand elements of potential wealth, but which up to this time has been held in the bondage of an almost absolute isolation. The five or six thousand people who occupy this great region are devoted exclusively to the stock industry and live practically the lives of pioneers. It is useless to produce anything which cannot walk out to market, therefore, nothing in the way of community industry is attempted excepting animal husbandry. Wide areas of the most beautiful country lie barren and waste because cultivation is useless where there is no means of getting to market.

It has long been a question with those who know anything about the Klamath region as to whether it belongs commercially to California, to Oregon or to the commercial cities of Utah. It is approachable by practically level routes from the north, from the east and from the southwest; and the soberest judgment has been that the future commercial connection of the country depends largely upon which of these three routes was first to be opened. This point has been determined by the enterprise of the Klamath lumber country, of which Mr. Hervey Lindley, of Los Angeles, is the most active spirit. The Klamath River railroad, which has now penetrated to Pokeyama and which must soon reach Klamath lake, cannot fail to establish the line of commercial interest southward—with the commercial cities of California. One railroad will for a long time be ample for all the needs of the Klamath basin. This road, now nearly constructed, establishes the connection with California and it will probably have no rival for many years to come. California, through Mr. Lindley's enterprise, has at least won the first move and will probably be able to retain the very great advantage gained.

### Deafness Cannot Be Cured.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## "Played Out"

Is one of the curious expressions used for worked out. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills.

"I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Mary Shappell, of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the household work for three in the family. I had such pains that I suffered almost death dozens of times, but after taking five bottles of your medicine I can truthfully say that my health was greatly improved. I have a good appetite and am gaining in flesh right along. This spring is the first time in five years that I have done my house cleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done."

"My gain in weight has been just ten pounds, and I am still gaining."

Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or for cloth-bound book, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

# \$150 TIFFANY DIAMOND RING FREE \$150

## JOURNAL DIAMOND UNKNOWN NUMBER GUESSING CONTEST

### EVERY SUBSCRIBER TO HAVE AN OPPORTUNITY TO GUESS ON A \$150 DIAMOND RING

### Beautiful First Water Stone Set in a Tiffany Gold Ring Given Away as An Expression of Good Will Toward Subscribers

### Your Choice of 975 Numbers, Any One of Which May Be the Unknown Number That Gets the Glittering Diamond ---No Possibility of Any Crooked Work.

The Journal has placed an order through the C. H. Hinges Jewelry House for a \$150 diamond of the finest water, to be given away to subscribers to Daily or Weekly Journal—for each dollar paid the subscriber is to have one guess at an unknown number of three figures, that will be placed in a sealed envelope. This is not a drawing, lottery, or gift enterprise of any kind—but a mere innocent, harmless guessing contest that will make some one richer by a present of a fine \$150 diamond set in a Tiffany gold ring.

#### How to Participate.

For each receipt of one dollar for the Daily or Weekly Journal, to any address, the person to whom the receipt is issued, will be given an opportunity, absolutely without cost, to have a guess at the unknown number, and the person or persons guessing nearest that number will receive as a present and without any compensation whatever, and merely as an expression of good will on the part of The Journal toward its subscribers, the \$150 diamond Tiffany ring advertised in this paper and on exhibition at the jewel store of C. H. Hinges, 23 State street, Salem, Oregon. The party paying one dollar or more shall receive a receipt for each dollar paid, and have the opportunity to guess a different number for each such receipt paid. No commission is allowed to any agent or solicitor for securing subscribers, and the person so subscribing does it with the understanding that the Daily or Weekly Journal is accepted as payment in full for the money paid.

#### Unknown Number—How Prepared.

The unknown number that is to be guessed was made up in the following manner. The ten numbers from

nought to nine were put on separate slips of paper and folded so as to be unseen, and a committee of subscribers was asked to conduct the assembling of the unknown number. This unknown number was formed at The Journal office on Monday, January 11, 1904, in the following manner: The ten numbers from naught to nine, inclusive, on separate slips of paper, in small sealed envelopes were placed in a box, shaken, and a blindfolded person in the presence of the committee drew out three of those ten numbers, marking the first one, the second two and the third three in figures, and they were then placed in a large envelope, sealed up and placed with the diamond on exhibition in the jewelry store show window each day during the guessing contest, and will not be opened until the contest is closed, when the diamond will be given to the nearest guesser. The unknown number will be formed by putting together the three numbers in the order as marked, one, two, three, on the envelopes in which they are contained. The unknown number will not be assembled until the guessing contest is completed, and publicly announced to subscribers.

#### Limited Competition.

The number of receipts issued in this contest will be limited to the number of guesses possible in the range of the numbers between 015 and 987, as the unknown number must be composed of a figure within those limits. The unknown number cannot be less than 012 nor more than 987.

To be a perfectly harmless and innocent and amusing guessing contest the number to be guessed at must be and remain absolutely unknown. There must be no chance

for any crooked work on the part of The Journal publishers, of the jeweler furnishing the diamond, nor on the part of any subscriber. The receipts for this guessing contest will be numbered in duplicate, but the stub will be only for the purpose of identifying the subscriber who is the successful guesser—each subscriber writing the guess number on the back of his receipt—each one making his or her own guess at the unknown number. As soon as the receipts are all sold the guessing contest will be over and the nearest number awarded the diamond.

#### How the Guesses Are Made.

On securing a receipt for one dollar or more, the person wishing to guess will write his guess between the above numbers on the back of the receipt in ink or indelible pencil, writing only one guess on each receipt, and depositing the same in the soldered tin box provided at The Journal office for that purpose. Subscribers out of town will be allowed to make their guess in the same manner. Receipts will be mailed them, and they can return the same, with their guess written on the back, in a sealed envelope plainly marked "Journal Diamond Guessing Contest," and they will be deposited in the box. The soldered tin box will not be cut open until all the receipts in the guessing contest are sold—975 receipts in all.

#### Receipts Now Ready.

Subscribers can now get their receipts and begin making guesses to secure the \$150 diamond. Subscribers by mail and at Journal special delivery stations in the suburbs of Greater Salem will all be given the same opportunity to guess.
