DAINGEROUS IN POLITICS.

It is a notorious fact that women are undeveloped in many respects for instance in playing euchre, and hence unfit for the ballot.

The frequency with which they are bringing suits to collect pay for kisses they have given some man is another argument against them.

They would insist on all campaign pledges being kept to the letter or bring a breach of promise suit.

There are many newspapers and politicians who flatter the women with promises of the ballot and then don't keep their pledge.

All such would have damage suits on their hands, and there are few prominent politicians in Oregon would escape indictment.

If a majority of the men and a majority of the women were favorable to suffrage, many "editors" might favor this dangerous element.

Some would be outspokenly for the woman suffrage amendment if they were dead sure that it would carry, who are now against it.

THE IDEAL COLLEGE PROFESSOR.

The qualifications for the ideal college professor, as outlined by President Harper in a lecture at the University of Chicago on "The Faculty of a College," are:

1. He should be married.
2. He should be a church member.
3. He should not mix with his students outside the class room.
4. He should have a doctor's degree.
5. He should be willing to work hard eleven months in the year.
6. He should be in sympathy with the public and take an active interest in public affairs.

"The college professor who is married," said President Harper, "will do three times as much good in his position as one who is single. And if he has three or four children he will be still better, for he will be a stronger man."

The above is all on the plan that the ideal college professor must be a "he."

The nearest an ideal college professor this writer has known was a woman.

In fact, the influence of sweet, pure, clean women in the colleges approximates nearest the ideal in educational conditions.

THE IDEAL COLLEGE PROFESSOR SHOULD NOT BE MADE A MATTER OF SEX, BUT A MATTER OF ENDOWMENT AND CULTURE ON THE PART OF THE INDIVIDUAL.

POSITIVE QUALITIES PAPER.

A subscriber writes The Journal that he likes its positive qualities. He says he likes it because:

It is positive for the Greater Salem charter because it believes it is right and sticks to it.

It is positive for street improvements because it believes that is right and sticks to it.

IT IS POSITIVELY AGAINST WOMAN SUFFRAGE BECAUSE THAT IS ITS EDITOR'S HONEST OPINION AND CONVICTION.

It is positive for the present delegation in congress and the senate because they are better qualified to serve the state than any new men we could send there, and just as good Republicans as any.

Of course, there are persons who do not like the positive style of newspaper, but the masses of the people respect a flat-footed stand for or against any public matter, even if they differ from the stant.

A PROFESSIONAL NURSE PROMOTED.

It seems that a plain, country girl by the name of Miss Wright, daughter of a poddler by the name of Amos T. Wright of Augusta, Maine, has made a great hit in the millionaire circles of New York City.

She studied nursing and was practicing that profession. A young blood of New York, by the name of Stillman, who belongs to the millionaire class, was a student at Harvard. He was a good young man, not an athlete nor a football roofer, but, on the contrary, a Sunday-school worker, and the like. He taught a class in a mission Sunday school.

Finally, about three years ago, he fell sick of typhoid pneumonia. He had a long convalescence, for many weeks he was on the verge of the grave. A professional nurse was employed. Miss Wright happened to be the one. She read to him, she waited upon him in every detail, and became his daily companion for several weeks.

Young Stillman fell in love with her, notwithstanding that she was five or six years older than he. After he became well he wanted to marry her. She reluctantly consented and at last they were married.

The ceremony was performed in a little Episcopal chapel near her home. There was no attendant.

Mr. Stillman at once took his wife to New York, and they were feted and feasted by the elite. A country girl and a professional nurse was accepted at once into such circles as are presided over by J. Pierpont Morgan, Rockefeller, Gould, Sage and others.

This event has caused considerable astonishment and remark all over the United States. It is thought to be an exceedingly gracious and singular thing that our aristocracy has at once accepted and owned a coun-

try girl and a professional nurse.

THERE OUGHT TO BE NO SURPRISE AT SUCH AN EVENT. IF THEY ARE GOOD ENOUGH FOR HER SOCIETY, SURELY SHE IS GOOD ENOUGH FOR THEM.

The fact that she earned her living as a professional nurse ought certainly to outweigh the fact that they have never earned their living, but have spent lavishly the money earned by other people. If she can put up with their company, they certainly ought to be proud of her.

JOURNAL X-RADIUMS

Mrs. Ordinary Ability.—"I wish you could get some rich office, so we could have a nice house."

Mr. O. Ability.—"Why we have a comfortable home."

Mrs. O. A.—"Well but look at the Jenkinsees. They have a fine house, have servants, and an auto."

M. O. A.—"But they haven't got a baby."

Hon. Geo. C. Brownell was in town Saturday, and no one had a fit.

There are signs of repentance on the part of congress. They actually voted not to allow themselves double pay in violation of the constitution. Next they will abolish poker from the national capital.

The Monmouth Normal School basket ball team of young ladies play rough ball. If they only had the ballot, they would be a good crowd to hustle the primary or bulldoze election judges. As the appropriation for those schools is clearly unconstitutional, why should they have any regard for other people's constitutions.

The results of the united prayer meetings in Los Angeles for rain would indicate that the prayer of the Californian availeth little.

The movement to make South Commercial street navigable at all times of the year is all right.

It is a good thing that probably few members of the legislature will see the current number of Hon. R. P. Hume's radium, in which he comments on the special session. Mr. Hume is a man of some property, some intelligence and some independence, while many of the members of the legislature read nothing but the Oregonian.

No gold in the United States treasury vaults, and still the government lives.

The leading liberal and progressive clergymen of different churches at Portland have come out in favor of open Sunday at the Lewis and Clark fair.

Having broken the automobile record, Wm. K. Vanderbilt is probably ready to die, and there seems little else for him to live for.

A subscriber is informed that the Baker Stock Company is a theater troupe, and in no way connected with the stock business.

Mayor Waters deserves credit for promptly putting an end to the ancient graft of filling in private property with public street scrapings.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists 75c. Hall's Family Pills are the best.

Armory Talk.

Adjutant-General Finzer was in the city last evening from Portland, and he discussed the matter of an armory for the local militia company. The plan is to ascertain if such a building could be secured at the hands of the county, as offers have been made to pay for a lot with private funds, if a good, substantial building would be erected by the county for the use of the military.

He also discussed the matter of the proposed Pacific coast maneuvers and encampment for next summer, which will probably be held in California. The plan is now to throw the two departments on the coast—the Colum-

bia and the Pacific—into one division, to be placed under the command of General MacArthur, and have extended maneuvers for the regular army troops in the Pacific coast country and the militia in the states of Oregon, Washington, Idaho, California, Montana and Utah.

Millionaire's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over 25 years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system, and makes life worth living, no matter what your station. Trial bottle, 25c; regular size, 75c. At all druggists. At Dr. Stone's drug stores.

General Fund Exhausted.

State Treasurer Moore yesterday afternoon began to endorse all large warrants drawn on the general fund "not paid for want of funds," as the general fund is now exhausted. This condition of affairs will only last a few months, as taxes are expected to begin to come in from the several coun-

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alterative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.
