

UNCLE JESSE BENNETT

Has His Howl at the
Expense of the Jour-
nal Editor

He Even Has the Nerve to
Get off a Drive at Our
National Dish--Would-
n't that Convince You

Mehama, January 27.

Editor Journal: Your appearance in the columns of your paper, as a champion against woman suffrage has finally caused a few brave spirits to show their bravery. One signs his name "Citizen, Bravo;" another signs something else, and a third, having conviction in favor of woman suffrage, was intimidated, seeing the Goliath with drawn sword, challenging not only the Statesman, but all other papers and all the combined forces of manhood and motherhood, saying, I led the citizen's ticket to victory and led the G. O. P. to victory and I will be your Moses to lead the anti-suffragists to final victory. I trust that we will be able to convince our mothers that they should be content to instruct their sons to be good boys and mind their mothers and sisters

WHY MOTHERS WORRY

Did you ever hear a mother worry over a plump child? There is no better bank of health for a child to draw from than a good supply of healthy flesh.

Scott's Emulsion not only gives a child weight and plumpness, but it feeds the brain, bones and nerves with strength and active power.

Fewer mothers would worry if they knew more about Scott's Emulsion.

We'll send you a sample free upon request.
SCOTT & BOWNE, 409 Pearl Street, New York.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. Isa O. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

till they are big enough to join a Republican club or some other club or lodge and then, we men that have voted ourselves the right to vote will say to their boys as they come into business spheres, break off those apron strings that have been such a blessing to you; you are now men. Say to your mothers and sisters you have done your work well in raising the family, but it takes editors and politicians to vote and teach them from this time on. I believe if the good women of our country were to stand in one line and the male voters in another, after deducting the hoboes, jailbirds and other lawless characters, there would be an overwhelming majority of women. Ought not these to have the sacred right to express their wishes as to good laws at their ballot boxes, and would they not in the nature of the case be apt to vote for a better condition of things than now exist? Just as the stream can never rise higher than the fountain head, so the boys of our country who are trained by their mothers for good citizenship can never be better qualified to vote for the best interests of our nation than the mothers themselves. Now, Colonel, we recognize your right to the bronco, or bunch-grass, or whatever you please to call it, and your right to buckle on the spurs, but after you try to ride rough shod over the best political, moral and religious sentiments in Oregon, I think the people will pelt your bronco with ballots till he dies, and you yourself will be so badly used up that you will have to get another barrel of saurkraut.

J. T. BENNETT.

GREATER SALEM DEFENDED

Those Fight Charter
Who Want Privileges
Without Taxation

Men Who Have Dodged City
and County Taxes All
Their Lives Want to
Continue

Editor Journal: I see the cat is out of the bag at last. I am glad of it, for it gives us common thinkers a chance to know who we are "up against." I saw ahead as soon as the smoke over the "Greater Salem" matter began to clog up our papers and fill the air. It wasn't very hard to conjecture as to who was suffering from the misuse of that inoffensive little word, "Greater," after several scalding, boiling and scorching hot articles appeared upon our otherwise serene public. But evidence was necessary to locate the conflagration. I noticed in a local paper today an item which paves the way for later developments. After looking over past political affairs and the positions assumed upon different matters of public importance, it is plain to be seen that some of the taxpayers who have been exempt from city taxes for the last century (more or less) and who strenuously objected to the passing of the new charter, and who fought it at the last city election in

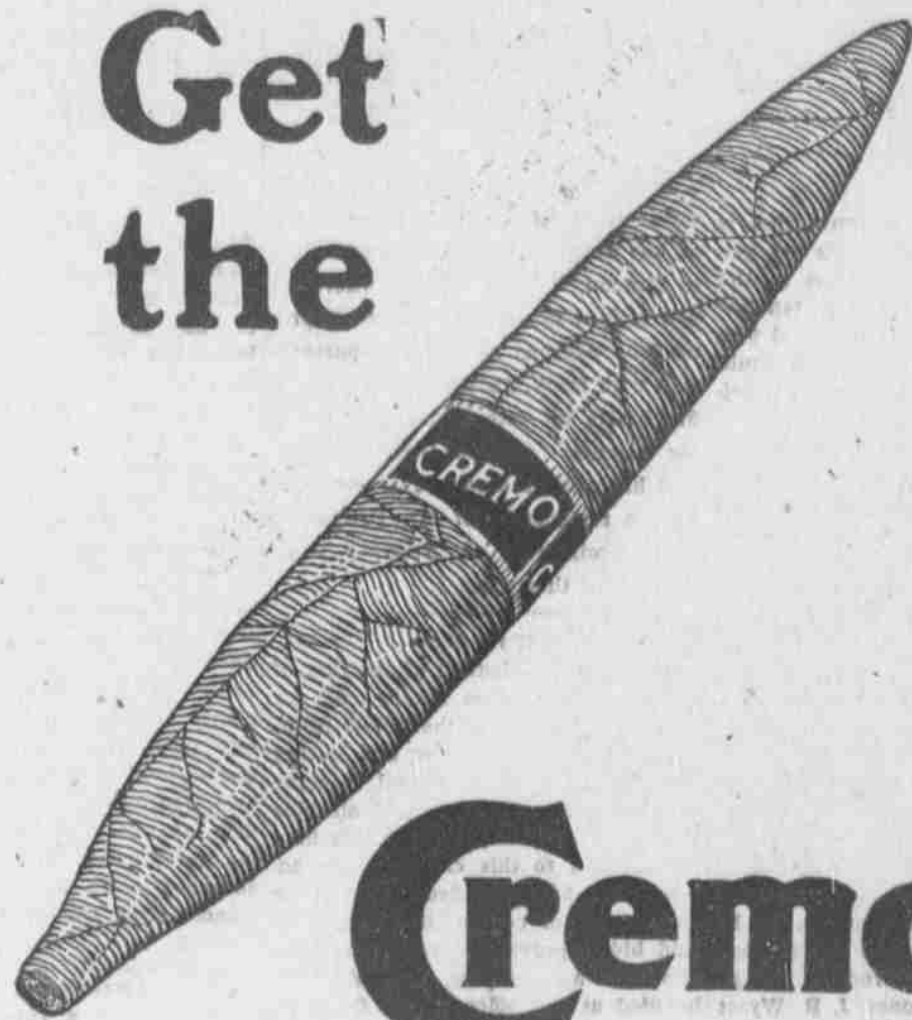

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair,
No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

every way, are using posthumous leased columns for agitating the matter, and by wielding the legal scarecrow expect to escape further taxation, while yet enjoying every improvement and advancement of the city with the naturally accruing valuation to their own property. Recent efforts to engage competent attorneys have flatly failed and hot air in the newspapers will not carry the "back-to-the-woods" movement very high. What on earth this dead thing means now by coming to life common-sense reasoning fails to disclose. It is certainly not very creditable to the town to have its moss backslam grow so thick that the newcomers and progressive men are compelled to have a Greater Salem to be able to get a move on the town. Let's

bury this dead issue in "Greater Aumsville"—by way of a joke.
NICK CARTER, JR.
Salem, January 30, 1904.

Pretty Safe Rule to Go By.

When there is a feeling that the heart or lungs, blood or liver, brain or nerves are diseased, at once commence to doctor the stomach. This is the foundation of the trouble in 90 cases out of every 100. Commence to regulate the digestive organs, get them in healthy working condition, and the other troubles will leave of themselves. Diseases which have their beginning in the stomach are cured through the stomach. The medicine for stomach disorders and half the ills of life, is Dr. Gunn's Improved Liver Pill. They are sold by all druggists for 25c per box. One pill is a dose. These pills put all the digestive organs in good condition so that disease has no basis to work upon.

Ditch breaks channel.

Manager Babcock of the Salem Flouring Mills Company's plant and ditch, went to Aumsville this morning to look after the work of confining the ditch to its channel at one point near that town, where it is doing some damage to a farm. The channel is very crooked at that point, but efforts will be made to straighten it now so as to avoid damage from high water in future.
